ATHLETIC BOARD

PHILLIPS, WAITE AND WOLCOTT
NEW FACULTY MEMBERS.

Twenty-five Cent Tax Abolished—
Only Male Students, Male Graduates and the Faculty to Vote.

At the recent meeting of the University Senate important changes were made in the system of athletic control in vogue here. Professors Phillips, Waite and Wolcott were elected as faculty members of the Athletic Board to take the place of Doctors Lees and Bolton and Commandant Workizer. The following resolutions were adopted:

It is hereby ordered that:

The Athletic Board of the University of Nebraska shall include five student members who shall serve for one year and are to be elected annually.

Those eligible to vote at the election of such student members shall be (1) all male students of at least one semester's residence at the University who have made twelve (12) or more hours credit during their last previous semester; (2) all members of the faculty; (3) all male graduates of the University.

Any student eligible as a voter may become a candidate for election to student membership on the board who files with the secretary of the board at least one week before the day of election a written statement in which he declares his desire to become a candidate and his intention to remain in school the following year.

A list of all candidates for student membership shall be published in the Daily Nebraskan each publication day of the week preceding the date of the election.

This election shall take place on the second Monday of May. The polls shall be located in Grant Memorial Hall, and the hours of voting shall be from 9:30 a. m. to 12:30 p. m., and from 1:30 p. m. to 4:30 p. m. The faculty members of the Athletic Board shall act as judges of the election and there shall be at any time during the hours of voting at least three of the judges present at the polls. At least two of the judges shall remain at the polls and have charge of the ballot during the hour of intermission from 12:30 p. m. to 1:30 p. m. A majority of the judges of the election shall count the ballots.

The Registrar of the University shall provide a list of all students eligible, under the foregoing requirements, to vote at the election. This list shall be kept at the polls and no one who presents himself as a voter shall be given a ballot until his name has been found to be on this eligible list and has been properly recorded by the judges of election.

Each voter shall vote for not more than five candidates. Ballots shall be provided on which shall be printed in alphabetical order the names of all the candidates and the instruction at the top, "Vote for not more than

DELTA TAUS WIN.

Exciting Game of Baseball Is Played in the Wind.

The Delta Taus won a game from Kappa Sigma yesterday afternoon in the interfrat ball league. The game was played in a terrific windstorm and long before the end of the game most of the spectators had left.

One of the best and most exciting exhibitions of the year was put up and considering the wind the quality of ball played was first rate. Mather pitched a good game, but three of the four hits made off him were bunched in the fifth inning, which, together with an error, netted three runs.

The sixth inning opened with the score 4 to 1, in favor of the Delta Taus. The Kappa Sigs, aided by four errors, made three runs, tying the score. The Deltas opened up their half by getting Erskine to third on Montgomery's error. The next two men up were struck out and it looked as if the game would be an extra inning one. Harris relieved the situation, however, by a pretty single to right, scoring Erskine and ending the game.

DR. DAVID RUSSELL.

South African Evangelist Speaks at the University.

Dr. David Russell, since 1876 an evangelist and minister in the Natal and Cape Colony gold mining regions of South Africa, spoke at a special convocation in Memorial Hall yesterday afternoon. His talk, though brief and informal, was most interesting. He described briefly the mining region, mining methods, the heterogeneous population, and some of the native tribes, especially the Zulus, and gave many interesting anecdotes of his thirty-two years of life there.

When he went to Natal with the first gold rush in 1876 "to win souls," there were not 25,000 whites in the province. He has seen Johannesburg grow from an open prairie to a city of 200,000 population. There are now in South Africa several colleges, among them the South African College and Victoria College; and many high schools.

Dr. Russell's first church services in South Africa were held in a wholesale liquor store, without doors or windows, it being the only available building. He described it as "the queerest church in which the Gospel of Christ was ever preached." In the rear they built a gallery out of beer cases and called it the "beer gallery." All of the seats were gin and whisky boxes, as were the platform and the pulpit, and two "dead marines" served "candelabra." There were present at his first service General Joubert and staff, later commander-in-chief of the Boer forces, along with many other officials of the colony.

Much of Dr. Russell's religious work has been among the Zulus, whom he described as a people of magnificent physiques and the most war-like tribe on earth. There are many obstacles in the way of the spread of Christianity among them.

TRACK ATHLETICS

PRELIMINARIES ON SATURDAY,
MAY SECOND.

An Interclass Relay Race Is to Be One of the Events—Fencing Contest to Be Held.

The annual preliminary track meet will be held Saturday, May 2nd. It has not yet been definitely decided whether the meet will take place on the Athletic Field or at the Fair grounds. Much interest is being manifested in the meet and a great many new men are working every day.

The meet is an open one, every one in school being eligible to compete, regardless of the class he belongs to or the condition of his school work. The outcome of this meet will strongly influence Dr. Clapp in his choice of the men who will represent Nebraska at Kansas the following week and also in the choice of Nebraska's permanent team. However, if any men develop sufficiently later in the season to make them possible members of the team, they will be allowed to show what they can do again.

The program for the meet will include the same events as the regular intercollegiate dual meets, as follows:

One hundred, two hundred and twenty and four hundred and forty yard dashes, half mile, mile and two mile runs, one hundred and twenty and two hundred and twenty yard hurdles, pole vault, running high and running broad jumps, sixteen pound hammer throw, sixteen pound shot put and discus throw.

It is intended to have an additional event in the form of an interclass relay race. This will probably be a half mile race, run by a team of four men from each class, each man running 220 yards.

Dr. Clapp desires to impress upon all candidates for the team the fact that only a little over a week remains before this meet takes place and all men should be out every day and should work hard. There are a good many of the old track men in school who have not been getting out regularly. By their failure to be conscientious in track work they are setting a bad example for the younger men, they are injuring their own chances of doing good work, and they are to a certain extent working an injury upon the school. Nebraska's chances for a winning team are good this year and they should not be lessened by careless and unconscientious work.

Hereafter the long distance men will work from five to six if possible, and the will be taken to the Fair grounds.

Interest in another branch of athletics is seen to be growing in school namely, in fencing. Captain Workizer has offered a foil, mask and plastron to the winner of a fencing contest to be pulled off the latter part of next month.

Mr. C. A. Rymers, formerly of Annapolis, and Dr. Clapp will spend considerable time from now on in developing men for this contest.
