Fete Day was originally a day when
the prospective University student
came down to see the school and for-
mulate a few ambitions with regard to
his future. It has grown somewhat
away from this purpose into an inter-
high school contest day. With no ath-
letic field conditions are such that
many young men and women came to
Lincoln yesterday without appearing
on the campus. This is perfectly in ac-
cordance with the over-emphasis put

and the example of the University of
Wisconsin with its Mock Congress to
teach parliamentary practice is a good
one, but national politics in college pre-
vent the very thing that kills preju-
diced partisanship—namely an oppor-
tunity to think things over a little be-
fore getting into the fight.

Notice.

Lost—At Woman's Building, State
Farm, a brass paper knife. This knife
was specially designed and greatly
valued. No effort will be made to
punish the offender if it is returned
within the next few days.

INTER-FRAT BASEBALL.

Sigma Alpha Are Still in the
Lead.

The inter-frat baseball season is
gradually drawing to a close, but the
championship is still far from being
decided. So far, however, the Sig
Alphas appear to have the best team,
at least on the South side. They
have played four games, winning them
all and they have only one more game
to play, which is a postponed game
with Alpha Tau Omega. There is
only one possibility by which the Sig
Alphas could be kept from winning
the South-side championship. If the
A. T. O.'s defeat the Kappa Sigs,
which seems at least possible, judging
from Kappa Sigma's record so far,
and then defeat the Sig Alphas, the two
teams would be tied with .800 apiece.
If such a condition comes to pass an
extra game will be necessary to de-
cide which team shall meet the North
side winner for the fraternity cham-
pionship.

On the North side there are three
teams at present with a percentage of
.750, and a hot fight promises to re-
sult.

Wednesday the D. U.'s won two
games, one from Sigma Chi by a
score of 6 to 3, and one from the Phi
Gams by a score of 9 to 2. Batteries,
D. U., Sears and Russell; Sigma Chi,
McCarty and McAllaster; Phi Gam,
Houston and Matters.

upon athletics in American schools of
all grades. The advantage of athletics
is not primarily to develop physically
but to teach young people that in or-
der to win they must "produce the
goods." This is no excuse, however, for
forgetting the rest of the things that
play some part in education.

The University of Virginia has re-
cently instituted a political paper. The
great advantage of four years of col-
lege is to give people an opportunity
to grow up in an environment that
will keep them from prejudices. Such
a paper as this is therefore a detri-
ment, as young men who read it will
immediately take sides on national is-
sues before studying them and so usu-
ally land on the side that father voted.
Of course university politics, so long
as they are clean are a good training

The Harvard Medical School

With the completion of the new buildings, which were dedicated Sep-
tember 25th, 1906, this school now has facilities and equipment for teach-
ing and research in the various branches of medicine probably unequaled
in this country. Of the five buildings, four are devoted entirely to lab-
oratory teaching and research. Numerous hospitals afford abundant op-
portunities for clinical instruction in medicine and surgery.

Save Us!

O, Mr. President,
Is it really your intent
To save us all from being busted flat?
If that is your intention
We'd really like to mention
The thing they call the "Merry
Widow hat."

It's a regular purse breaker
And it covers near an acre;
We've seen some fierce ones—none
the like o' that.
O, get a message ready
And fire it in, dear Teddy,
Let congress curb the "Merry Widow
hat."

Three feet and sometimes wider,
No one can sit beside her
In street car, office, dwelling house or
flat,
Ask congress to relieve us
For, Teddy dear, believe us,
The worst ever is the "Merry Widow
hat."
