## ENGINEERS MEET

FINAL MEETING HELD IN SCIENCE HALL WEDNESDAY NIGHT.

Elect Blue Print Staff for 1909—Reports of Committees Received—Adopt New Amendments.

The engineering society held the closing meeting of the year in Science Hall of the Temple on Wednesday evening. The attendance was not large, but those who were there had something to say. The most important thing which came off was the election of next year's Blue Print staff.

The nominations were made by the executive board and are as follows: Woods Editor-in-chief, M. E. Strieter. Business manager, J. B. Johnson. C. E. Editor, E. M. Buol. M. E. Editor, H. W. Minman. E. E. Editor, A. J. Candy. R. A. Gantt.

M. E. Strieter was elected editor-in-chief and A. M. Candy, M. E. editor, these two being the only ones having opposition. The remaining part of the staff was elected unanimously.

The following reports were read and accepted with the exception of the business manager's report of the Blue Print, which was laid on the table until next semester when all money will be collected.

Professor Richards, M. E., Professor Stout, C. E., G. C. Page, G. L. Sullivan and H. E. Hertz will talk. All engineers should be present as this is one of the most interesting features of the engineering society.

The constitution was discussed and the following amendments presented were voted on and accepted:

I. The membership of this society shall consist of honorary and associate members.

II. The word "associate" should be inserted to precede the word "membership," in the first and second instance of Section I, Article VI. This will then read as follows:

Any student who is registered in one of the engineering groups of the University of Nebraska is eligible to associate membership in that society. Said student may become an associate member of the society by receiving a three-fourths vote of all members present at any regular meeting, his name having

Twelve seats at the Round Table will be filled, thirty-two men trying out at this time. In the preliminaries, which are to be held next fall, the other eleven men will try out, as well as any others who care to compete. There were only twenty-three speakers in all, in last fall's try-out.

### TRACK TEAM LEAVES.

Off Today for the Missouri Valley Conference Meet.

The University track team leaves today at one o'clock for Kansas City, where they enter tomorrow in the first annual athletic meet of the Missouri Valley Conference.

There are at present seven schools in the conference, Nebraska, Iowa, Kansas, Ames, Drake, Missouri and Washington. Judging from the records the teams from some of these institutions have made this year the fight for the championship will be a close one.

According to the dope, the chances for first place lie between three teams, Missouri, Ames, and Nebraska. If the Cornhuskers can do as well or a little better than they have done so far this year, their chances of victory are bright. In the weights Collins ought to be able to get first place in the hammer. His work in this event has been very consistent and his records in practice look encouraging. In the discus he ought to get at least third place. There are two men in the conference who have beaten Collins' mark this year in the discus throw, so third place is perhaps all that can be hoped for in this event.

Perhaps the strongest event the Cornhuskers have is the mile. Captain Alden has run it in 4:37 already this year and he thinks that the man who beats him tomorrow will have to run in 4:30 or under.

Knobe, in the high jump, and Perry in the broad jump, are regarded as sure point winners, while McDonald is expected to win something in the low hurdles.

In the other events, too, Nebraska is well represented and with consistent work the team should make a creditable showing.

Those who are to go on the trip are: Dr. R. G. Clapp, Captain Alden, Wildman, Hughes, Burke, Muller, Davis, Bauman, Williams, McDonald, Rathbone, McMasters, Collins, Perry, Knobe, and Chain.

### Tennis Notice.

H. D. Young, manager of the Tennis Club, would like to urge the contestants to play off their matches promptly. The tournament is dragging and must be hastened. All entered set dates for their matches and any one failing to appear at the time set will lose the match by forfeit.

## ANNUAL "COMPET"

COMPETITIVE DRILL WILL TAKE PLACE AT THE FARM.

Companies About Evenly Matched—Officers From Fort Omaha Will Act as Judges—Review.

The annual competitive drill of the battalion of cadets of the University of Nebraska will take place at the State Farm this afternoon. It is necessary to have the drill at the farm since the athletic field has been taken for the new engineering building.

The cadets will take the street car at 1:40 and the drill will begin promptly at 2:30. The band will furnish music between company drills.

The program will probably be as follows:

1. Company competitive drill. Companies to drill in order determined by lot.
2. Individual competitive drill.
3. Battalion drill.
4. Review by governor and staff, and presentation of prizes.

Every company has been working hard the last few weeks and it is hard to see any difference in the drill put up. Each company is fortunate in having a strong, heady man for captain. Below we print the names of the commissioned officers and the yell of each company.
