American Schools May Send Delegates to Chili.

An attempt has recently been made by the government of Chili to bring about an approximation of North American ideas with those of South American countries through the intellectual medium of a fourth Latin-American conference, which is to take place in Santiago, Chili, December 20, 1908. About fifteen of the leading universities in the United States and also any scientific schools which may be interested are invited to send delegates.

As to what attitude the United States will take toward this invitation depends chiefly on the action of Congress, for a bill providing the appropriation of \$35,000 for the purpose of sending delegates to this conference is now before the house of representatives. Should the bill pass, President Roosevelt will have the power to choose those institutions which he wishes to have represented, the college or institution designated appointing in turn its own representative.

The fact that the date of the conference is December 20 may be a drawback in a way to certain colleges, since the representative selected would of necessity be absent from the end of October to the last of January. However, if the bill is passed, the right to send a delegate is one to be desired by any school because of the remarkable opportunities offered.—Michigan Daily.

PROFESSOR ALEXANDER.

New Member of the Faculty in the Philosophy Department.

Much interest attaches itself to the election of Dr. H. B. Alexander as Professor of Philosophy at Nebraska. Dr. Alexander is the son of George S. Alexander and was born in Lincoln, April 9, 1873. His father was a clergyman in New England, but early came to Nebraska, and later engaged in the newspaper business at Syracuse, Nebraska.

Dr. Alexander graduated from Nebraska in 1897, and later studied at Pennsylvania and Columbia, specializing in Philosophy. He took his Ph. D. at Columbia under Nicholas Murray Butler, now president of that university.

After that Dr. Alexander engaged in literary work in Boston, being for a year an editor of and contributor to the International Encyclopedia. He is now in editorial work with the G. and C. Merriam Company of Springfield, Mass. Among his writings are: "Problems of Metaphysics," 1902; "Poetry and the Individual," 1906; and "Mid-Earth Life," 1907. He has contributed to several philosophical journals and belongs to several organizations of that kind.

Professor Alexander's new courses next year will be: "Problems of Philosophy and Science," for students of the special sciences and literary students desiring a general view of the significance of science, and which deals with geographical, astronomical, and evolutionary conceptions; "Philosophy of Criticism," dealing with the fundamental critical conceptions; "Greek Philosophy," a study of the rise of European thought in the Mediterranean basin; and "Humanism," which has to do with the historical phases of the conception of culture.

One of the steamboat lines on the lakes gives half fares to Indians and clergymen. An Indian preacher from Canada asked for free transportation, as he was entitled to one-half rebate because he was an Indian, and to the other half as a clergyman.—Ex.

TENNIS TOURNAMENT.

Flower and Richey Win Doubles—Kansas Comes Friday.

The final round of the doubles in the University tennis tournament has at last been played off. Yesterday at eleven o'clock Young and Raceley met Richey and Flower to decide the doubles championship. After a hard-fought match, Richey and Flower won in straight sets. Score, 6-3, 6-1.

Although Richey and Flower have been playing consistent tennis, yet they were expected by many to be defeated by the more experienced players, Young and Raceley. Considerable surprise was therefore evinced when Flower and Richey pumped in and won three straight games on the first set. Young and Raceley steadied a bit, but the lead was too great to overcome. Flower and Richey took the set by 6-3.

Racely's "Lawford" stroke was in poor working order and he lost many points by repeatedly driving out of court. While Young's returns were more accurate than his partner's, yet his overhead work and his serve were below his usual standard.

Flower and Richey played consistent tennis, and aided by their opponents' errors, they took the second and third sets handily. It is predicted, however, that better tennis must be played if the Jayhawkers are to be defeated on Friday and Saturday.

The singles are being played as rapidly as possible. White defeated Wood, and Crites defaulted to White, putting White in the semi-finals. Young defeated Racely in a close match in which he lost the first set. He braced then and took the next two sets and the match. Score: 3-6, 6-3, 6-4. White then defaulted to Young, which puts Young in the finals. King defaulted to Post and Erskine beat Richey, after which he defaulted to Post, putting Post in the semi-finals.

Slaughter and Mills play this afternoon, the winner plays Post, and the winner of this match meets Young in the finals. These matches must be played promptly as the tournament is dragging and everything should be finished so that preparations may be made for the Kansas matches Friday and Saturday.
