1879.

OCTOBER 7, 1908.

IN THE FUTURE.

The crowded condition in classes in several of the different departments of the university this fall again emphasizes the fact that Nebraska is growing too fast for its accommodations. Its quarters are too small to take care of the increasing number of students who come here each year. Within a few years, if the present stream of freshmen continues to pour into this university, there will have to be an extensive expansion in the way of new buildings. Few more can be erected on the campus, and about the only alternative is for the regents to order future buildings to be placed at the farm.

The price asked for land in Lincoln prohibits the enlargement of the campus here. The obstacles and cost which the athletic board have had to face in securing a few lots north of Nebraska field have demonstrated what may be expected if the regents should attempt to purchase land for the extension of the present campus.

The state farm offers a fine location where any number of buildings may be constructed, giving plenty of room for instructors to do better work and

NOT ALL TREACHEROUS

JUDGE NORRIS DEFENDS THE FILIPINO CHARACTER.

OPPOSE EARLY INDEPENDENCE

Declares the Dominant Government is for the First Time in History Bearing Burdens of the Serving-Class.

We are in the Philippines to bear the white man's burden. For the first time in our history the American school teacher, and missionary works side by side with the government. For the first time in the history of the world the dominant government is bearing the burdens of the serving class." Thus declared Judge W. F. Norris in a scholarly address at chapel yesterday. Continuing his address he spoke as follows: "What shall we do with the Philippines is the question which was asked in 1898 and the same question is still before the American people. Some people say, 'Let us sell the islands,' others say, 'Let us trade them for something more valuable,' and still others say, 'Let us keep them.' We must at least keep the Philippines until we have fitted them for independence.

Opposed to Japanese.

"As soon as it was reported that the United States might sell the islands to the Japanese a storm of protest at once arose among the Filipinos. The Filipinos do not wish to come under the control of the Japanese for many reasons. In the first place the Japanese government is an absolute monarchy and the Filipinos look toward ultimate independence. The Japanese are a non-Christian people and the Filipinos are a Christian people.

"Judge Norris declared that he wished to remove some of the false impressions about the Philippines. Although the question has been discussed for so many years the Americans do not seem to have a much clearer idea of the nature of the Philippines than they had in 1898. In some discussions of subject the Filipino is painted as having a treacherous and deceitful character. In others his character is painted all white. Now the truth of the matter is that the Filipinos are very much like other people, neither all black nor all white. Men find others to be a good deal as they treat them.

A Composite People.

"We are not holding the Philippines

person than such colleges as the University of Nebraska.

"The great landowners of the islands make their own laws and by means of their bands of retainers force the carrying out of their commands. The whole race is not treacherous or deceitful, but by far too many people are of such character."

A NEW REPUBLICAN-BRYAN CLUB.

Minnesota Republicans Line Up Rapidly for Great Nebraskan.

Believing that many men at the University of Minnesota who are republicans are in favor of Bryan as president, a club is being formed of Bryan republicans. The republican Taft club that was formed there last week was not successful as far as numbers were concerned for only thirteen men turned out. The new club was launched in the night law school Monday evening and in twenty-four hours had a membership of over one hundred.

Blanks are now being circulated on the campus and it is believed that five hundred men will be signed up before the end of the week. The pledge reads as follows:

1. We, the undersigned, students of the University of Minnesota, declare our allegiance to the republican party, and pledge our devotion to progressive republican principles.

2. We believe the Chicago convention adopted a platform which does not embody those principles and nominated candidates whose views do not reflect the will of the people.

3. We hold that it is the right and the duty of the people to rebuke party leaders when they allow political organizations to be influenced by considerations of private interest.

4. In the exercise of this right and duty we express our intention to vote for candidates who are pledged to further progressive principles, without regard to the party to which these candidates belong and to exert all our influence to secure the election of William Jennings Bryan as president of the United States.

5. To make our efforts in this direction more effective we hereby associate ourselves as the Republican Bryan Club of Minnesota."

The registrar's office of Grinnell college sends out an encouraging report of the progress of the endowment campaign during the month just closed. It shows about \$45,000 raised in that time. Every effort will be made to surpass this in the remaining months. If this average is kept

AT OTHER COLLEGES

Purdue has a new coach for the freshmen team. The former coach has a position with the Erie railroad and will leave school.

The political clubs at Indiana are organizing quartets.

Those who cut class at South Dakota henceforth must go to the registrar and be reinstated.

Iowa may abolish secret practice with the idea that the system injures class spirit.

Prof. A. C. Waldo, professor of mathematics at Purdue for thirteen years, has resigned. He will go to Washington university in St. Louis.

Dr. Sasamori, a Japanese, spoke to De Pauw students Friday.

The basket-ball team of the University of Washington is making a great hit in Japan. It is the first white team to visit that country.

Ed Coughlan, Minnesota's star quarterback, has reported for practice.

Cornell is making an effort to develop intercollegiate athletics. Association football, cross country running, basket-ball, indoor stunts, baseball, track, and rowing will be on the lists.

A freshman at South Dakota has been appointed captain in the regiment. All the commissioned officers there get pay this year for the first time.

Plans are on foot which seem likely to result in an all-university senior class at Minnesota, in which the academics, engineers, laws, medics, dents and "aggies" will unite in electing officers. If the plan goes through the all-university organization will take charge of the senior "prom," the senior class play and the work in connection with commencement.

A girls' orchestra is the latest news that is stirring the college musical world at Minnesota. Not satisfied with their numerous feminine organizations, with dramatic laurels, with representation on the leading publications and even with their glee club, the ambitious co-eds have come forward with an orchestra.

The freshmen won the pole scrap at Monmouth last week. The sophomores protested the decision because the freshmen carried wife cutters which they claimed were "dangerous weapons." The objection was overruled.

The underclassmen at Indiana, have declared a truce until their annual scrap next Saturday. The two classes have been having street fights galore, and the city policemen have had to disperse the crowd occasionally.

Sorority at Baker.

Alphat Chi Omega has just added another chapter to its chain of university organizations.

The new chapter, known as the Omicron chapter, has been installed at Baker University, at Baldwin, Kan. It is the outgrowth of a local sorority, Nu Alpha, which has been organized at Baker for twenty years.

The Nu Alpha sorority had an alumnae enrollment of 121 members. It was an organization of high fraternal standards and some of its members have played leading roles at Baker. It had never petitioned for admission to a national sorority until its request to Alpha Chi Omega.

The Omicron chapter of Alpha Chi Omega, as installed at Baker University, is the first and only chapter of that society in Kansas. The nearest sister is the one at the University of Nebraska.

The date for the first Y. M. C. A. "feed" has been set for Saturday, October 17. The supper will take place at St. Paul's M. E. church at 6 p. m., and will be one of Dr. B. L. Paine's famous chicken pot pie suppers.

to give the students the needed facilities for high class work.

It is not too early now for the university authorities to be looking around and laying plans for the expansion which will have to come within a few years. Some members of the faculty realize the needs of the university and are doing good work in an effort to bring about the best results for university extension. This movement needs a great force behind it and everybody with any power should lend his aid.

The subject for the Wednesday evening Y. M. C. A. meeting is "Cascade Reveries."

The "gym" classes in physical education start this week. Course 15 will meet Thursday and course 13 comes Friday. The classes have been delayed on account of physical examinations.

against the consent of the people. It is utterly wrong to say that the Filipinos, as a people, desire any one thing. The Filipinos are a composite people with vastly different ideas and desires. Some Filipinos desire immediate independence, others desire that the United States shall hold the islands until they reach the point where they are capable of governing themselves. Some desire protection for the Christian religion, some desire protection for Mohammedism, the men in the lowlands desire protection from the raids of the mountaineers, the men living in the mountains desire protection from the exhortion of the men in the lowlands. Under these circumstances it is impossible to say that any one thing is desired by the Filipinos.

Native Government Bad.

It is sometimes said that if the American government should be withdrawn, the Philippine government would fall into the hands of an educated oligarchy which would be as good for the people as an American oligarchy. While it may be true that the government would come into the hands of the educated classes it is not true that this would insure a good government. The educated Filipinos are a very different sort of people from the educated Americans. The schools of Manila turn out an entirely different

up the conditions of the general board of education's gift will be met and the future will be easy sailing for a better Iowa college. The largest gift since the last statement was made was from Mrs. M. E. Haskell of Fort Dodge, amounting to \$10,000. Another notable gift was of \$2,000 from Mr. and Mrs. J. L. Fellows of Grinnell.

Are They Right.

At the University of Nebraska every candidate for a class office is required by the university rules to announce himself a stated time in advance of the election. The date of the election is known a considerable time in advance, and by this means every member of the class has a chance to take part in the election and to know just what he is doing. Here at the University of Kansas, the "old school" of politics still flourishes, with packed caucuses, "dark horses," and hurried elections, and the trail of the gum shoe is over it all. Whether this is the best political training that can be given men who are expected after they leave the university to play the game of politics under the most enlightened primary and election laws of any state in the country may well be doubted.—Kansan.
