"FRATS" INTELLECTUAL HOBOES.

Dean Deed of Michigan Scores College Secret Orders.
 Dean Deed of the literary department of the University of Michigan made an attack on college fraternities before the State Teachers' association Saturday. His speech was entitled "Intellectual Hoboes."
 "Musical organizations and athletic clubs are foci for dissolute and disorderly hangers-on," said the dean; "while the fraternity organizations might be one of the most powerful instruments for good influence and scholarly work, yet, as they exist at present, their influence is all thrown in the direction of interests which are not academic."
 "I have sufficient proof of this. Last February twenty-three men from the literary department and seven from the department of engineering were dismissed from the university for incompetence. Of these seven were still in Ann Arbor, most of them living in fraternity houses as late as the month of May. Prominent members of some of the fraternities came and implored me to help rid them of this class of fellows."
 "Not only this, but two or three fraternities had men boarding in their houses who made no pretense of attending classes, and who had not even registered in the university. These conditions I have found existing in every university I have visited. The only way to get rid of these intellectual hoboes is summary dismissal. My statements can all be definitely substantiated."

TO MOVE MISSOURI MEDICS.

Kansas City Offers Improved Clinical Facilities.
 The board of curators of the University of Missouri will meet in Kansas City next Tuesday to consider the removal of the last two years of the medical course to Kansas City.
 A proposition has been made to the board of the University medical college of Kansas City for the removal of the senior and junior years of the medical course to that school. This will be considered at the Kansas City meeting, but it is probable that no final action will be taken at that time. Columbia does not afford proper
