

The Daily Nebraskan

Vol. VIII. No. 62.

UNIVERSITY OF NEBRASKA, LINCOLN, FRIDAY, DECEMBER 18, 1908.

Price 5 Cent.

LOSE TO THE Y. M. C. A.

CORNHUSKER FIVE DEFEATED IN HOT CONTEST.

TO ELECT FOOTBALL CAPTAIN

Interest is centered in the election of Captain for next year's team, which will be decided at today's meeting.

The Y. M. C. A. basketball five defeated the university team last evening in the armory by the score of 34 to 16. The game was fiercely played throughout and rough playing was indulged in by both sides. It was a fair example of what the game under the new rules can become. It is doubtful if such a rough game was ever played on the armory floor before; it resembled football more than it did basketball and frequently players would be run into and thrown violently as they are on the gridiron.

Although there are two officials provided for in this year's rules, yet they were not able to prevent unnecessary roughness, even though they called a great many fouls. The varsity players seemed to go in for rough play a little more than the Y. M. C. A. men did, probably on account of the fact that they have not been "called" for such tactics very strictly in practice.

Strong Team Work.

The Y. M. C. A. five excelled particularly in team work. They were able to carry the ball down the floor with greater success and their guarding was first class. At shooting baskets the Waugh brothers and D. Mitchell did great work for the Y. M. team. Each of them contributed four field goals and in addition Fred Waugh threw five free trials at goal from fouls.

The varsity team was considerably weakened by the absence of Captain Walsh at right forward, who is still suffering from an injury received in practice last week. The work of Aug. Schmidt, who filled this position was very good, but he failed to come through with a bunch of spectacular plays which may usually be looked for from the lanky captain. It was expected that Hutchison would be played at forward in the absence of Walsh, but he did not go into the game at all. It is reported that he is temporarily delinquent in school work.

Score of the Game.

The detailed score of the game was as follows:

| Nebraska | FG | F | T |
|---------------------|----|---|----|
| Wood, Richey, rf. | 1 | 2 | 2 |
| Schmidt, Jones, lf. | 2 | 2 | 6 |
| Petrashak, c. | 0 | 0 | 0 |
| Bell, Long, rg. | 1 | 2 | 2 |
| Perry, lg. | 2 | 2 | 6 |
| Totals | 6 | 4 | 16 |

| Y. M. C. A. | FG | F | T |
|---------------|----|---|----|
| Mitchell, rf. | 2 | 4 | 4 |
| S. Waugh, lf. | 4 | 4 | 12 |
| Hiltner, c. | 1 | 2 | 2 |
| F. Waugh, rg. | 4 | 8 | 8 |
| Phillips, lg. | 4 | 8 | 8 |
| Totals | 15 | 4 | 34 |

Final score—Y. M. C. A., 34; University, 16.

Referee—Hewitt.
Umpire—Klewit.
Timer—Der Kinderen.

Election of Captain.

The election of a football captain for next season's team will take place at the Armory this noon. The method used in electing the captain is to allow all of this season's "N" men to vote. There were fourteen letters awarded to the following men: Captain Harvey, Johnson, Chalouka, Frum, Harte, Ewing, Collins, Cooke, Bentley, Birkner, Kroger, Temple, Minor, and Beltzer.

These men will be eligible to vote for next year's captain at this noon's meeting. According to the instructions which they received, they will have to reach a decision before they leave the building and not let the thing hang fire as it did last year for several weeks. Eight votes will be necessary for election.

The two men who have so far announced themselves as candidates for the captaincy are Sidney Collins and Sidney Frum. They have both played on the varsity for two years and are players of unquestioned ability, and

either of them would without a doubt make a good captain.

According to the present dope, the vote will be seven to seven on the first ballot. It is possible that, if both sides are obstinate in clinging to their candidate, it will be necessary to compromise on some other available man. Others who have been talked of for the place are Harte, Ewing, and Beltzer. Still another possibility is that the team, in the case of a deadlock, will refer the matter of electing a captain to the athletic board.

KEEP PRICE OF DANCE AT \$1.25

Junior Chairman Finds It Inadvisable to Make Lower Charge.

The Junior hop committee held a meeting in U. 106 at 11 o'clock yesterday morning, at which time the chairman, Mr. Monson, reported that all the arrangements had been completed in a satisfactory manner. A great deal of discussion then ensued as to whether the cost of tickets should be lowered to meet the price which is being charged for other dances at the Lincoln. All of the hops given at the Lincoln so far have cost \$1.25. Some of the members thought that the juniors should lower their prices to a dollar. In reply to this, Mr. Monson said that he had looked into the matter carefully and had decided that the dollar and a quarter was to be preferred. He called the committee's attention to the fact that no dance at the Lincoln had been a success at \$1.25, and that to pay expenses it would be necessary to have about 100 couples on the floor. At the same price at Fraternity hall he explained that he could furnish the best of everything and pay expenses with seventy couples. At \$1.00, though, it would be necessary to crowd the hall with almost ninety couples. He said he felt sure that those attending would rather pay the extra quarter and have room enough to dance satisfactorily. The price was left at \$1.25. It will occur on January 8 at 8:30 o'clock.

PALLADIAN BANQUET TONIGHT

Annual Banquet of Literary Society To Be Given at Lindell Hotel.

The annual banquet of the Palladian Literary society will be held at the Lindell hotel this evening. All active and alumni members of the society in the city will be present. Several members of the society from out of the city will also attend. Professor Stuff will act as toastmaster. An excellent toast has been prepared and the "Palls" expect to have a very enjoyable feast.

The annual election was held recently and the following officers chosen: President, E'mer W. Hills; vice president, Anna Lammers; recording secretary, Bertha Williams; corresponding secretary, Ina Williams; historian, S. A. Mahood; critic, William Reynolds; program secretary, Frank Reinich; music secretary, Mabel McVeigh; members of executive board, Henry F. Wunder and George W. White.

SCHOLARSHIPS ARE FOR WOMEN

Unusual Notices Are Received by Doctor Bessey.

Notices of two scholarships for women were received yesterday by Dr. Bessey and posted on the Botanical bulletin boards. One of these notices is issued by the Naples Table association for promoting laboratory research by women. The association was formed in 1898 to promote scientific research among women and all appointments are made by the executive committee. The association also announces a prize of \$1,000 for the best thesis written by a woman on a scientific subject, embodying new observations and new conclusions based on an independent laboratory research in biological, chemical or physical science. The other notice is of the Sarah Berliner Research Fellowship for Women, which is a fellowship of the value of \$1,200, open to women holding the degree of doctor of philosophy, or those similarly equipped for further research work.

These notices are considered of especial importance by Doctor Bessey as opportunities for women to do work in scientific research are much more limited than for men. Those desiring further information can get it by seeing Doctor Bessey.

WILL START TO WORK

Y. M. C. A. TO MAKE RENewed EFFORTS AFTER HOLIDAYS.

PLAN INCREASED ACTIVITIES

New Bible Classes and Mission Study Sections To Be Organized—W. J. Bryan to Deliver an Address in January.

Immediately after the Christmas holidays are over and the students have returned to Lincoln for the spring term, the university Y. M. C. A. will take up anew the work of its various branches. Endeavors will be made in every line to bring the work up to the top notch for the rest of the year. The campaigns in all divisions of the work which will be started with the new year will be expected to bring things into such shape that this year will be by far the banner one in the history of the association.

With the beginning of school in January considerable additional Bible study work will be instituted. There are now some thirty-six classes with 400 students enrolled doing regular work under instruction of leaders of the association. After vacation it is proposed to start at least ten more similar sections for new students. There is promise that all these divisions will be readily filled and it may be necessary to add even a larger number.

Another feature of the work which will be exploited after the holidays is the fraternity Bible classes. These have not yet been organized but steps to that end have already been taken and the matter will be pushed immediately after vacation. Last year the association had classes in nearly all fraternities in school. It is hoped to meet with greater success this year.

Mission Studies.

After New Year mission classes similar in their plan of work to the regular Bible classes will be instituted. Instead of having several different groups studying different countries, as was the custom last year, all groups will take up the consideration of India and the need for missions there as well as the work that has been accomplished by the present missionaries. The character of the eastern people will be studied, their religion and habits of life will be looked into, and methods of bettering their condition will be discussed. Dr. Lawrence of the First Presbyterian church of Lincoln will lead the leaders' class.

Some time in January there will be a great mission rally of all university students at which an endeavor will be made to awaken interest in missions generally and especially in the new classes of the association. At this meeting W. J. Bryan will be the principal speaker. The date for the gathering has not yet been exactly set. It will be some time about the middle of the month, however, and it will be one of the big days of the university Y. M. C. A.

Directory Out Soon.

The university student directory, published jointly by the Y. M. and Y. W. C. A.'s, will be issued immediately with the opening of school January 4. The book is now being printed and nothing in reason can prevent its being put out on time.

There will be no further social events until about the end of the semester. Some time late in January there will be some sort of a social, the exact date and the time not yet being definitely fixed.

Soon after the holidays a final campaign for members will be started in which a last effort will be made to increase the list of members to the 800 mark. It is believed that this can be done with a little work on the part of the membership committee members and those already enrolled in the association.

The new pianola has been in use in the rooms in the Temple for several days and has given the boys much pleasure. There are thirty-five records

to start with and these may be exchanged as there is a demand for late pieces.

GIVES JUDGING TEAMS BANQUET

Chancellor Andrews Honors Winning Nebraska Students.

In response to an invitation by Chancellor Andrews, the members of the live stock judging team which represented the university at the International Live Stock Show, and of the dairy judging team at the National Dairy Show, both recently held at Chicago, assembled at the Lincoln hotel at 6 o'clock last evening.

Those present were Chancellor Andrews, the members of the teams, C. K. Shedd, C. P. Jeffords, G. G. Gilbert, J. F. Coupe, J. H. Gramlich, B. S. Culver, Carl Ulman, Dean Burnett, Professors H. R. Smith and A. L. Haecker, instructors E. M. Little, Ellis Rall, and S. McKelvie, and Governor-elect Shallenberger as the guest of honor.

After a five-course dinner, of which all partook, Chancellor Andrews in the capacity of toastmaster, contrasted the work and merits of the teams representing the university in the various interscholastic contests, saying that Nebraska had competed in the past successfully with some of the strongest colleges and universities in every line of student activity. He expressed great pleasure in that the football, baseball and debating teams had been accorded complimentary dinners at the close of their respective seasons, and said the stock judging teams were equally deserving of being so honored.

He then introduced Professors Smith and Haecker, who spoke on how the teams had been prepared for this contest.

The chancellor was especially impressed with the work done by J. H. Gramlich, who, as an individual, won second in the dairy and third in fat stock judging contests.

Toasts were then responded to by Gramlich, Ulman and Coupe, who spoke in behalf of the teams.

Dean Burnett, in a short speech, urged that a proper combination of principle and practice be maintained in agricultural education at Nebraska. Governor-elect Shallenberger, with appropriate remarks, closed the function, saying that since it was Nebraska's first effort along this line, it may have been better to have won second than first, because had we won first we might have become too proud.

All expressed their gratitude to the Chancellor, wishing him much pleasure in his contemplated trip to Florida, and the meeting was closed with the "Uni" yell.

NOT TO POSTPONE THE DANCE

Junior Prom To Be Held on Original Date.

Denying the charge that the junior prom was to be changed to another date, coming later in the year, Chairman Alexander of the "prom committee" insisted that the dance would be held on the date originally decided upon, February 5, at the Lincoln hotel. Just how the rumor circulated that we were going to postpone the dance started, I cannot understand," said Mr. Alexander, when asked regarding the matter. As a matter of fact no basket-ball game is set for February 5, so that evening will be open to the prom and there will be no interference from any other university function. The original schedule of the basket-ball team called for a game with the Jayhawkers on that evening, but owing to conflicts that date was changed and that evening was left open.

MESSIAH DRAWS A BIG CROWD

Students Show Appreciation of the Magnificent Music.

Memorial hall was taxed to its capacity yesterday morning to accommodate the students who wished to hear Handel's Messiah. This has come to be one of the big musical events of the year and the crowd which filled the hall shows that the students appreciate it.

Mrs. Raymond deserves the highest credit for the way in which the event was conducted yesterday morning. With as complicated a program as this it is worthy of more than passing notice that everything passed off in perfect order and in such a way that the magnificence of the music could be appreciated to the highest degree by those who were present.

OFF TO THEIR HOMES

STUDENTS LEAVE FOR ALL SECTIONS OF THE STATE.

WELCOME CHRISTMAS HOLIDAYS

Expect to Recuperate for the Hard Work Before Them in the Next Two Weeks by a Complete Rest at Home.

Beginning last evening, scores of students left for their homes in various sections of the state to enjoy the Christmas holidays at their homes and to recuperate their health in preparation for the long stretch of work which starts with the opening of school on January 4. The students will have about eighteen days of vacation, school closing this evening at 6 o'clock and opening Monday, January 4, at eight o'clock. Completing their work before hand, large numbers of the students took advantage of the opportunity before the majority of students leave for their homes.

As a relief from the hard work of the past few weeks, the students as a rule welcomed the holidays. With only a short intermission at Thanksgiving, the work has been continuous since the beginning last September, and as a number have expressed it, they are "all in, down and out." Planning to enjoy their vacation to the utmost, the students look forward to the two weeks of rest.

Crowds at the Depot.

Anticipating that there would be large crowds at the depot, the agents of several of the roads announced a sale of tickets for the holidays yesterday, so that students might purchase their tickets before going to the depot and thus preventing congestion. Early last evening almost every train leaving the city contained groups of happy students anxious to arrive at their homes with the least possible delay. Of all the happy events of his university course which the freshman looks forward to, is the two weeks which he is permitted to spend at home during Christmas and New Years. Second only to this is his desire to get back after having spent several days in a country town, with nothing to do but to take life easy.

It is with almost as great a feeling of relief that the student welcomes his return to the university. In spite of the good times, and the home care, he generally comes to look forward to the old room and the boarding-house grub as a part of his life. Satisfied with two weeks of mother's cooking, he returns again to put up for another semester with the boarding-house bill of fare.

Students Do Shopping.

With their arms full of parcels, and their suit cases packed the students show that they have taken advantage of the bargains offered by Lincoln merchants, who announce their stocks through the columns of the Nebraskan. A Lincoln merchant made the statement yesterday "that his student trade this year was the heaviest for several years." Everyone seemed to want to buy, and in most cases the purchases were substantial ones. With a larger and more complete assortment to pick from, the students desire to lay in their Christmas presents before they reach home at prices the same or lower than they could be purchased in the smaller towns.

By this evening the campus will be largely deserted and by Saturday night the only signs of student life will be the few who remain behind to make up back work or those who have their home in Lincoln. The effect of the students leaving Lincoln for the holidays is noticeable even away from the campus, and the boarding and rooming houses will welcome their return to the city.

Conditioned Examination.

All conditioned students in Applied Mechanics 14 are requested to meet for examination at 10 o'clock, Saturday, January 9, 1909, in room M. 307. Geo. R. Chaburn, Professor of Applied Mechanics.

The best oyster stew in the city is that served at The Boston Lunch. Try it.
