Junior Class Society.  
 Editor Daily Nebraskan:  
 Dear Sir:—I note several discussions in your columns as to the feasibility of organizing a junior class society, and desire to enter the debate.

Firstly, I am an innocent; but this fact does not bias my opinion in the least, for, since that society is a university society and has purposes over and above anything pertaining to a purely class organization, it can not be used as a standard of comparison for the latter. True, the members of the innocents are chosen from the senior class; but, for the simple reason that they are older in the university and better know her customs, wants and needs, and are in a better position to further such interests, than members of lower classes. The society has absolutely nothing to do with the senior class organization more than it has with the organization of any other class. Its purpose is not to dabble in class politics or in any way meddle with class affairs, as an organization, except, insofar as such

affairs concern the whole university. Neither is its work confined to the college year alone; for, there is many a daily obstacle being overcome by its members who long since have left the college gates, but who are still loyal to the society pledges and to their Alma Mater.

But as to the junior class society, will it benefit the university, or even the class? We have some class societies, and what have they done? Insofar as I can see,—nothing. Even the one that has degraded into a purely political clan, what has it done? Has it ever elected a class officer from its membership or even a candidate it has supported? If so, when?

A purely class society is bound to run into politics, and when it runs into politics it runs into the ground. There is a mania at Nebraska for organizing—it has ever been so. If there falls to be an informal after the basket-ball game then the spirit is ebbing low—we must organize. Instead of supporting the organizations that have a past and a future, it is organize to "lick" them.

If the organizers would spend half the time in spouting their spirit and enthusiasm and imparting some of it to their friends as they do in promoting this endless chain of societies they would supply a far greater need.

When we've organized one great society whose membership includes ev-

**THREE REQUIREMENTS FOR ALL STUDENTS**

You need reliable, original and complete material for written or spoken work. You also need books and magazines. And later a summer or permanent position, which you should plan for now, before all the best openings are filled. Here is the way to get all three at a minimum of effort and expense.

**We Are Dealers in Facts**

We furnish the best information obtainable on any subject in school, college or club, in business and public affairs. Our work is accurate, complete and to the point, carefully typewritten, promptly supplied, and arranged in suitable form, with outlines, bibliographies and full references.

We not only have in our own force highly-trained investigators and specialists in various lines, but we have made a business of "knowing the men who know" and by means of this system of knowing "Who's Who for Efficiency" we can go straight to headquarters for authoritative information and expert advice.

Added to our large stock of information on hand and our means of obtaining authentic information, we have a highly efficient system of sifting, arranging and presenting our facts in form that exactly meets individual requirements—that would exactly meet your needs.

We are especially strong in political science, economics, sociology, anthropology, fine arts, literature, applied science, commercial geography, travel and exploration, international law and diplomacy, history, foreign affairs, interstate and foreign commerce, financial and industrial conditions, and public problems and live questions of the day.

The cost is less than might be expected. Our charges for new and original material are at the rate of two dollars for each thousand words furnished. Quality of work guaranteed, or money refunded. Methods, references and quotations on important investigations furnished upon request. (We have thousands of articles on hand which we offer, subject to prior sale, at \$1.50 per thousand words. Send for price list.)

**A Desirable Position for You**

If you are wise, you are already planning about a summer or permanent position or about an opening in the professions or independent business. To introduce our service to you, we will give you advice, information and real assistance along these lines without charge (from now up to the time you secure a desirable position) if you send us a five dollar order for information, i. e., 2,500 words or over at \$2 per thousand.

In our official capacity, we come in touch with boards of trade, chambers of commerce and other local and general organizations of employers, as well as large corporations and other concerns, educational and other institutions, and municipal, state and other governmental departments. We are thus in a position to know of positions of all kinds everywhere as well as opportunities for starting out in independent business or professional lines.

No red tape, no commissions, no strings are attached to this offer. It is free and unconditional. This information we gain about positions is simply a valuable by-product of our regular information business, and we use it to attract, help and thus hold customers. We do for you all that any regular employment agency can do, with this important difference—we ask you to sign no involved contracts, pay no fees or commissions, and incur no other obligations.

**Books and Magazines Free**

As a further inducement, with every five dollar order for information we will give free, in addition to the employment privilege, any book or a year of any magazine you specify, the publishers' price of which is not over one dollar. With a ten dollar order for information, we will give \$2 worth of books or magazines; with a \$15 order, \$3 worth; with a \$20 order, \$4 worth; with a \$25 order, \$6 worth; and so on. Two or more men may club together with several subjects to make such an order and divide the privileges among them.

**How to Order**

Just think up one or more subjects on which you need material. Estimate the number of words required. Enclose two dollars for each thousand words desired, give us exact directions as to what you want and when you want it, and if the order is for five dollars or over, name the books or magazines you wish and tell us about the position you would like and your qualifications for it. We will do the rest. Address at once:

ery member of every class, every member of the faculty, and all the business men and farmers that can be induced to join, each imbued with a little state pride and university interest, then we have struck the keynote of the society situation.

What the junior class needs instead of more societies is better acquaintanceship. Get up some "stunts" in the early autumn. He yourselves to the woods some bright Saturday morning. If you please, and do some "stunts" in which all will have a common interest, such as eating a good hardy picnic breakfast, for instance. Cut out the Miss and Mr.—be known as Jennie and Jo and Tom and Jack; get acquainted with yourselves, it will enhance class spirit more than all the societies you can find names for and do more towards obliterating that so-called frat-barb line than anything you can devise.

Very respectfully,  
 C. C. McWILLIAMS, '07.
