THETA NU EPSILON.

Last Saturday evening at the Lincoln hotel a certain organization of of the university do not as yet per the state university held its annual banquet. Not a banquet of the ordinary type, with many good things to urday evening every member of the eat and many fine speeches afterwards, but a wild affair which ended in the early morning hours as the members straggled unsteadily homeward. Theta Nu Epsilon as an organization is forbidden in most of the western universities. As yet it is not officially forbidden in the University of Nebraska. Its continued existence here is simply the maintenance of an open sore; a sore that cannot be healed for every fifteen words or fraction thereof, as long as the organization is tolershould speak, and speak with a voice of authority that will be understood and feared even by an organibation that has its tentacles in every university activity and its deeds covered with the deepest secrecy.

> It is true that Theta Nu Epsilon is not officially forbidden at the University of Nebraska. There is, however, no reason why the university authorities should not mete out to individuals that treatment which the rules mit them to give to the organization itself. By their actions at the annual banquet of the organization last Satorganization who was present has rendered himself liable to expulsion. Section 4 of chapter 4 of the by-laws of the regents of the University of Nebraska provides as follows:

"A student may be refused registration, suspended, or expelled for persistently infringing the good order good name of the university.

Section 5 referred to in the above quotation is as follows:
