BLUE PRINT NOW OUT

ENGINEERING SOCIETY ANNUAL
IS ON SALE TODAY.

DEDICATED TO PROF. STOUT

CONTAINS A NUMBER OF CUTS
AND HALF-TONES.

Professors and Prominent Alumni
Contribute Number of Articles
Dealing With Problems
In Engineering.

The 1909 Blue Print will be on sale today. A table has been established on the first floor of the Mechanic Arts hall, and will be maintained throughout the day for the sale of copies. The price of the book is fifty cents. The book this year is dedicated to Professor Oscar Van Pelt Stout, head professor of civil engineering. Professor Stout received the degree of C. E. at Nebraska in 1888, and the dedication of this year's engineering annual comes to him in appreciation of the interest he has taken in his students and the effort he has put forth in building up the civil engineering department.

Annual Publication.

The Blue Print is the annual publication of the Engineering Society and is devoted to that department of the university. This year's book is gotten out by M. E. Strieter, editor-in-chief; J. B. Johnson, business manager, and department editors, E. M. Buol, civil engineering; A. M. Candy, electrical engineering, and H. W. Hinman, mechanical engineering.

The book itself is a neat volume of 153 pages containing articles by professors of the university and prominent alumni together with a number of cuts and half-tone engravings. The cover is of blue paper resembling that of last year's publication.

"Engineering Education," written by W. C. Webster, Ph. D., professor of commerce, is the first article in the book. In this, Professor Webster takes up the various trends which education has taken in the past in relation to their environment and the relation of the present trend toward engineering to the present environment. He discusses the combining of much of value to the engineer in the present-day literary course with the almost purely scientific and technical course of the university at present, and speaks of the ever widening field for the coming engineers.

Article by Sargent.

Among other articles is one of considerable length by Joseph A. Sargent, a graduate of the university in 1899, who has until the evacuation of Cuba by the Americans, been chief engineer of public works at Manzanillo, Cuba. The article is entitled, "The Failure and Reconstruction of the Tuinucu River Bridge." It is profusely illustrated with fine half-tone engravings. In this article Mr. Sargent takes up a piece of work of which he had charge and upon which the principal assistant engineer was Mr. W. O. Ayer, a former Nebraska man.

In an article on "The Efficiency System as Applied to the Wage Earner," by Bruce W. Benedict, 1901, supervisor of schedules for the Santa Fe system, he takes up the various considerations affecting and the relation of the three elements, labor, material, and shop charges, and discusses their effective supervision and control.

Other Articles.

Other articles in the Blue Print are: "Improvement of Power Factor by Rotary Condenser," by F. S. Hunt, B. Sc., E. E., '02, assistant engineer for the Boston office of the General Electrical company; "The Six Year Academic Engineering Course," by George R. Chatburn, professor of applied mechanics and design at Nebraska; "The History of a Steam Pipe," by Philip K. Slaymaker, associate professor of applied mechanics and machine design, at Nebraska; "Does the Rotary Steam

Engine Pay?" by George S. Wilson, B. Sc., M. E., 1906, professor of mechanical engineering at the University of Washington; "Specific Reflecting Power of Surfaces," by O. R. Mallatt, B. Sc., E. E., 1907; "A study of Shear Members in Reinforced Concrete Beams," by Clark E. Mickey, B. Sc., M. E., 1908, instructor in applied mechanics at Nebraska; "General Features of Power Station Design," by I. E. Brooks, B. Sc., E. E., 1903; "Manufacturing Small Gas Engines," by E. B. Cushman, B. Sc., E. E., 1902; "Crane Guides for Electric Traveling Cranes," by T. B. Davis, B. Sc., M. E., 1906; and "The American Society of Agricultural Engineers," by J. B. Davidson, B. Sc., M. E., 1904, professor of agricultural engineering at the Iowa State College.

PALLADIANS GIVE A PLAY.

Good Crowd Present In Spite of the Weather.

Notwithstanding the unfavorable weather a very good crowd was present at the new members' program of the Palladian society. The program was given in the Temple theater. It was a play "Barbara Frietchie" and the cast was made up as follows:

Barbara Frietchie.....Thankful Spaulding
Sally Negly.....Leah McClure
Sure Royce.....Bertha Williams
Laura Royce.....Minnie Funke
Mrs. Hunter.....Ina Williams
Mammy Lue.....Dolly Cook
Capt. Trumbull.....Howard Plasters
Mr. Frietchie.....H. A. Ballenger
Arthur Frietchie.....Vancel K. Greer
Col. Negly.....E. S. Frost
Jack Negly.....S. A. Mahood
Fred Gelvex, sharpshooter.....
.....J. A. Scotney
Time Greene, sharpshooter.....
.....W. R. Davison
Edgar Strong.....R. M. McDonald
Dr. Hal Boyd.....Earl H. Jorgensen
Serg't James.....G. W. Peters
Orderly.....F. H. Reinseh
A Boy.....L. F. Seaton
Soldiers, Townspeople and Children.

The play was very well staged and the parts were quite well taken. The part of Barbara Frietchie especially was deserving of praise.

MEDICS STRUCK FOR HOLIDAY

Sophomores of College Declined to go to Classes.

A strike threatened yesterday among the sophomores of the college of medicine. Happily the matter was arbitrated satisfactorily and the students have come to an agreement with the faculty over the matters concerned.

Next week the sophomores must take the state examination on the work of the first two years of their course. The examination is a stiff one and necessitates considerable study if high grades are to be gained. The sophomores therefore desired a two days' vacation in order that they might properly prepare for the questions of the examiners. This request the college did not at first allow and the medics were in a quandary whether to imperil their credits by striking or imperil their grades by not so doing.

Yesterday morning the students held a conference with Dean Ward of the medical college and the whole matter was discussed. The students explained their side of the case to the satisfaction of the dean and the two day' vacation will consequently be granted.

GIRLS AWAKE TO OPPORTUNITIES

Many American Women Studying in Germany.

It is announced at the Berlin university that the enrollment of women students for the semester, which began on April 15, shows a large percentage of American names, in proportion to other nationalities. American girls are very quickly availing themselves of the opportunity for post-graduate work at a European university, as it is only since last fall that women were granted full matriculation in Berlin. Heretofore they held only guest privileges, with occasional permission to visit lectures, and received no recognition in the way of a certificate or a diploma for their work.
