

The Daily Nebraskan

Vol. VIII. No. 148.

UNIVERSITY OF NEBRASKA, LINCOLN, THURSDAY, MAY 20, 1909.

Price 5 Cent.

ISSUES NEW RULES

MRS. BARKLEY AND FACULTY COMMITTEE REGULATIONS.

SOME FURTHER RESTRICTIONS

DRESS AFFAIRS MUST CONFORM TO THE SYSTEM.

Fraternity House Parties Must Be Officially Chaperoned and No Women Can Be Received Unless Properly Accompanied.

By a series of rules yesterday made public, university social affairs are subjected to a few additional restrictions and all the present rules receive the sanction of a senate social committee. The new rules were posted yesterday and attracted considerable attention among the student body. They are signed by Mrs. Barkley, advisor to women, as secretary of the committee, and have the approval of Chancellor Avery as evidenced by his signature.

The chief point wherein the new rules differ from those laid down in the past by Mrs. Barkley are that they declare that all parties, formal or informal, must close at midnight. Heretofore formal parties have been allowed to hold past the midnight hour, although all others were closed at twelve.

Additional Chaperones.

Another new rule states that all parties held in men's fraternity houses at which women are present must be "officially" chaperoned. This is a new rule which has nevertheless been followed quite generally in the past, save that the chaperones have not been "official." Another regulation provides that young ladies cannot be received in men's fraternity or lodging houses unless chaperoned.

The findings of the committee in detail are as follows:

"All university functions (as distinguished from departmental clubs—such as Botany, Chemistry, English, Latin, etc.) will be held on Friday and Saturday evenings.

"All university parties, formal or informal, will close not later than 12 midnight.

"All parties will be officially chaperoned.

"No university function will be held prior to the Chancellor's reception."

Reiterates Segregation.

"The residence of men and women in the same lodging-house (as distinguished from families) is not approved and not, as a rule, permitted.

"A landlady rooming women students is expected to provide for their use until 10:30 Friday, Saturday, and Sunday evenings, or on two of these evenings, a reception room properly warmed and lighted.

"Women students in these houses will receive gentlemen callers only on the evenings named and only in the reception room.

"Young ladies will not be received in men's lodging houses or fraternity houses unchaperoned.

"The chaperone will be approved by the Dean of Women and will be held responsible to her for house rules.

"Men calling may be received on Friday, Saturday or Sunday evenings. Callers will not remain later than 10:30 p. m.

"Parties may be given on Friday and Saturday evenings only, and must close not later than 12:00 midnight.

"All parties in men's fraternity houses where women are invited will be officially chaperoned and will close not later than 12:00 midnight."

LEAVE TODAY FOR KANSAS.

Tennis Team Stands Good Show of Winning the Meet.

This afternoon, at one o'clock, the tennis team will leave for Lawrence, Kansas, where they will meet the Jayhawkers tomorrow and Saturday. The team is in splendid condition and has big chances to win from Kansas this season.

The team which will play tomorrow and Saturday consists of Weaverling, manager; Flower, Smith, and Hubbell. These men are all classed players and if the goddess designs to smile much as glance our way they will win from Kansas. They have no easy proposition at Lawrence, however. The Kansas team is made up of veterans who have already gone through a good season of play.

Besides playing a number of games in Missouri, they have just returned from a week's trip through Oklahoma where they gained a reputation for swift, snappy tennis. The Jayhawker team will probably be: Watson, Wood, Farnsworth, and Biglow.

Friday afternoon Smith and Hubbell will probably meet Wood and Watson and Weaverling and Flowers will play against Farnsworth and Biglow in the contest in doubles. Saturday four contests in singles will conclude the meet.

TO COMPLETE THE FOUNTAIN

Work Will Now Be Pushed and Gift Finished Soon.

Work on the drinking fountain presented to the university by the class of 1909 was re-started yesterday and it is expected that the fountain will be ready for use within a day or two. The work has been delayed by the non-arrival of certain materials needed for the foundation, but these are now here and there is nothing to hinder prompt execution of the work by the contractor.

The fountain has already been described in the Nebraskan. It had been intended to have it complete two weeks ago, but an unavoidable delay prevented the completion of the work in time for the Ivy Day exercises at which time the gift was formally presented to the university.

The members of the Palladian Literary society will meet in "Pal" hall in the Temple next Friday evening. The program will be in charge of alumni members of the organization. It has also been announced that there will be at least one more meeting of the society before the close of school.

Dean Fordyce of the Teachers' College, goes to Clay Center this evening to deliver the commencement address before the high school. The dean has similar engagements with ten different high schools over the state.

The members of the classes in Physical Education 13 and 14 will meet for the last time Friday afternoon. Delinquencies may be made up by attending classes in other divisions and reporting to the instructor.

The members of the class in Political Economy 1 have completed their study of the text and will review the subject until the end of next week, when the final examination will be held.

Mr. Baker, from the Ohio Wesleyan university, was visiting at the Beta Theta Pi fraternity the first of the week. Mr. Baker was on his way to Denver, Colo.

Senator C. A. Randall of Newman Grove, Nebr., is visiting his daughter, Miss Marguerite Randall, 1911, who is a member of the Alpha Phi sorority.

Mr. Patterson, ex-1907, was a campus visitor yesterday.

BIG RALLY TOMORROW

PURPOSE TO AROUSE ENTHUSIASM FOR KANSAS MEET.

JAYHAWKERS EXPECT VICTORY

Work of Men at the Missouri-Kansas Meet Serves to Fill Lawrence People With the Spirit of Confidence.

Special plans are being laid to make the big rally in Memorial hall tomorrow afternoon at 5 o'clock one of the best ever held at this school. Several good speakers have consented to be on hand with the right kind of oratory. The cadet band also will be there to let out lots of its latest music.

Manager Eager is urging all students to attend this meeting, for he believes they will become filled with the kind of enthusiasm that will be needed to beat the Jayhawkers. He wants the girls to be on hand in large numbers as well as the boys.

The Kansas students and track athletes, since their victory over Missouri last Saturday, are feeling pretty cheery and they believe they are going to win from Nebraska. They are the strongest this season in many years and they hope to be able to win from Dr. Clapp's men by a small margin of points.

First Victory in History.

The following account of what they did Saturday will show about how strong the Jayhawkers are:

"For the first time in the history of track relations between the two schools, the Jayhawkers got away in winning form and pulled a victory from the Tigers on McCook field, twelve points in the lead. The final score was sixty-four and one-half to fifty-two and one-half. The meet was close from the beginning, and the 220-yard hurdles, in which Kansas took both first and second, tied the meet and made it evident that the time had come for K. U. to win. The crowd went wild when Meyer took first in the hammer, putting Kansas in the lead with the score forty-five to forty-three. Then Missouri got two places in the two-mile, while Kansas took both places in the broad jump, first in the high jump and annexed the relay in good style, finishing an epoch-making event from the K. U. point of view.

Track Was Heavy.

"The track was heavy and slow from the incessant rains and no records were touched in the track events. Meyer broke the K. U. record in the hammer throw by adding seven inches to the record made by Putnam in 1907, at 141 feet 1 inch. Coach Hagerman's pupils came up to the scratch for the first time. The only thing that the Jayhawkers had hoped to get that failed was the place in the discus that Winter was slated for after his performance two weeks ago, over four feet above the record today. Hagerman had slated a better place in the quarter, and another accident to the Kansas team was the loss of Perrill by sickness a few days ago. These things even up to a certain extent the losses that Missouri claims, and it is evident that in any event it would have been an interesting meet.

Steele Ran Great Race.

"The features of the meet were the performances of Steele, the Tiger race horse, in the two-mile, and the winning of the relay by the Jayhawkers. The relay, though slow on account of the track, was one of the prettiest races ever run on McCook field. Wood, Talbot, Ford and Shuck ran for Missouri and Newbold, Haddock, Mar-

tinell and Hamilton delivered the speed for Kansas. Talbot, M. U., took a little lead on Newbold, but Martinell, for Kansas, closed it in one of the prettiest laps ever run, and Hamilton increased it substantially up to the finish.

Hagerman is overjoyed at the victory, and the students are rejoicing over the broken "hoodoo." Dr. Monilaw said after the meet that he attributed the defeat to the accident to his team. Captain Shannon Douglass of the Tiger team, kept out of the meet by injuries, took it philosophically."

ANNOUNCES CHAPEL PROGRAM

Mr. Sidney Silber to Appear at Convocation.

One of the last musical programs of the year will be given this morning when Mr. Sidney Silber of the University School of Music will give a piano recital at convocation. The program will be held in the Temple theatre, contrary to several announcements that have been made recently to the effect that it would be given in Memorial Hall.

Mr. Silber's program has been announced as follows:

Overture to the Twenty-ninth Church Cantata
..... Bach—Saint-Saens
Gavotte Antique.....Erich Wolf
First Movement of "Eine Liebesnovelle.....Erich Wolf
Barcarolle, Op. 39, No. 1. Lischetzky
Wedding March and Elfin Chorus from "A Midsummer Night's Dream"Mendelssohn-Liszt

PROFESSOR STUFF AT TEMPLE.

Y. M. C. A. Will Give Committeemen's Feed Saturday.

A good crowd was present last evening to hear Professor Stuff talk at the Y. M. C. A. meeting. The topic of the professor's address was "One of the Ways of Bringing Things to Pass." In general his theme was that of the development of the individualistic idea.

After the meeting the cabinet met and decided upon the date for the "Committeemen's Feed." This will be held Saturday evening in the Red Room of the city association and all the members of the cabinet and their committees will be present. Besides these, the new advisory board will also attend. At this time, the policies of each committee for the work of the coming year will be read.

Albert Aron, who took his master's degree in the German department, last year, and who has since held the position of fellow instructor in the Wisconsin state university, has just been appointed alternate Ottendorfer Fellow of the University of New York. This evidently gives him an excellent chance to have chief rank in the competition for the Ottendorfer fellowship, a very desirable position, since it entitles the recipient to study a year abroad.

The members of the University Agricultural club held its last meeting of the year last Saturday evening. The attendance was good and the following papers were read by members of the club: "Dairying," by William Forbes; "Argentine Republic," by George Hummel. Following the program a short business meeting was held and plans were proposed for a banquet to be held in two weeks.

The annual spring foray of the members of the Sem. Bot. will be held next Saturday morning, May 22. The foray will be taken to Weeping Water, Nebr. Anyone interested in botany is invited to join the party. The trip will be made over the Missouri Pacific railroad, leaving Lincoln at 7:40 a. m. and returning at 7:25 p. m.

MANY ESCAPE DRILL

TWO HUNDRED NINETY-NINE EXCUSED FROM DRILL.

VARIOUS REASONS FOR ABSENCE

MANY PLEAD POVERTY—OTHERS THEIR CONSCIENCE.

More Stringent and Careful Examination of Applications to Eliminate Injustice is to be Instituted Next Year.

Two hundred and ninety-nine men excused from military drill. Why? Religious scruples, poverty, athletics, chorus, and physical disability. Some one of the above answers is tacked on to 299 excuses which have been granted in the military department during the past year.

At the present time three hundred men are drilling. Thus, there is only one more drilling than the number which have been excused. Of course the 299 men excused include many who were granted reprieves for only one semester, yet it is a queer coincidence that the number excused should come within one of the number drilling.

Religious Objections.

These excuses, according to the regulations, could only be granted upon one of five reasons. Religious scruples, poverty, athletics, chorus, and physical disability are the only grounds upon which a student may become exempt from military service. Of these the religious scruples and poverty seemed to be the most frequent in the case of poverty, the excuses were usually granted on the grounds that a student has to do too much outside work to earn his way through school to take the time for drill. Of the 299 excused, 215 were granted on these grounds.

Athletics comes next with 43. These men were either excused for football or for other regular varsity team work. Physical disability was the cause of 26 more excuses being granted, a variety of reasons being included in these applications. Chorus as a reason for an excuse from drill proved successful in only 15 cases. In these instances the excuses were only granted on the basis of careful selection from a number of applicants.

To Be More Stringent.

It was given out last evening in the department that the granting of excuses will be cut down considerably during the coming year. It is argued that many of the students excused during the past year had really no more grounds for exemption from this requirement than have many who drilled. Thus, when a careful investigation is not made of each application before it is granted considerable unfairness is done to many who take the work.

In the future all applications for excuses giving physical disability as a reason will be referred to the physical director who will give the applicant a thorough examination and the excuse will only be granted on his recommendation. The excuses for religious or conscientious scruples will hereafter require an affidavit.

In the past the statement of the applicant if he was of age, or the statement of his parents sufficed. All of the applications on any ground whatever will undergo more careful scrutiny in the future, so as to insure perfect fairness to all parties concerned.

The best candy store in the city is that served at The Nebraskan Lunch.
