**Y. M. C. A. BUREAU TURNS AWAY  
NUMBER OF APPLICANTS.**

**ASSOCIATION CAN'T SUPPLY ALL**

**D. C. Mitchell in Charge of Employment Bureau—Much Work is Found for Students.**

"Got a job?"

That, or something else to the same effect has been the continual query at the Y. M. C. A. rooms in the temple for the past few days. Everyone seems to want to do something to defray all or at least part of their school expenses. Some want one kind of a job, some another, and in many cases the jobs wanted are of an impossible and impracticable sort, such as neither the Y. M. C. A. nor any employment agency has ever heard of.

The association established a desk in its rooms Tuesday where, besides securing employment for students they also help the new men to find rooms and check their baggage. The employment bureau, which is in effect a student employment agency, conducted solely for the benefit of the students, keeps a list of positions open to students to which they refer whenever a request is made for employment. This list is filled by various restaurants, private houses, and firms about the city who desire student help and who have notified the Y. M. C. A. of the fact, together with the terms upon which they desire to work.

**Not Enough Places.**

But the list of places has been decidedly small compared with the number of applicants.

In fact, according to a rough estimate made last evening, over four times as many students applied for positions as there were situations.

Notices of positions open to students are coming in every day, however, and in this manner many of the applicants who have so far failed to secure work will be able to do so in the near future. The bureau of employment will be maintained throughout the year in charge of D. C. Mitchell.

Many of the applicants inquire for work out of mere curiosity. They are not looking for work, but if a snap should offer itself they might take it. This, however, cannot be said of the greater part of those inquiring for work as they are usually glad to take any kind of employment that will not take too much time away from school work.

**Many Wait Tables.**

While it is estimated that over two hundred dollars worth of work has already been given out, a great amount of employment was secured by individual students who came to

Lincoln a week or two before registration for that purpose. A large portion of the work done by students consists in waiting tables at many of the restaurants about the city. In return for this work the student usually receives his board and, in some cases, additional salary. Many restaurants say that they may need more help of this sort later on if the student business is large enough to warrant it.

Other positions which are open to students are caring for furnaces, clerking in stores and doing various odd jobs for private families. Caring for furnaces seems to be very popular employment among the students, it being a comparatively easy manner of securing a room free of rent. The University itself also employs a number of students as assistants in various departments, and assistant gardeners and janitors. In nearly every case the work done by the student is comparatively light yet heavy enough to necessitate his cutting down his university work somewhat, in order to earn part of his college expenses.

**NEW RECORD SET FOR  
FRAT GIRL PLEDGING**

**OVER SEVENTY NEW STUDENTS  
DON MEMBERSHIP RIBBONS.**

**KAPPA ALPHA THETA WELL IN LEAD**

**Thirteen is Largest Number Pledged,  
With Both Delta Gamma and Tri-  
Deltas Gaining Ten as Sec-  
ond Best.**

Seventy-five freshmen girls donned pledge ribbons Saturday in response to invitations extended them by the nine sororities of the university. This is by far the largest number of girls ever pledged at one time.

Kappa Alpha Theta secured the largest number of new members, they totaling thirteen. Delta Gamma and Delta Delta Delta came second with ten pledges each. Alpha Chi Omega and Pi Beta Phi each had none who donned the ribbons. Alpha Omicron Pi pledged six, Alpha Phi and Chi Omega five each, Kappa Kappa Gamma eight.

The unusually large number of pledges is said to be the result of a lack of members and of the presence of a larger quantity of good sorority "material" than usual among the new students. Numbers of the fraternity girls have not returned to school this year, and this left many vacant places to fill. Others of the girls' societies have taken larger houses this year than last and feel the need of a larger membership to take care of the additional burden.

List of Pledges.

**CADET UNIFORMS NOW ON SALE.**

**Pershing Rifles to Handle Uniforms  
Again This Year.**

The order was issued last evening to the cadet battalion that the cadets were to be in full uniform this year on November 1st. The regulation uniform is to be the olive drab blouses and trousers with cap and leggings to correspond, and tan shoes. This is the same as the cadets wore last year, with one exception. The uniforms for this year are to be trimmed with red cord instead of the brown braid which was in vogue last year.

These uniforms may be purchased of the Pershing Rifles, at the lowest possible cost, and are the only regulation uniform on sale. The Pershing Rifles have handled the uniforms for the past two years and their uniforms have given excellent satisfaction. Orders to the Pershing Rifles for uniforms may be given this week in the armory, and measurements will be taken by an army tailor. This latter fact should insure a perfect fit and complete satisfaction.
