#### NOTICE.

The lectures in M. E. I. will begin  
Thursday, October 7th, at 4 p. m., in  
room 204 in the mechanical engineer-  
ing laboratories. The second section  
will be on Friday at 5 p. m.

The laboratory work will be delayed  
until the laboratory is ready.

A. BUNTING,  
Instructor.

The first week's registration at the  
University of Wisconsin shows a total  
enrollment of 3,369 students, against  
2,998 enrolled at the same time last  
year. This is an increase of over 10  
per cent and indicates that the whole  
number of students this year will ap-  
proximate 5,000.

### TO BUY LAND SOUTH OF THE UNIVERSITY CAMPUS

RUMOR ABOUT SCHOOL THAT  
SUCH IS POSSIBLE.

COST IS LIKELY TO BE PROHIBITIVE

Yet Students Have Idea That Enlarge-  
ment of Campus is to be to  
the South—Origin of the  
Story Unknown.

The people of Lincoln living near  
the university are to receive another  
shock. At least that is the way rumor  
has it.

People residing near the university  
have been treated to various forms of  
shocks for the past few years, but  
this time it is the same old story that  
the state institution wants more land.  
For the past few years the people  
north of the university have lived in  
constant dread that the university  
and the state authorities behind it  
would condemn the land and the  
property they occupied and take  
charge of it for the athletic field  
which it was known that the univer-  
sity needed. This was done last year  
and the fine athletic field which the  
university now owns is the result.

#### More Land Needed.

Now the rumor is circulated that  
the university still needs more land  
and that the block directly south of  
the campus is the one upon which the  
regents have cast their eyes. The  
University School of Music is at pres-  
ent situated upon this block as is also  
the woman's dormitory. The former  
property is under the indirect control  
of the university authorities, but is  
owned by private individuals.

The fact that the university needs  
more land has been no secret for the  
past few years. In fact the question  
has been discussed ever since the uni-  
versity was founded. But not until  
recent years has the matter been  
given very serious consideration. The  
discussion was started several years

ago when the plan was brought to  
light that perhaps it was expedient  
to move the university to the site oc-  
cupied by the School of Agriculture.  
The enormous expense connected with  
a movement of this kind caused a  
plan of this sort to be dropped, and it  
was decided that if necessary to en-  
large the university campus that it  
would be done by condemnation pro-  
ceedings.

#### School of Music Enlarged.

This summer the school of music  
was enlarged by the addition of an-  
other story to the conservatory. This  
added story made a four-story build-  
ing for the use of the school of music.  
This rapid enlargement of this depart-  
ment of the university has caused con-  
siderable comment among the students  
and the rumor that the proposed addi-  
tion to the campus will be the block  
upon which the conservatory of music  
and the woman's dormitory are situ-  
ated has gained some credence.

#### No Verification of Rumor.

At the present time the rumor of  
the addition has received no official  
verification. At present Chancellor  
Avery is in Boston, Mass., attending  
a meeting of the presidents and chan-  
cellors of the various state universi-  
ties of the country. No one outside of  
the chancellor knows anything about  
the matter and so no official verifica-  
tion of the rumor could be obtained.

That the university needs land is  
a certainty, and the proposed addi-  
tion is one that could be used to a  
great advantage. The present campus  
is crowded to its utmost capacity  
and no further erecting of buildings  
could be possible on the present cam-  
pus. Thus the addition of one block  
south of the present campus could be  
used to an extremely great advan-  
tage.

However, men connected with the  
university point out the fact that the  
block could not be had save at a high  
cost to the university. In any case  
nothing could be done for at least two  
years, since the legislature would first  
have to provide funds for the pur-  
chase.

The origin of the story yesterday  
could not be ascertained. A number  
of students reported hearing of the  
rumor, but none could tell where it  
started.

The income of the University of  
Illinois is derived from the proceeds  
of the endowment received through  
the "land grant" by congress in 1862,  
amounting in 1905 to \$30,897.76, the  
congressional grant of 1887 to the ag-  
ricultural experiment station of \$15-  
000 per annum, and the further con-  
gressional aid of 1890 for the expenses  
of instruction of \$25,000 per annum;  
from fees paid by students, about \$65-  
000, and from state appropriations.  
The latter during recent years has  
been very liberal. The legislative ap-  
propriations are exhibited by years as  
follows:

1869	60,000.00
1871	130,000.00
1873	52,050.00
1875	11,500.00
1877	69,000.00
1879	25,500.00
1881	41,300.00
1883	54,500.00
1885	72,900.00
1889	80,150.00
1891	147,200.00
1893	309,800.00
1895	446,800.00
1897	490,414.34
1899	565,413.51
1901	876,251.45

### UNIQUE PROGRAM FOR THE SUNDAY MEETING

Y. W. C. A. WILL HAVE HINDU NA-  
TIVE ENTERTAINMENT.

ELEVEN GIRLS IN EAST INDIAN COSTUME

Mrs. W. T. Elmore, an Indian Mission-  
ary, Brings Hindu Girls to Amer-  
ica to Illustrate Customs  
of the People.

The Young Women's Christian As-  
sociation will have a unique program  
at their afternoon meeting in the Tem-  
ple theater Sunday. Mrs. W. T. El-  
more, a missionary from India, will  
speak and will be assisted in illustrat-  
ing her talk by eleven girls in com-  
plete Hindu costume.

Mrs. Elmore has spent nine years  
in India. She comes from Ramapat-  
nam and is thoroughly acquainted with  
the customs and life of the people of  
whom she will speak. The unique  
feature of the program, however, will  
be the eleven girls which she will have  
with her dressed in complete Hindu  
costume. These costumes will not  
be any makeshift representation of  
the dress worn by the natives but will  
be the real thing. The eleven young  
ladies will be used to illustrate var-  
ious parts of Mrs. Elmore's address  
and it will be perhaps the only feature  
of the kind which has ever appeared  
at Nebraska.

#### Speech of Women.

The meeting will open at 3:45 p. m.,  
with a special song service after  
which Mrs. Elmore will give her ad-  
dress on India. In this address she  
will take up the Indian women in par-  
ticular. She will discuss the castes,  
showing the various dresses used by  
the women in the different grades of  
society in that country. She will speak  
at length of the child widow of India,  
the problem which is facing those  
working among the natives there to-  
day.

The Indians marry their women very  
young. In fact an Indian girl is mar-  
ried when still a child and is be-  
trothed sometimes when born. When  
her husband, who is usually much  
older than she, dies she becomes prac-  
tically a slave to her husband's family.  
She is subject to all the horrors of  
slavery and is usually treated as a  
mere piece of chattel. It is this prob-  
lem which is receiving the attention  
of the missionaries in India at the  
present time and of which Mrs. El-  
more will speak. She will use the  
eleven girls dressed in native cos-  
tume to illustrate the child problem as  
well as to show the dresses worn by  
the women in the different castes of  
Hindoo society from the almost sav-  
age finery worn by those of the high-  
est rank to the mere rags worn by  
those of the lowest class.

#### Successful Meetings.

This meeting comes at the close of  
a successful week for the associa-  
tion work in general. The series of  
noon meetings which are being held  
daily in the Y. W. C. A. rooms of  
the Temple have been more than usu-  
ally successful this week. Their suc-  
cess has been attributed by those in  
charge, largely to the girls in the  
woman's building who have been tak-  
ing a very active part in the work.  
Miss Alice Compton, president of the  
association, led the Monday meeting  
and Mr. Ewing, international secre-  
tary for the student volunteer move-  
ment, led the Tuesday meeting.

The Y. W. C. A. will soon carry on  
their big membership contest which  
has heretofore been so successful in  
stirring up interest in the work be-  
sides getting a larger membership  
roll each year. This year forty girls  
have enrolled without being asked  
and the association has set its mark  
at six hundred for this year's cam-  
paign. They also intend to open the  
Bible study work soon, at which time  
they will give a big opening banquet.
