**COULTER NAMED TO BE CAPTAIN OF COMPANY K**

OFFICE VACATED BY SODERBERG FILLED BY SERGEANT.

**NEW COMPANY COMPLETELY ORGANIZED**

Forty Men Drafted From Old Companies Form Basis of the Sixth Battalion Division.

The sixth company in the university battalion is now completely formed. This company is to be known as company K. The announcement of the appointment of captain was made last evening and H. W. Coulter was appointed to fill that position.

The company was formed on account of the large number of new men who registered for drill this semester, which makes the other companies more easily handled on account of fewer men being placed in each company.

The announcement that a new company would be formed was made a week ago Thursday evening, and the appointments for the officers was made at that time. C. P. Soderberg was appointed captain at that time, but his resignation was made, and that necessitated the formation of the company until another man could be appointed to the captaincy. Mr. Soderberg was forced to resign on account of not having sufficient time to devote to the drilling of the company. When the company was not formed various rumors were circulated about the campus as to the probability of the company being organized. All of these rumors which stated that a company

would not be formed were false and this evening the company was formed. Men Were Picked.

The men who composed the new company were picked last evening from the members of the other five cadet companies and are old men who have drilled for at least one semester as well as new men. These men who had drilled one or two semesters were drafted from the other companies and consequently there will be just as fair a show for the men of the new company to be the best drilled men of the battalion as the men of the other five companies. This plan was adopted of drafting the men after much consideration by the officers of the battalion staff, as they wished to obviate the trouble encountered last year when the company I was formed. When this company was organized at the beginning of the school year last fall, there was a great deal of difficulty encountered in getting old men to leave the companies they had drilled with the previous semesters. Only on the promise of lucrative positions in the company were the old men induced to leave the company that they were drilling with and enter the ranks of company I.

This trouble caused the members of the battalion staff to form some means of getting the old men into the ranks of company K this year with the result that the plan of drafting the men was adopted.

Company to Be Large. The new company is to be as large as any of the other cadet companies. This fact was evidenced when eighteen old men were drafted from the other companies and twenty-two new men were drafted from two of the companies which had been already formed. This leaves company K with forty men to start with and more men will be drafted from the other three companies on Monday morning.

No officers except the captain, H. W. Coulter, and the first sergeant, C. J. Lord, have been appointed for this company, but further appointments are expected in the near future.
