Price 5 Cents.

NO GAME SCHEDULED FOR NEBRASKA TODAY

RULES OF CONFERENCE ALLOW ONLY EIGHT CONTESTS.

OMAHA AND LINCOLN PLAY TODAY

Two Strong High School Rivals Settle State Championship at 2:30 on Nebraska Field.

While several of the big eastern and western schools will be engaged in contests that will go a long way in deciding championship honors in both sections, the Cornhuskers will have a day off this afternoon. The time will probably be spent in watching the Omaha-Lincoln game which takes place on Nebraska field this afternoon.

The reason for the enforced rest of the Cornhuskers is not that Manager Eager did not schedule a game for this date for fear that the team would be out of condition following the Kansas game, although this has been thought by many to be the case. The Missouri Valley conference rules do not permit a team to play more than eight games in a season. Since Nebraska has already played six games and has games scheduled with Denver and Haskell, it necessitates a rest this afternoon.

The fierce downpour yesterday afternoon interfered materially with Coach Cole's plans. Preparations were made for the hardest scrimmage of the week. The plan was to give the varsity about an hour's hard scrimmage and then let them rest up until Monday. With two hard games coming so close together Cole will have to prepare for both at once as there will not be much time for scrimmage work between next Saturday and Thanksgiving.

Varsity Works in Snow.

Despite the fact that the fiercest storm of sleet and snow of the year visited this section yesterday, Cole took the men out and gave them their daily exercise. He was loath to let them lie idle until Monday. The fact that the men were forced out under such conditions means that Cole is not going to let anything be undone to enable him to win the next two contests. Both Denver and Haskell are strong and are going to make the Cornhuskers go some if they win either game. So far this season Nebraska has won two games, lost two and tied two. If the team can win the next two games they will finish with a very creditable record and Coach Cole can well be complimented on the development of such a team from the material he had to begin with. Cole left last night for Denver, where he will get some pointers to use in drilling his men for next Saturday's game.

Lincoln-Omaha Game Today.

The center of the arena in football circles in Nebraska today will be occupied by the Omaha-Lincoln High School contest. Both these teams are strong, having played the best high school teams of the state and neither team having been defeated. The winner of this afternoon's contest will have a clear title to the state high school championship.

In addition to both teams being contenders for championship honors, the two schools have long been rivals in all manners of athletic contests. Last year Lincoln was defeated by their rivals in Omaha and lost the title to the state championship, by but four points, a place kick by Omaha turning the trick.

This year Lincoln has a much stronger team. They will probably be outweighed by Omaha, but they will easily make up for this difference in

their speed and in their inside knowledge of the game. The team is finely balanced and plays heady football. Then they will have the additional advantage of having one of the best punters in the business. Mann can also be relied on to place kick from as far back as the forty-yard line.

With a little moderation in the weather this afternoon there ought to be a large crowd of rooters out to cheer the Lincoln boys on to victory. Omaha students in the university are also planning to do a little rooting themselves, and quite a number are expected to accompany the team from Omaha.

PLAN DINNER FOR OMAHA MEN.

Some of University Students Will Meet Football Team at Dinner.

In order to show the Omaha football team, which comes to Lincoln today to play Lincoln high school, the sort of spirit prevailing at Nebraska, a number of Omaha men attending

MEDICAL EXAMINATIONS FOR ALL UNI STUDENTS

COMMITTEE OF TEACHERS REPORTS FAVORABLY ON PLAN.

WOULD TEST THE GENERAL ABILITY

Examinations Made by Competent Physicians With Special Attention to Heart, Lungs and Eyes.

Another radical change has been suggested for the students of the university. The suggestion now in consideration is that the members of the student body who register in the university submit to a medical examination which is to be conducted by a committee of competent physicians, these men to examine the health of the student with regard to its general

the State Teachers' Association, which drew up the report in question, that the examination of the entering student be conducted at the time of his matriculation in the university. It is further suggested by the committee that examinations be taken further along in the student's course in the university, whenever the examining physician should deem it necessary. The examinations would cover at least general health, heart troubles, lung troubles and eye diseases.

The suggestions which the members of this committee put forth in their report are not alone for this university, but they suggest a similar medical examination for all of the colleges of the state, and outside of the commonwealth if the proposed plans should be accepted by the governing boards of the colleges of any of the neighboring states.

Where Question Arose.

The matter regarding the health of the students of the large colleges arose last year when at the state

NINETEEN ARE CHOSEN FOR DRAMATIC CLUB

NEARLY A SCORE SUCCESSFUL IN THURSDAY'S TRYOUT.

MUCH INTEREST WAS MANIFESTED

Thirty-one Active Members Already in Club Whose Membership is Not Limited to Fixed Number.

Nineteen new members are now on the probation list of the University Dramatic Club as a result of the tryouts which were held Thursday night. Fifty-six candidates for dramatic honors entered the lists Thursday evening and the names of those chosen were announced yesterday.

Some very good talent was displayed at the contest this year and on the whole the quality of the tryouts was equal to, if not better than, any held in previous years. The number of contestants trying for places was very large this year, although not as large as that of a few years ago, when sixty aspirants appeared before the footlights.

Interest is Shown.

Unusual interest was shown this year by those participating in the tryouts. The selections given all showed a degree of preparation very gratifying to the committee in charge. The candidates chosen will be present at the meeting of the club in its rooms in the Temple Thursday evening. They will not become full-fledged members of the club as yet. They will have to appear before the club in parts of greater length and with more chance to display their dramatic skill than was given in the tryouts before they are taken into full membership.

Besides those announced yesterday the University Dramatic Club has an active membership of thirty-one. The club aims to keep its membership as small as possible without omitting any of the real available talent in the school. The membership is not limited however.

Successful Candidates.

The names of those selected at the tryout follow:

Clarence L. Clark, Walter L. Davis, Florence Hostetler, Katherine Yates, Bernice O'Kief, Blanche Sperling, Mary Challis, Mary O. Herbert, J. Arthur Nesbit, B. C. Marcellus, Mildred Bevins, Harry C. Hathaway, F. C. McConnell, Mrs. O. Stasny, Glen G. Fordyce, S. P. Dobbs, Nell Evans, Margaret Wheeler, Laura Pettijohn.

DELEGATES GO TO HASTINGS.

Eight Girls Accompany Miss Vibbard to Y. W. C. A. Convention.

The delegation from the university Y. W. C. A. to the state convention at Hastings left for that city yesterday. It was thought that a larger number would go, but the inclemency of the weather caused some to change their minds and remain here.

Those who accompanied Miss Vibbard are: Merle Thomas, Cecile Strapp, Fae Dunfur, Beula Jennings, E. Rokahr, Mary Herbert, Bessie M. Brenizer, M. Conser.

COMPANY CLUB TO BE FORMED.

Members of Cadet Company K to Have Organization.

The members of the cadet company K of the first battalion are to meet this evening in the Armory for the purpose of forming a company club. A pie feed will be held after a short business meeting has been held.

The purpose of this organization is to bring the men and officers of the company into a closer social acquaintance and to increase the efficiency of drill in the university.

JOHNSON
Nebraska End Who Broke up Many of the Jayhawker Plays.

the university have arranged to take dinner with the team at the Lincoln.

Both the Lincoln and the Omaha teams will be present at the dinner and about twenty university men will attend. After the dinner proper toasts will be given and an effort will be made to interest the Omaha men in Nebraska affairs.

The game to be played between the two larger high schools of the state promises to be a hot one. It will be called at 2:30 today on Nebraska field. Four hundred tickets have already been sold in Omaha and a special train has been engaged to bring the metropolis crowd to Lincoln. It is expected that the absence of a regular university contest will result in a good attendance of university students.

Freshmen to the number of 105 are reported below the passing mark in their studies at Minnesota University.

Your car fare would pay for a nice lunch at the Boston Lunch. Why go home?

condition and not with reference to athletics of any kind.

The health of a student in the university is one of the questions which is considered as being very important to the work of that student and all other members of the student body with whom he may come in contact. The work of many of the students of the university depends to a great extent upon the condition of their personal health and the student who enters the university poorly equipped for the strenuous work which may be laid before him is handicapped to a large extent.

Part of Registration.

It is proposed by the committee of

teachers' convention a paper was read by Dr. H. W. Orr of the faculty of the college of medicine of the university. A general discussion then arose regarding suggestions that he made and this discussion led to the appointment of a committee to look into the proposed plan and make a report.

This year when the college section of the state teachers' convention met a report of the committee was made. The committee reported favorably for a plan of medical examination for entrance students in all colleges, and their report is given below in full. The report was accepted by the members of this section of the convention and the matter was called to the attention of the chancellor.

Regents to Act.

After reading the report of the committee the chancellor decided that the matter should have consideration by the members of the board of regents, and in due time the question will be laid before that body. The matter depends wholly upon their action.

Pennsylvania has 225 alien students.
