SNOW BREAKS IN UPON CORNHUSKER PRACTICE

STORM STOPPED PRACTICE OF NEBRASKA SQUAD LAST WEEK.

COLE IS BACK FROM DENVER GAME

Cornhusker Coach Gained Valuable Hints on Work of Two Teams Still on Nebraska Schedule.

A severe storm of sleet and snow broke up the Cornhusker practice last week so that the team was compelled to lie idle all of Saturday and most of Friday. Coach Cole had planned some good hard work for Saturday especially, and the stormy weather greatly interfered with his plans.

The weather conditions this week do not promise much of anything better, but Cole is not going to let this stand in the way, and from now on until Saturday every minute of time is to be utilized in rounding the men into form for the two remaining games of the season.

Practice in Snow.

That the Cornhuskers are possessed of an undaunted spirit is shown by the fact that yesterday they put in a good stiff three hours' practice in the face of a driving storm of sleet and snow. Such conditions are not the best for training, but under the circumstances both coaches and players determined to make the best of conditions and keep up their ginger.

Yesterday a bulletin was posted on the door of the "gym" ordering all the members of both regulars and scrubs to report for practice. About thirty players responded to the call and went out to the state farm in the afternoon. The athletic field is in miserable condition, being frozen hard. The ground at the state farm, however, is turf and does not get so hard. For this reason most of this week's scrimmage work will likely be held out at the farm.

Back from Denver.

Coach Cole returned from Denver impressed with the fact that the Cornhuskers have two hard contests on their hands. After watching the two teams play he is convinced that Nebraska must be at her best when she meets Denver next Saturday, and the team must also be able to stand that contest and be in shape for the Thanksgiving game with Haskell only five days later. To so train the team that it can do this is to be Cole's aim this week.

Both these teams are strong, but as to how they will compare with Nebraska is a question. Neither team has played any of the teams on the Nebraska schedule to date, and so there is no opportunity of drawing comparisons in that way. Cole is under the impression that either team will compare favorably with the Cornhuskers as to weight and both are well balanced. The Denver team especially looked rather husky.

The contest between Denver and Haskell resulted in a victory for the Indians by the score of 8 to 5. The two teams, however, were about equal in strength, Denver being slightly heavier and the Indians a little more tricky.

The atmosphere, which has always been a source of worry to the lowland teams when they go to the mountains, did not seem to affect the Indians at all. They were just as fresh as the locals at the close of the game. The halves were short, however, which of course was a help.

Omaha-Lincoln Game Today.

The Omaha-Lincoln game for the state high school championship, which was postponed Saturday on account of the stormy weather, has been set for this afternoon at 2:30. The

game is to be played at the Nebraska athletic field, and unless the weather continues too severe a large crowd is expected. A telegram from Omaha yesterday announced that Omaha was ready and was coming down four hundred strong to cheer their favorites on to victory. Lincoln supporters, of course, will not be lacking. With any sort of decent weather there ought to be a glory scrap on hand at Nebraska field this afternoon.

ENGINEERS TO HOLD HOP.

Society of Engineering College Give Social Affair.

The regular hop of the Engineering Society will be held Friday evening in Fraternity hall. The engineers have had successful hops in the past and it is presumed that the present event will be well attended. Chairman John Hoge announces small ticket sales as yet, and he wishes intended dancers to purchase their pasteboards shortly, as a limit may be set.

FRESHMAN HOP DATE JANUARY 15.

Chairman Clark Announces Time for Annual First Year Affair.

Saturday, January 15, is the date set for the annual freshman hop. The dance this year is under the chairmanship of Frank Clark, with Gene Holland master of ceremonies.

The dance is this year held after Christmas, a departure from the usual custom. The date is, however, well spaced between the vacation and the final exams and the committee expect to have a good crowd. The Lincoln hotel is the place set for the affair and Walt's orchestra will furnish the music.

COMPANIES DRILL INDOORS.

Cadet Battalion Unable to Drill on the Drill Grounds on Account of the Weather.

Last evening the members of the cadet battalion were unable to hold the regular daily drill on the drill grounds on account of the weather. The manual of arms was given to the members of the various companies and it will be attempted to increase the efficiency of the cadets in this department of military drill. The guns have been issued to all the companies of the cadet battalion and the question which now bothers the military department is to provide lockers for the cadets to place their guns in for safe keeping. As the matter now stands a large number of the cadets have to take their guns home, as there is no place in the armory for them to keep them.

ENTER FRUIT JUDGING CONTEST.

Five Representatives from Nebraska Will Leave Thursday.

Nebraska will be represented by a fruit judging team at the National Horticultural Show which will be held at Council Bluffs the latter part of this week. This is the first time that anything in the nature of a fruit judging contest has been held at the show.

The Nebraska team was picked from the students in the agricultural college of the university and consists of five men, who will leave for Council Bluffs Thursday morning. The men who will represent Nebraska are: Thos. W. Moseley, O. H. Liebers, J. Kusker, Roy Marshall, and R. Williams.

The fruit judging contest will take place at 9 o'clock Friday morning, but the team will arrive in Council Bluffs Thursday in order to look over the exhibit before the contest. The trophy for the winning team consists of a cup offered by the Omaha Bee. This contest will become an annual affair at the horticultural show in the future.

Baked beans, baked on the premises and served hot with delicious brown bread, 10c, at The Boston Lunch.

NOTICE, ALL STUDENTS.

In order that the University Directory to be soon issued may be free from errors, all changes of address made since registration should be AT ONCE reported to the Registrar's office.

TWO DEBATE TEAMS TO BE PICKED TONIGHT

UNIVERSITY SQUAD WILL TRY OUT FOR PLACES ON TEAMS.

EIGHT MEN ARE TO BE SELECTED

Three to Serve on Each of Two Intercollegiate Teams With Two Others as Alternates.

The second preliminary debate of the men who are candidates for Nebraska's league debating teams will be held tonight, either in Memorial hall or in room 106 University hall. At the first debate held a month ago sixteen men were chosen to continue their work on the question, and now eight of these will be selected as the teams to represent Nebraska December 10, two of them being alternates. This debate is open to the university public.

Nebraska on December 10 debates with Minnesota at Lincoln and with Iowa at Iowa City. These are the regular debates of the Central Debating League. Last year Nebraska debated with the other two universities in the league, Illinois and Wisconsin.

Choose Sides.

The men were permitted to choose the side they wished to speak on. Each of the sixteen will speak, and each speaker will be allowed six minutes, except the first speaker on the affirmative, who will have seven, four on opening and three in closing.

All of the following members of the faculty will probably be present to act as judges: Professor H. W. Caldwell, department of American history; Professor M. M. Fogg, rhetoric department; Professors E. B. Conant and Edwin Maxey of the law college, and Professors W. G. L. Taylor and G. E. Virtue of the department of political economy.

Brown Talked.

United States Senator Norris Brown addressed the members of Rhetoric 22, the intercollegiate debating squad, at the Lincoln hotel Saturday afternoon. He talked for over an hour on the income tax question, the subject of the intercollegiate debates in the Central Debating League. Several faculty members were present besides the class.

Senator Brown is an expert on this question. He is particularly interested in it at the present time, having introduced into the United States senate the resolution on the subject which is to go to the legislatures of the states for ratification. The talk was a very helpful and practical one and was very enjoyable as well.

FOOTBALL TODAY.

The Lincoln-Omaha high school game which was to have been held Saturday will be played this afternoon at 3 o'clock on Nebraska field. The game is the big high school contest of the state and large numbers of Omaha and Lincoln students will be present. These high school pupils patronize university games; it is desired that the college students return the favor.

DIRECTORY OUT AFTER RECESS.

Y. M. C. A. Will Soon Have Booklet on the Press.

The university directory, issued by the student Y. M. C. A., will soon be on the press. This was the statement made yesterday by Secretary Der Kinderin of the association.

The booklet this year will be issued shortly after the Thanksgiving recess, if present plans are followed. It is essential that all changes in address since registration be reported to the registrar at once so that correct designations may be made in the directory.

LABORATORIES SOON READY.

Large Quantities of New Machinery Just Being Installed.

Some heavy work is being done at the present time in the mechanical engineering laboratory. A ten-ton refrigerating machine is in the process of erection, besides work being done on a two stage air compressor, a 150 horsepower Corliss engine and a 50 horsepower suction gas producer. All of this machinery has just arrived within the past ten days and the work of placing it is being pushed rapidly.

While the lecture rooms have been in use since the first of the semester, no attempt will be made to use the power laboratories until the beginning of the second semester. The other laboratories have been in readiness for some time, but their occupation has been held up on account of a lack of transformers which as yet have not arrived.

GAME HELD TODAY.

Championship High School Game Held Today on Nebraska Field at 2:30.

Today at 2:30 the members of the Lincoln and Omaha high school football teams meet on Nebraska field for their annual scraps for the state high school championship in this line of athletics. Neither team has been defeated so far this season, and this game will be a fight to the finish.

This game had been scheduled for last Saturday afternoon on the local field, but on account of the hard rain and the condition of the field the game was postponed until today. A large number of supporters for both teams are expected to be on hand for this game, which is of interest to many of the university students who have attended one or the other of the rival schools during their high school days.

CADET COMPANY K ORGANIZES.

Members of the New Company Hold an Informal Feed After Business Meeting.

The members of the cadet company organized last Saturday evening and formed a company club. All the members of the cadet company are eligible for membership to this club, and the intentions of the members of the club is to produce a feeling of good fellowship between the officers and men of the company, and also to promote the efficiency of the drill of the company.

The meeting held last Saturday evening was the first meeting of the club and after a report of the constitution committee was read the officers of the new club were elected as follows: Capt. H. W. Coulter, president; Lieut. A. M. Hare, vice-president; First Sergeant C. J. Lord, secretary and historian; Second Sergeant D. B. Van Dusen, treasurer.

The members of the club listened to a short address by Captain Bartlett and then partook of a feed. The members of the club intend that the organization shall become a permanent institution in the cadet battalion and that it shall increase the interest in drill among the members of the company.

LINCOLN PAPER FAKES ANOTHER LITTE YARN

SAYS BENTLEY'S INJURIES MAKE HIM QUIT SCHOOL.

QUARTER BACK DENIES THE STORY

Bentley Says He Is Going to Leave Lincoln After Thanksgiving, but That Hurt Has Nothing to Do With It.

Once again Lincoln's afternoon newspaper has made a mistake. The athletic editor who has been vainly seeking for several weeks past to foist the name "Andrews Field" upon the new Cornhusker athletic ground has made another break. This time it injures Nebraska and football generally, and for that reason it is worthy of a denial.

Following is the paragraph which the star athletic faker appended beneath a picture of "Tolt" Bentley in the Sunday issue:

"Quarter back Bentley of the Cornhusker football team has left the university on account of injuries which he received in the Minnesota game. In a bad tackle his back was badly wrenched, and care for the bruises as he would, he could not recover so that he could get into the game again. Finally the injury bothered him so much that he could not study and he had to withdraw from school. He expects to return to the Cornhusker institution next fall, and if he is in shape he will be again in the grid-iron game."

Not Due to Hurts.

When questioned by the Daily Nebraskan yesterday, Quarter back Bentley said: "There is nothing in the story. It is true that I am going to withdraw from the school after Thanksgiving, but the Minnesota injury has nothing to do with it. That hurt is practically well, and so far as it is concerned, I am in as good shape to continue in school as I ever was. The published story is without any foundation and I will be glad to see you deny it."

The published story in which Bentley is withdrawn from school by the prolific dooper because of his football injuries caused considerable comment among university students yesterday. Those who knew the circumstances were not slow to give their opinion of the fake.

"It is mighty poor," said one. "The opposition to football is big enough anyway without having fake stories to help the anti's along. This year there have perhaps not been as many big teams and the papers have featured them prominently. Sometimes injuries of a fatal nature as in some years past. But they have been in I think that the reports have been exaggerated just as has this one."

Not Only Time.

"Here is an example of the way in which such a fake may be started. The trouble is that most people take it for the gospel truth and then favor the stopping of the game because of its dangers. Such fakes as that help no one and injure the game a whole lot. Nor is it the first time that this source has been responsible for such things. There has been evident in that paper all this season a disposition to put the Nebraska team in the hole if it were possible. We do not ask for favors, but we do want fairness. Such a story as that about Bentley is not fair."

Some sophomores at the University of Washington made an attempt to haze a large freshman from Japan. The thirty-five students who were on the offensive were unable to attend classes for some time.
