## CORNHUSKERS TAKE THE TRAIN TO DENVER GAME

### ROUSING SEND-OFF AT STATION FOR COLE'S MEN.

### CLASS GAMES ARE SOON TO COME

#### Juniors and Seniors Line Up on Monday and Rest of Series Will Be Played Off Rapidly.

The Cornhuskers are off on their western trip. The team left last night at 6 o'clock over the Burlington and are due to arrive in Denver at 7:20 this morning. The afternoon today will be spent in sight-seeing with possibly a short signal practice to limber the men up from the effects of the night's ride.

The team was given a rousing send-off at the depot last evening. The entire cadet battalion, headed by the cadet band, marched to the depot to show the departing team that the spirit of the university was back of them. Quite a number of other loyal students were present and all joined in giving the university yells, and accompanied by the band, sang "U-U-UNI" until the train had passed out of sight. The different members of the team were called on in turn and each was compelled to appear and say a few words before the crowd would be quiet. All in all it was one of those inspiring occasions which do not occur more than once or twice in the school year, and those who braved the mud in going to the station were amply repaid for their trouble.

The squad that left for Denver yesterday was one of the largest ever taken on so long a trip. There were eighteen players besides Coach Cole, Assistant Coach Harvey and Professor Barber, who went along as faculty representative. The reason for taking so large a squad is because of the closeness of the next two games on the schedule. It will hardly pay to keep the regulars in throughout the whole game tomorrow unless absolutely necessary. The players making the trip are as follows: Harte, Johnson, Bentley, Ewing, Shonka, Frank, Beltzer, Elliott, Wolcott, Chauner, Temple, Magor, Wenstrand, Sturmer, Spellmeyer, Farley, Rathbone, and Sturtzenger.

#### Class Games Coming Off Soon.

Next week will see the class championship football contest narrowed down to two teams. On Monday the juniors and seniors lineup for the first battle. The game is called for two o'clock, and if conditions will permit it will be held at Nebraska field. Should the weather remain bad, however, the game will probably be held at Antelope park.

The freshman-sophomore contest is set for Tuesday. As yet the exact hour has not been determined. Owing to the lateness in getting started, but three games will be played. The winners of next week's contests will play off the finals for the championship on some date following the Thanksgiving vacation, this date to be determined later.

The bad weather the past week has put a damper on the practice of the various teams, so that none of them are in very good condition. The juniors have been out the longest, and have had the advantage of having had two scrimmages with Wesleyan. On paper they look rather strong and are being picked by many as winners. Dick Russell is manager and Pike is captain of the team.

The seniors have not been out so long and it is hard to tell just what they can do. They have some good material if it were worked out. If they can get into shape by Monday they ought to give the juniors a hard fight. Joe Burke is manager and Dit-

terline captain of the senior team. Sophs Are Good.

Manager Pearce and Coach Lofgren have succeeded in getting out a fine bunch of sophomores, who ought to make the juniors go some for the championship. Quite a number of the team are a little back on eligibility requirements, however, which will have to be fixed up before the first contest. Many of these members are now working over these matters and ought to have everything straightened up by Tuesday. As yet the sophomores have not chosen a captain.

The freshman team so far is an unknown quantity. Since no men are drawn from the freshman for the varsity team and since they have the advantage of special coaching, a number of the regular freshman or "scrub" team who are considered "varsity material" will be selected by the coaches. These men will not be allowed to play in the interclass games. As yet the freshman interclass team has no regular organization so far as can be learned.

The custom in the past has been to give the members of the winning team sweaters with their numeral on them. These sweaters have been paid for out of the gate receipts from the games and this year a small admission fee will be charged for this purpose.

### MRS. CONANT AT CONVOCATION.

#### Song Recital Pleased Students Attending Yesterday.

Mrs. E. B. Conant appeared at convocation yesterday in a song recital marked by unusually excellent renditions. The program was of a semi-classic nature and contained numbers well fitted to the singers' ability. Mrs. Conant was given appreciative applause at the close of her various numbers.

### PROF. FLING AT CONVOCATION.

#### Postponed Friday Session to Be Held This Afternoon.

The postponed Friday convocation of the graduate college will be held this afternoon at 5 o'clock in Memorial hall. Professor F. M. Fling will speak on "The Nature of Graduate Study." Professor Fling was on the program for last Friday, but the storm caused the postponement of the address. Next week Chancellor Avery will be the Friday speaker.

### PLAN FOR BETTER BELLS.

#### Engineer in Charge of Bells and Clocks on Campus.

The present exasperating faults of the bell and clock system about the campus has borne its fruit in the appointment of an engineering student to have sole charge of the campus clocks and the bell system. This man will inspect all clocks and bells at stated intervals and will attempt to have some regularity in their workings. It is desired that any student or faculty member noticing any faults in either clock or bell systems report the trouble at once to the office of Superintendent Chowins of the grounds and building department.

### NEW COLLEGE MAGAZINE.

#### New Magazine Published on the Faculty and Administrative Side of College Life.

Some of the members of the university faculty have been the recipients of a new college magazine entitled "The American College." This magazine is not published by students of any institution, but all the articles of which it is composed are written by members of university and college faculties of the United States. The articles deal wholly with university and college interests and also discuss many matters which are of interest to the members of the faculty of the different schools and the administrative officers of these institutions.

## BASKETBALL SCHEDULE ANNOUNCED NEXT WEEK

### MEETING OF CONFERENCE REPRESENTATIVES NOV. 27.

### THE NEBRASKA SQUAD AT PRACTICE

#### Good Men Are Out, but Show Lack of Vim and Dash in Getting Into the Game in Way Needed for Winning Team.

The basketball schedule of the university basketball team will be announced the latter part of next week. On Nov. 27 the basketball association will meet at Des Moines, Ia., for the arrangement of the schedule of all the teams in the Missouri Valley conference. At this meeting the schedule for the games that Nebraska has with other teams of the conference will be announced.

It is thought that the conference will also meet at that city on the date named, as definite information has been received by Dr. Clapp to that effect, although no official notice has as yet been sent. Dr. Clapp will attend this meeting of the basketball association as the representative from this institution, and if the conference meets he will also be the representative in that body as the Nebraska member of the conference.

#### Basketball Practice.

Meanwhile the work of the team goes on. The members of the squad meet three times a week for practice and the hours are so arranged that any one who is eligible for the team is able to be present for practice. The practice is held in the evening on two days of the week and on the afternoon of one other day. On Monday and Wednesday the members of the squad meet at 8 o'clock in the evening for work and also on Friday afternoon at 4 o'clock.

Including Captain Perry, there are at present five "N" men on the squad and also two other men who were subs on the team last year. The "N" men who are out for practice besides Captain Perry are Wood, Petrashek, Ingersoll, and Schmidt. The two subs on the last year's team are Jones and Hutchinson. Besides this nucleus of old men from which the team is to be picked are several other men who have shown their ability to good advantage.

#### New Men Lazy.

The chief difficulty with these men who are new on the squad is that they seem wholly lacking in the desire to get into the game with any vim and spirit. They are willing enough to play if the ball is thrown to them, but their desire to go after the ball and keep their opponents from getting it is missing. This sort of spirit is not what makes the members of the good basketball teams show their real ability, and this spirit must be cultivated into these new men. The spirit is there and it must be brought out of the men. That this is part of the coaching is admitted by the members of the student body, and the students of the university and the supporters of the basketball team look for the Nebraska coach to do this, as his ability to do so has made him known in the Missouri Valley as one of the men who whips the fighting spirit into the teams that he coaches.

#### Freshmen Practice.

As the ruling of the Missouri Valley conference prohibits the freshmen of the schools to participate in varsity games the members of the freshmen class who have aspirations along basketball lines are not allowed to practice with the members of the varsity squad. The members of the freshman class may develop a team, though, that is allowed to compete with the rest of the class teams of the university. One exception to this rule is that freshmen of varsity caliber are

not allowed to play with the freshman team.

The members of the freshman squad have announced that despite this handicap they are going to develop a team which they expect to win the class championship. To do this they have started practice and meet on the gymnasium floor twice a week, on Tuesday and Thursday evenings at 8 o'clock. There are about fifteen candidates for positions on this team and the work of several of these men is of an exceptional good quality.

### JUNIOR PROM DATE IS SET.

#### February 4 the Occasion of the Big Social Event.

At a meeting of the junior prom committee, February 4 was set as the date of the annual formal affair of the junior class. The committee discussed plans for the dance and arranged to make special efforts to bring out a large alumni attendance. Letters have been written to all the larger universities of the country in an attempt to secure new ideas for the Nebraska prom.

### SEM BOT MET LAST EVENING.

#### Addresses Are Given, Together With Announcement of Asa Gray Anniversary.

A meeting of Sem Bot was held in the botany library last evening. The program given follows:

"An Analysis of Respiration" ..... C. V. Williams  
"A Review of Plant Pathology" ..... Della Ingraham  
"A Preliminary Announcement of the Asa Gray Anniversary" ..... V. W. Alsophila

### LAST OF THE FRIDAY TEAS.

#### Series of the Fall Close With Today's Event.

The last of the Friday teas which has been a popular resort of university girls during the current semester will be held this afternoon from 3:30 to 5. No more teas will be held until next fall, when the social hour will probably be revived.

The faculty hostesses today are Mrs. F. M. Fling, Mrs. G. W. L. Taylor, Miss Olive Hunter and Miss May Chamberlain. The city patronesses are Mrs. Henry Gund, Mrs. M. A. Newmark, Mrs. M. M. Stevens and Mrs. A. L. Weatherly.

### NEBRASKA CROSS-COUNTRY OFF.

#### Team of Five Men and Prof. Phillips Goes to Chicago.

The Cornhusker team of five cross-country runners left last evening for Chicago, where on Saturday it will compete in the western intercollegiate cross-country run. Amberson, Anderson, Clark, Melik, and Lzicar are the five runners. Professor Phillips went with the team as the representative of the athletic board.

The race will be held at 11 a. m. in Jackson park tomorrow. Nebraska is hoped to win, as she has four out of the past five annual contests. Following are the entrants:

Nebraska—Amberson, Anderson, Clark, Lzicar, Milek.  
Iowa—Burkholder, Hoerlein, Jans, Mounts, Regner, Rock, Steinberg, Webb, and Waters.  
Chicago—Comstock, Baird, Carpenter, McNish, Lunde, Seagus, Bauman, and Long.

Wisconsin—Hover, Woffenden, Halseth, Fisher, Pellette, Bennett, Barrett, Stillwell, Flint, and Dieter.

Purdue—Calvin, Blasser, Cunningham, Demaree, Goss, Stout, Watson, Phelps, and McWayne.

Minnesota—Nelson, Connelly, Blossom, Elliott, Hodapp, Hull, Rathbun, Kaplan, Tydemann, and Feldman.

Ames—Kessler, Collins, Clarkson, Scott, Cressler, Buckland, Doty, Hill, Chapman, and Giles.

## FORESTERS TO GO TO J. S. MORTON ESTATE

### WILL SPEND VACATION THERE IN COMPANY WITH BOTANIST.

### WORK IS TO BE DONE FOR ANNUAL

#### Rapid Progress on the Forest Club Year Book May Result in the Publication of the Annual in February.

Three Nebraska men, two from the forestry department and one from the botany department, will spend the Thanksgiving vacation in listing the trees, shrubs and plants on the J. Sterling Morton estate at Nebraska City. This means that the staff of the Forest Club annual are getting busy and expect to turn out a valuable as well as interesting book this year.

The students who go from the forestry department in the interest of the annual are J. S. Boyce, 1911, associate editor, and Wade Martin, 1911. G. N. Lamb, curator of the herbarium, will go in the interest of the botany department.

#### To Gather Material.

Boyce and Martin will spend their time in listing the trees and shrubs on the grounds at Arbor Lodge and expect to gather much other valuable material for the Forest Club annual. Lamb will prepare a similar list, which will contain, in addition to the trees and shrubs, a list of the plants on the estate. In addition to the gathering of material, Boyce and Martin intend to make arrangements if possible to secure a few photographs for the annual.

The work on the Forest Club annual is progressing rapidly and it is expected to get out a publication worthy of one of the rapidly growing departments of the university. The printing contracts for the book have all been let and it is expected to have all of the material in shape to get to press by the first of January. If everything goes smoothly the book ought to be off the press and ready for publication sometime in February.

The Forest Club annual is published each year by the Forest Club of this university. Last year was the first issue of the book, at which time it proved a marked success. This year the book will contain articles by several graduates of the department and many articles by prominent men engaged in the work over the country. The book will contain twenty more pages than last year's annual and will be illustrated throughout by photographs.

#### A Scientific Book.

The aim of the annual is to present forestry from a technical and scientific standpoint. It is primarily for the use of the forestry students and those interested in the subject of forestry. The annual when published is distributed gratis to all of the schools of forestry in the United States, to persons actively interested in the work and to various officers in Washington, D. C. Besides this all of the graduates receive a copy.

It is not intended to charge any price for the annual, as it is supported entirely upon a system of patronage. Graduates of the department and others interested in the work of the department and of the club contribute toward the support of the publication at the beginning of the year, and the expense, a proposition usually of such great importance in the publication of an annual, is entirely removed. Extra copies, however, will in all probability cost the purchaser one dollar.

Your car fare would pay for a nice lunch at the Boston Lunch. Why go home?
