IT PAYS TO ADVERTISE

Here is the cheapest good gun yet made. By the omission of the take down feature we have been able to greatly reduce the cost of production and at the same time have kept the gun up to the famous high **Marlin** standard of strength, safety and durability. Notice the clean simplicity of this gun. The workmanship and finish are perfect. The weight is only 7 pounds. The full choke barrels are especially bored for smokeless as well as black powder and so chambered that 2 3/4 inch or 2 9/16 inch shells may be used. Several improvements in the operating parts make it the easiest, most reliable and best working gun in existence. We are glad to make it possible for every lover of guns and bird shooting to get this high grade repeating shot gun at so low a price.
Have your dealer order it for you.
