## FOOTBALL PLAYED IN MANY DIFFERENT WAYS

RUGBY, SOCCER, AND AMERICAN GAMES POPULAR.

ENGLISH FOLLOW THE RUGBY STYLE

Despite Lack of Sensational Feature Possible in American Game English Plays Well Patronized.

In view of the agitation relative to the American game of football, it is interesting to note a comparison made of the principal methods of the game now followed in different countries. There are three distinct styles of football: Soccer, English Rugby, and American.

The American college game is known, of course, by every college man in the country. The essential feature of this game are the use of interference in advancing the ball, the possession of the ball by one of the two contending teams as long as they can make the required distance and the element of bodily contact which as it has developed, is responsible for the large number of injuries attendant upon the American game.

No Formations.

English Rugby is essentially the game that was played in the American colleges twenty years ago and from which the present game has evolved. It is characterized by the absence of interference and of definite formations to execute the plays. Each time the ball is stopped in its forward progress or as a "down" is made as it is called in the American game, each team has the privilege of contending for its possession before it goes into play again. In the English Rugby game all of the backfield must be good kickers as punting is one of the chief means of advancing the ball. The in-

terest on the part of both player and spectator is not as intense as in the American game. English Rugby as it is played now is comparatively free from injuries and serious accidents seldom occur.

The Association or Soccer game differs from the other two described in being more of a kicking game. Eleven men play on a side and the ball is advanced by kicking or striking it with the knees chest or head. Soccer requires skill, cleverness and head work and is a much faster game than either of the other two. In all three games the field is practically the same length and the number of players on a team is the same. Both the Soccer and English Rugby games have this to commend them. A large number of men are able to play the game successfully, as the physical requirement is not as great as in the American game.

Popular Game.

Throughout England the Rugby game is very popular and immense crowds come out to see the big contests. In Canada and the east the Soccer or Association game is rapidly gaining in favor. It is a game requiring all of the essential qualities of football, making at the same time far less demands upon the players in time and strength. It is a game that can be successfully played after a man has completed his college work, so is of service in a way that the American game can never be.

The skill of the women students as campaigners is shown by the result of class elections recently held at the University of Chicago, by the fact that six girls won positions heretofore held by men—two of the places having been regarded until now as belonging to the men-by right. Girls polled the highest numbers of votes for secretary of all four classes, for treasurer of the upper junior (sophomore) class, and for vice-president of the lower senior class—a clean sweep of every office for which they were candidates.
