LOYALTY.

Far out across the blue sunlit Pacific on the island of cherry blossoms, there is a Nebraska graduate—and he is doing things. He is a native of the little island of Japan, who came to Nebraska for his degree. Now he is editor of The Japan Magazine. He says he is proud of his university, and we agree with him. A student from a strange land 6,000 miles across the Pacific and still loyal to Nebraska—students take notice.

WILL HE GO?

Will Jack go to England? With the student body and alumni responding as they have been in the past few days it seems there is little room for doubt. He will go.

SPRING HATS

The response made by the students to the movement is recognized over the state as a manifestation of a spirit which has not been aroused at Nebraska for some time. It is a spirit the essence of which is unselfish loyalty to Nebraska. If Jack goes to England for the summer vacation at the expense of the student body of Nebraska, the question as to the real Nebraska spirit will have been settled once for all. We will have it.

ALLOW ME, ALPHONSE.

Football is coming in for its share of attention at the present time. The good old game seems to need some reforming and in all probability it will get it. All sorts of opinion is floating around relative to the exact amount of reformation needed. Some advocate none at all, while others would introduce the Rugby game as a substitute. The attitude of a certain class of reformers is well stated in the Kansas City Star, when it says:

"Of the colleges favoring a revision of rules, the Chicago athletic board of control seems to be in favor of making the game tame as compared with the present American style.

"There are always a few mollycoddlers who want to do away with football altogether or make it so simple and slow that there will be absolutely no interest in it, not meaning, however, the Chicago board, but a few in the east who have been 'after' the game for more than a year. It might be well, for them to make a few of the following changes:

"Tackling—not to grab a runner and throw him to the ground by main force, but when you see a man coming touch him gently with one finger and he must halt at once.

"Speed limit—No player shall run faster than a slow dog trot.

"Kick-off—For fear of injuring the toe of some innocent individual the ball shall not be kicked off, but shall be presented to one member of the

other side, who shall thank the person making the presentation and both shall make graceful bows.

"Signals—The signals shall be given in the form of a speech for each play and made very plain, for fear some unsuspecting player should expect the play to go in a different direction and accidentally collide with another player. This will prevent any player from injuring another's feelings.

"Referee—The duties of this individual shall be to see that no players collide, and when by mistake they should happen to touch each other in some way it is the official's duty to see that they apologize for the rude act. In case they refuse to do so he shall slap each man gently on the wrist and caution him against repeating the act.

"Others might be mentioned, but these should satisfy some who would make football less dangerous than checkers."

The Forum

Editor Daily Nebraskan:—There seems to be a difference of opinion as to whether the fraternity-non-fraternity meet held on Charter Day a year ago was a success. Dr. Clapp says it "WAS," while the editor of the Nebraskan at the time spoke of it edi-

ening it. But if by that spirit one means the unity of the student body in loyal and enthusiastic support, not only of athletics, but also of everything that makes for a greater Nebraska, one is forced to admit that this fraternity-non-fraternity meet failed to deepen it.

However, the meet is over and the thing that concerns us now is whether this is the kind of an athletic affair we are to have annually on Charter Day? Why not make it an inter-class contest, similar to the one on Ivy Day, or a contest between the various colleges if need be? Both of these are natural divisions in the student body and the only division which the university or any department of it should recognize. Rivalry between classes or between colleges would undoubtedly prove conducive to a better university spirit eventually, and the fellowship among the contestants would be the same if not better than under the present plan.

The inter-class athletic board petitioned the director of athletics a year ago to make the annual Charter Day meet an inter-class affair, but their petition was evidently pigeon-holed. The university athletic board has seemingly regarded the matter as not being sufficiently important to warrant its consideration. Is the fraternity-non-fraternity meet to become a custom at Nebraska? S. A. MAHOOD.

Besides being a news gatherer and affording a correct and authentic bulletin a calendar for coming events the Nebraskan also gives you opportunity to express your own opinion on University affairs. The "Forum" is the common platform for debates and offers the only means whereby the individual can gain the attention of the public to urge reform or the righting of wrong.
