PROFESSOR E. A. ROSS
RECEIVES CENSURE

line in the United States. He is known as a brilliant writer and an authority on sociological subjects. He was always in the lime light, his thoughts often being much ahead of the times, and his statements rather astonishing.

Cadets at Minnesota are to be taken out to Fort Snelling during the spring months by battalions in order to allow them to see real army life.

President Harry A. Garfield of Williams College, in a recent address in Boston decried exclusiveness in college life, and pleaded for greater college democracy.

James J. Hill has offered to give Huron College, S. D., \$50,000 for its endowment fund if the college will raise \$200,000 additional within the next two years.

AGRICULTURE

The demand for junior class caps seems greater than the supply. It will be necessary to order more.

A number from the student body have taken advantage of the opportunity to see the comet through the downtown telescope.

R. B. Whitmore, '10, has taken up the problem of designing a home for his parents which will be built during the coming summer.

Inter-class baseball games are being scheduled. The class of 1910 won the pennant last year, but the other classes feel confident that the old order will change.

John Dobson, a member of the junior in the school of agriculture, has been sick for some time with scarlet fever. If he suffers no relapse, he will soon be able to be around.

Tower climbing seems to be getting rather unpopular of late. It would seem, though, that the tower as it now appears is rather unsightly and that the color scheme of red and black should be maintained.

Mr. R. E. Carr, '05, was at the university farm Thursday looking up a silo and silage cutter. Mr. Carr has been farming during the past two years and feels that the change from engineering to farming has been a profitable one.

At the recent inter-school meet, the school of agriculture won several firsts, taking second place, with Lincoln high school first. Warren Demaray, '11, did well in the high kick. He broke the inter-school record at 9 feet 3 inches. If the school were provided with a gymnasium in which to train the men some very good material could be worked up.

GERMAN PLAY TO BE STAGED AT OMAHA

PROFESSOR FOSSLER HAS COMPLETED ARRANGEMENTS.

DATES SET FOR APRIL FIRST

Ex-Regent J. C. Ernst, Val J. Peter, Editor of Omaha Tribune, and R. C. Strehlon, President Sangerfest Association Backing Plans.

The German play recently produced at the university will be given at Omaha April 1. This announcement was made yesterday by Professor Fossler of the German department. Ex-Regent J. C. Ernst, Mr. Val J. Peter, editor and proprietor of the Omaha Tribune, and R. C. Strehlon, president of the Saengerfest Association of Omaha, are prominent men backing the production of the play there. A local committee will have charge of the business enterprise.

In the forepart of this week Professor Fossler of the German department went to Omaha to arrange definitely for the reproduction of the German play lately given at the university, before the Germans and others who can understand the language, at Nebraska's metropolis. This department had previously corresponded with Mr. Val J. Peter concerning the matter, and he was very enthusiastic from the start. In consequence of his favorable attitude, and that of many other prominent Omahans, Professor Fossler went up to make definite arrangements as to the time, place, and other details.

is Greatly Interested.

Mr. Peter is naturally greatly interested in the enterprise. He believes that it is a good thing both for the university and for Omaha to have the students appear before an Omaha audience. Naturally enough, German plays are not given very often in America—at least not in this part of the country—and Germans are naturally enough greatly attached to their language and the life that language portrays. They take every opportunity to keep in touch with German traditions.

Ex-Regent J. C. Ernst was with Professor Fossler and helped him to have interviews with several of the most wide-awake representative Germans of Omaha. Among others Mr. R. C. Strehlon, president of the Saengerfest Association, was greatly interested in the plan, and was ready and willing to give it his hearty support in every way possible. A local committee, representing the Germans of the city, will have full charge of the business end of the enterprise. It will make all incidental arrangements.

There are no less than twenty-eight German societies in Omaha, and this fact alone would assure the success of the production. Many outsiders, however, are also greatly interested.

The department feels confident that the honors earned in the late presentation will be greatly increased in Omaha, and if its prediction comes true, it may look forward to the giving of the German play at Omaha as an annual event. If that feature should grow out of the present undertaking it is believed the university will have evolved one of the best methods imaginable of calling attention to itself, and the work which it does. Incident-

ally the German department would increase its revenues to make possible the purchase of pictures, busts and other objects of art, that would bring Germany and the Germans as a nation nearer to its students.

ANNUAL GYMNASTIC EXHIBITION MARCH 18

SOME UNUSUALLY INTERESTING FEATURES PROMISED.

"N" AWARDED TO BEST GYMNAST

Events of Preceding Exhibitions Not to Be Repeated—Fencing and Boxing to Have More Prominence—To Send Team to Minnesota.

March 18 is the date set for the sixth annual gymnastic exhibition given by university gymnasts in the armory. The exhibition promises some unusually interesting features this year.

The fact that an "N" is to be given to the man winning the all round individual championship in gymnastic work this year is expected to bring out some especially keen competition in the exhibition. The purpose of these annual exhibitions is to raise money to send the university gymnastic team to Minnesota this year, where the contest of the Western Inter-collegiate Gymnastic Association will be held.

New Numbers.

Every number which will be presented in the meet of March 18 will be entirely new. Dr. Clapp has announced that there will be no repetition of any of the previous meets. The work will be varied. There will be a little of everything in the meet. Some class work, light apparatus work, and three numbers by the young women will be some of the features of the work. The women will put on the Gilbert and new folk dances. The boxing and wrestling will also be features of the exhibition.

The second year class in the men's fencing will put on an exhibition of fancy fencing. There will be foil drill and short bouts. Advanced gymnasium work by the team, and electric torch swinging will add to the interest of the exhibition.

The reserved seats will be put on sale the beginning of next week. Twenty-five cents general admission and thirty-five cents reserved will be charged.

Last Exhibition Good.

The exhibition of last year was particularly good and drew approval from a large audience. The Western Inter-collegiate contest was held at Nebraska last year. Chicago won the contest. D. Mitchell, one of Nebraska's representatives, won the individual championship.

Last year was the first time that fencing and wrestling were included in the regular list of events. The contests will now include three classes of wrestling, the light, medium and heavy weight. The fencing bouts will be between one representative from each school. The inter-collegiate contest this year will include work on the horizontal and parallel bars, flying rings, side horse and tumbling.

JUST PUBLISHED

Webster's NEW INTERNATIONAL Dictionary, (G. & C. Merriam Co., Springfield, Mass.) surpasses the old International as much as that book exceeded its predecessor. Editor in Chief, Dr. W. T. Harris, former U. S. Com. of Education. The definitions have been rearranged and amplified. The number of terms defined has been more than doubled. The Etymology, synonyms, pronunciation, have received unsparing scholarly labor. The language of English literature for over seven centuries, the terminology of the arts and sciences, and the every-day speech of street, shop, and household, are presented with fullness and clearness. In size of vocabulary, in richness of general information, and in convenience of consultation, the book sets a new mark in lexicography.

400,000 words and phrases.
 6000 illustrations.
 2700 pages.
