FOOTBALL NOT TO BE ABOLISHED BY CONFERENCE

RESOLUTION TO DROP GAME AFTER DECEMBER LOST.

NO MORE PROFESSIONAL COACH

Training Table Done Away With—Student Not to Participate in More than Two Intercollegiate Games—Abolish Turkey Day Contest.

Football will be retained in the Missouri Valley colleges, although some stringent limiting rules were adopted by the conference of faculty representatives at their meeting Monday in Kansas City.

The Missouri Valley conference was permanently organized. Chancellor Strong of Kansas was elected president and Dean Isadore Loeb of Missouri secretary. Every college in the conference was represented except Iowa state. Nebraska was represented by Chancellor Avery, Dean Richards, Regent Lyford and Dr. Clapp; Kansas was represented by President Strong and the entire board of regents; Ames was represented by Professor Byers, Drake by President Bell, Washington by Professor Waldo, and Missouri by her full board of regents.

Resolution Fails.

Immediately after the conference met a resolution providing that football should be abolished from the represented institutions after December 1, 1910, was introduced. The debate on this resolution lasted the entire morning. Although the conference was held behind closed doors, it is known there was considerable opposition to the resolution and it finally failed of passage. Kansas was in favor of it and took a very radical position. Missouri was also rather inclined against the life of the game. The other universities, however, were more conservative and Kansas and Missouri gave in after rules were adopted limiting the game.

Chief among the restrictions placed on the school is the abolition of the professional coach. After December 1, 1910, no short time coach will be allowed. The coach must be elected by the board of regents and hold his office for the full year. This, however, does not do away with student coaching, similar to Nebraska's track coach this year.

No Training Table.

The training table was abolished. This innovation begins immediately. No student may take part in more than two intercollegiate games in any one school year after September 1, 1910.

There will be no more Thanksgiving day contests, except those which may be already contracted for. Drake and Ames have a five-year contract for Thanksgiving day games, but both have agreed to discontinue after two years. All games after this year are to be on intercollegiate grounds and no outside games will be allowed. Freshman games cannot be scheduled with other colleges. They will only be allowed to play with the varsity and class teams.

A committee on rules was appointed, each university in the conference having one representative, this committee to adopt the playing rules of the teams. This year the eastern rules will probably be endorsed. When the organization perfected Monday convenes again in December at Des Moines this committee will probably report on the year's games.

The summer baseball question was broached, but nothing definite was done because of lack of time. It is said the conference leaned toward allowing the men to play summer baseball. It is also said that in the discus-

sion Kansas wished to limit the season to two intercollegiate games, while Missouri desired to limit it to four.

CLASS SUSPENDED.

Marietta Juniors Satirize Caps and Gowns and When Suspended They Attack President Perry.

Marietta, O., April 19.—The chapel services of Marietta college broke up in disorder today following the appearance of a junior class in call-thumpian costume as a satire on the caps and gowns of the seniors. As a result President Perry has suspended the entire junior class.

The disorder reached a climax when two members of the junior class grasped President Perry and threw him bodily from his office. The university executive told the juniors that they were suspended and ordered them to leave. Not until he had threatened to call the police was his command obeyed.

There are twenty-two women in the rebellious class.

DR. POUND RECEIVES OFFER.

Former Nebraska Dean Tendered a Storey Professorship.

Dr. Roscoe Pound, former dean of the Nebraska school of law, and later of Northwestern and now of Chicago University, has been offered a position as professor of law in Harvard college. The position offered Professor Pound is known as the Storey professorship, named after the noted professor and jurist who was its founder.

Professor Pound left the University of Nebraska in 1907 to accept a better position at Northwestern. He remained there two years, this being his first year at Chicago. He has not definitely accepted yet, but it is thought he will accept and begin work there next fall.

TRACK MEET TODAY

Postponed Tryout of Cinder Path Men to Be Held.

The track meet which was to have been held last Saturday afternoon but was postponed on account of the cold weather will be held this afternoon on the athletic field. The meet has been divided and the first part of the meet will be held today on the campus and the remainder tomorrow at the state fair grounds. This meet is for the purpose of getting a line on the men of the squad and to do this the squad has been divided into two divisions of thirty men each, under the leadership of G. E. Reed and A. B. Amberson. Visitors are cordially invited to attend this meet of the cinder path athletes.

UNDRAPED ART MUST GO.

Regents Fire \$40,000 Nudes from Gate Panels at California.

Berkeley, Cal., April 17.—Undraped art on the University of California campus must go. The eight art panels on the Sather gate at the Telegraph avenue entrance to the university grounds, which were recently completed at a cost of \$40,000, either must be tailored or done away with.

On the pillars are the figures of four men and four women, undraped. The sculptor, Sari Cummings, made the bas reliefs to illustrate the beauty of human forms. The regents of the university have so ordered, after hearing a number of complaints from those who were offended by the sight of nude forms. The regents, in ordering the removal of the bas reliefs, stated that such action was taken "because the work are not in conformity with the artistic purposes of the structure."

NEW MANDOLIN CLUB ORGANIZED THIS WEEK

MET AT THE PHI GAMMA DELTA HOUSE TUESDAY NIGHT.

PROFESSOR WAY WILL BE LEADER

First Organization of the Kind Since Old Club Died—Will Meet Every Thursday Evening—University Men Invited to Join.

Another organization of the past has been revived and the university is to have a mandolin club. A group of men met at the Phi Gamma Delta house Tuesday evening and decided to organize a mandolin club. They will meet again tonight and a permanent organization will be formed. Officers will be chosen at this meeting and a name will be selected for the club.

At the Tuesday night meeting there were eight men present. They decided that there should be a larger membership than this and have extended an invitation to all of the men in the university. The promoters of the new club hope that every man in the university who feels that he is skilled enough on the mandolin to be an efficient worker in the new organization will attend the meeting this evening.

As the guitar is a necessary part of every mandolin club, university men who can play the guitar are also invited to attend the meeting tonight. To make this club a success, it will be necessary that every man in the university who can play one of these instruments will take an interest in the affair and help push it.

Professor Way of the conservatory of music will instruct the club. He has had a great deal of experience in work of this kind, and with the proper aid of the students should make a success of the new club. He is an enthusiastic worker and is very popular with all the men who have met him.

It has been decided that meetings will be held every Thursday evening. The meeting tonight will be held in the school of music hall at 8 o'clock. To a great extent the future of the mandolin club will depend on this meeting. It is then very important that there should be a large attendance.

The members of the club expect that by hard work this spring they will be able to give a concert early next fall. The glee club will be in trim to do things at that time and the mandolin club hopes to be in shape by that time to assist them in their concerts.

Up until two years ago the mandolin club was one of the most important organizations in the university. It played an important part in the musical programs given from time to time and was a sister organization to the old glee club.

The old organization expired at the same time that the old glee club passed out of existence. Since that time the players of the mandolin have discoursed sweet music only in the seclusion of their own rooms. The university at large has been excluded and been deprived of a form of enjoyment that forms a part of college life the country over.

"CASCADE OR BUST."

One Hundred to Adopt Yellow Hat Band and Go to Cascade.

"Cascade or Bust!" is the watchword which was adopted last night at the mid-week meeting of the Y. M. C. A. The men who expect to make up the delegation from Nebraska will soon appear on the campus wearing gaudy yellow hat bands bearing the watchword, if the plans suggested last

night are carried out. At the Cascade student conference last summer the Kansas delegation outnumbered the Nebraska branch by about twenty-five. The Nebraska enthusiasts are determined that they will take at least a hundred loyal Nebraskans to Cascade this summer.

The Nebraska delegates will live in a cottage. The cottage crowd of last season enjoyed fellowship which would have been impossible in a hotel. Ray Rice, it is told, was the early riser of the aggregation. He would fall out of bed as early as six o'clock and pester the life out of all the others until they got up.

Kansas, Nebraska, South Dakota, Montana and Colorado send large delegations. All delegates from the smaller colleges are bound together into one large state delegation. These states compete in athletic stunts and keep up continual enthusiasm during the encampment.

STUDENTS WALK FOR WAGER.

St. Louis Boy Heads Harvard Team on a Four-Day Tramp.

Cambridge, Mass., April 18.—Fred Lewis English of St. Louis is captain of the Harvard walking team, which left this morning on a hike to Albany, on a wager to do the walk in four days. If they "make good," the lads will receive \$200, and if not they will have to walk home.

English's companions are A. S. Nettles, Charleston, S. C., and R. Hutchcraft, Paris, Ky. All three are members of the Harvard law school.

English will obtain his A. B. at Washington University and his law degree here in June.

FINANCE COMMITTEE MEET.

Discussed Collection of Outstanding Pledges.

At a feed in the Y. M. C. A. last evening the finance committee discussed the financial situation of the association. Plans were laid for the collection of all outstanding pledges. Enoch Nelson is chairman of this committee and he has a large force of men at work collecting the pledges.

CLASS GAMES START TODAY

First of Series of Championship Games Will Be Played This Afternoon.

The first of the series of interclass baseball games will be played today on the athletic field. The game will begin promptly at 2 o'clock in order that it will not interfere with the practice of the varsity.

The freshman and sophomore teams will be the contestants this afternoon. Both teams are well organized and a fast game is anticipated. Roland Thomas is managing the sophomores while Russell Mann is the freshman manager.

Interclass baseball is an innovation at Nebraska. We have had interclass football, basketball and track contests, but baseball has been neglected. There is a larger number of men in the university who play baseball than any other game. In the past only the men who made the varsity or belonged to some fraternity were able to play the national pastime. Under the interclass system a number of men in each class who are not expert enough to make the varsity will be enabled to play in the interclass games.

The senior and junior teams will play a game in the near future and the winner of the freshman-sophomore game for the championship of the school. The winning team will probably be given some trophy. Some of the members of the interclass athletic board are in favor of purchasing a valuable trophy to be contested for each year.

WESLEYAN WONDERS IF THEY CAN PLAY BALL

CORNHUSKERS TRIM COYOTES BY A SCORE OF 6 TO 3.

OLMSTEAD AND MATHERS THERE

Preachers Never Had a Look-in at the Big End of the Score Throughout the Contest.

Were we there?

Were we where?

At University Place yesterday. Of course we were. We went along with Bobby's pupils, and what they did to the Methodists out there made the boys from the Sunday school town so mad. Oh! so angry. And the fair co-eds too. They were positively angry because those "awful university boys beat our nice ball players."

"It wasn't fair," said one Wesleyan co-ed after the game. "They ought to have let our boys beat. Why, it was real mean to come out here and win. Now, wasn't it?"

Yes, fair one, it was, but Bobby's boys play ball to win, and they did it yesterday 6 to 3. Waters and Cumming were there with the willow for the varsity, each getting two hits—a three-bagger and a bunt apiece. Olmstead opened the game on the firing line for the Cornhuskers and pitched a pretty game. In the sixth inning he was relieved by Mather, who had the embryo preachers eating out of his hand all the rest of the contest.

Many Errors for Wesleyan.

In the error column the Methodist boys shined. They made one, two, three, and never stopped until they had pined up seven nice juicy ones, side by side. And the nice little preacher who attempted to play the third sack made three of them. The Cornhuskers made but two wobbles through the nine innings and neither one of them did any harm.

The score:

Wesleyan.
