The Problem of Citizenship

PROF. F. C. FRENCH

11 O'CLOCK

Prince A. Morrow and the American Society of Sanitary and Moral Prophylaxis, the Russell Sage Foundation publications and the Survey.

Mr. Flynn addressed Professor Howard's class in social psychology for fifteen or twenty minutes. He believes this to be one of the most important subjects taught in the university, and declared that a student should not be allowed his skepskin without credit for this course. He gave several instances from his practice showing the great influence of mind over matter.

The importance of being able to use the knowledge gained through newspapers, books, magazines and lectures was emphasized by Mr. Flynn. He said that a student must learn to classify his material and his work. The best time to plan one's work is in the evening when ready to retire, the mind at that time being most susceptible to suggestion. A student who accepts statements without reasoning them out is not thinking but hypnotizing.

Mr. Flynn also referred to the great need of keeping the body in

INTERNATIONAL CHORUS.

Cosmopolitan Club to Sing National Hymns.

Representatives of twelve different nations among the students at the University of Chicago, under the auspices of the Cosmopolitan Club, have organized what, for want of a better name, is termed an "international chorus." The members of the chorus will be trained to sing the national hymns of all the countries represented by the members of the Cosmopolitan Club. A program of all the national hymns will be rendered by the chorus at the Peace Day exercises to be held in Chicago on May 1, which will, it is thought, provide a unique and appropriate feature of the occasion.

Meeting of Cosmopolitan Club.

The first meeting of the Cosmopolitan Club will be held in U106 Wednesday evening at 7:15. All students in the university from foreign countries interested in the formation of the club are requested to be present.

ence the flight of the muse.

In a recent exchange we see a call for foreign missionaries. In a city daily we see that the cannibals have just devoured all but the hats of the visible supply of missionaries in the South Sea islands. Here is a chance for some economist to get busy and figure out the relation between supply and demand and its effect upon the donations received by missionary societies.

"Teddy" was offered the chancellorship of Nebraska University in 1889. The return of the be-cartooned ex-president of the United States from Africa recalls this touching little incident to the minds of those connected with the university at that time. That he failed to accept we can only consider as his misfortune. That he was tendered the job indicates the ability of the regents to pick a man of future greatness although only in the embryo.

FLYNN VISITS DEPARTMENT.

Social Psychology Important—How to Use Knowledge.

Yesterday morning Prof. W. Earl Flynn spent two hours at the university in the library and sociology office. Mr. Flynn is intensely interested in the work of Professor Howard and Associate Professor Eaves. He spent some time in looking over some of the latest additions to the library dealing with problems in practical sociology. He was especially interested in the work of Dr.

shape and emphasized the great importance of the proper care of breathing, muscles and digestive organs.

SPRING FOOTBALL PRACTICE

Morningside Indulges in It Thursday for First Time.

Thursday afternoon, for the first time in the history of Morningside College, the springtime was astonished by the thud of toe and pigskin in a football workout on Bass field. It has been planned for some time to inaugurate a brief spring training season for the benefit of new players and to familiarize the veterans with the smell of the new rules. The balls which had been for some weeks ordered arrived Thursday morning and were at once put into strenuous use.

FUND CROSSES \$100,000 MARK

Hot Campaign to Keep Medical College in Des Moines.

The \$100,000 mark in the Drake medical campaign to raise \$150,000 to keep the college of medicine in Des Moines was reached at 1 o'clock Saturday afternoon. It remains for the college to secure but \$50,000 more to insure the college existence in Des Moines for the next five years at the highest standard fixed on a medical college in America. It is expected this will be raised before tonight. The possibility is very strong that the board of supervisors at its meeting Monday night will make an appropriation of \$5,000 annually for five years. This will be a material boost.
