LARGEST PARADE OF UNI HISTORY TO BE HELD

"COMPANY Q" SANCTIONED UNDER CERTAIN CONDITIONS.

THE PARADE TO LACK ROWDYISM

Committee of Upper Classmen and Cadet Officers Give Chancellor Their Word that the Parade Will Be Orderly.

The students of the University of Nebraska are to have the annual "shirt-tail" parade. This was the announcement made from the chancellor's office yesterday. The parade though is to be under certain restrictions. These restrictions are of a nature which any fair-minded student of the university will comply with and the annual parade of "Company Q" is to be an affair of order and lacking in roughness.

After the parade last year, in which about five hundred students of the university participated, considerable comment was made over the actions of many of the students and the large amount of roughness which marked the path of the paraders. An announcement was made shortly afterwards from the executive office of the university that parades of this nature would not be allowed in the future at the university.

This announcement caused the student body to feel that it had been deprived of one of its oldest customs, and the students of the university felt that if there was some means by which they could impair the damage that they had done that perhaps the custom of the "Company Q" parade would not be abolished. The matter has been under discussion for some time and last night a settlement of the matter in question was reached.

A committee of the students conferred with the chancellor in regard to the matter and it was decided that the parade would be held at the university under certain conditions. These conditions were as follows: First, that rowdyism and roughness which have characterized some of the parades in the past would not be tolerated; second, that the parade would be in charge of the cadet captains of the various companies of the first battalion; third, that the students after assembling at the armory would march down town and after the parade through the streets had been concluded they would return to the athletic field, where a program of special stunts would be given.

These conditions under which permission was granted allow the students to hold this annual parade of all the men of the university. All the men of the institution are to participate in the celebration at the close of the competitive drill, which will be held next Thursday afternoon.

Every male student of the school is expected to participate and make this one of the largest parades that has ever been held at the university.

The captain of the winning company will lead the parade and the captains of the various companies as well as several of the prominent upper classmen have given their word that the parade will be orderly in every respect and that all rowdyism and roughness will be "cut out." Then also a new feature of the parade will be that all the students of the school will participate. Previous to this time the crowd has been made up as a rule of freshmen and sophomores, and with no one to lead them they have committed many indiscreet acts and thus given to this general jollification a reputation which has caused so much criticism to be brought down upon it. Another feature will be the return to the athletic field, where some stunts of an entirely new nature will be "put on," and in this way the student body can hold this event and thus avoid the former criticism.

This plan as outlined by the chancellor and the committee of upper classmen and cadet officers will in all respects meet the approval of any fair-minded student and thus restore to the university one of its most sacred customs and at the same time increase the former spirit with which the annual parade was founded.

FORD TO GO

Professor of Rhetoric to Go to Minnesota.

Daniel Ford, assistant professor of rhetoric at the University of Nebraska, has resigned his position to accept that of adjunct professor of rhetoric at Minnesota. Such was the statement given out from the department last evening.

Professor Ford is a graduate of Dartmouth and has been at the University of Nebraska since 1905. He has only shortly recovered from a long siege of typhoid fever, which kept him from his work in the university during a great part of the first semester. He is universally liked at Nebraska, and his going will be felt as a loss both by the student body and the faculty. The rumor that a member of the faculty was about to leave had been circulating about the campus for several days, but nothing definite was disclosed until yesterday, when the resignation of Mr. Ford was made public.

Storing Moisture in the Soil.

The Nebraska Experiment Station has just issued Bulletin No. 114 with the above named title. The bulletin may be had free of cost by residents of Nebraska on application to the Agricultural Experiment Station, Lincoln, Nebraska.

Miss Marie K. Carriker will teach history and mathematics at Stromsburg next year.

MINNESOTA TRACK

TEAM HERE FRIDAY

STRONGEST TRACK TEAM IN WEST TO MEET CORNHUSKERS.

AMES WILL PLAY THE SAME DAY

Athletic Field Will Be Scene of Activities Friday Afternoon—May Be Half Holiday—Nebraska Records Expected to Be Broken.

The track team is hard at work again. The men are now preparing to enter the meet with Minnesota next Friday. After the glorious victory over Kansas last Saturday, the men are imbued with true Nebraska spirit and desire to make the best possible showing against Minnesota. There is no denying the fact that the victory over Kansas was a great one. The Kansas team is composed of experienced men, men who have appeared in a number of big meets previous to this year. The Cornhuskers did not expect to win, but they were determined to do their best. They did and they won. Although there were only three old men on the team and one of them was in poor condition, a showing of Nebraska spirit that has seldom been equaled proved the undoing of the Jayhawkers.

We have a right to feel proud of this year's track team. We know that the coach has been laboring under difficulties, that the material is all new, and that practice was not started until late in the season; but we also know that every man on the team is a fighter and that true spirit and pluck will to a certain extent make up for a lack of experience.

Minnesota Strong.

In the meeting with Minnesota Saturday the Cornhuskers will meet one of the strongest, if not the strongest, track team in the west. Never in the history of the Gopher institution has she been represented by such a formidable aggregation of track and field stars. This is the second year that Grant has coached the Minnesota team, and the results of this year's meet show the effectiveness of his work. The Gophers met Wisconsin Saturday and made some records that are better than have ever been made at Nebraska.

At the present time Nebraska is "doped" to win first in four events. These are the high jump, pole vault, broad jump and hammer throw. Minnesota is doped to win the 100-yard and 220-yard dashes, the mile run, the half-mile run and the shot put. The other events are in doubt, with the odds in favor of Minnesota.

Best Ever.

The meet Friday will be one of the best that has ever been held at Nebraska. Several university records are expected to be broken, and the meet will be

much closer than the dope indicates. The present outlook indicates that the attendance will be large.

Ames and Nebraska will play baseball Friday, which game will be another attraction of the afternoon. The game will be called at 1 o'clock so that it will not interfere with the track meet. An effort is being made to induce the authorities to declare Friday afternoon a half holiday.

OLD-FASHIONED PICNIC

Lunch for Two a la Basket.

The freshmen are to enjoy an old-fashioned picnic next Saturday. There are to be amusements and lunch and everyone is expected to come. There are no tickets to be sold, nor does the committee in charge intend to sell anything at all. Every young man in the class is to see that a young lady is present, each lady to bring lunch for two. It is to be just a simple, home-like affair where everybody can come and enjoy a good time.

The committee is arranging many sorts of amusements. There will be a ball game. A boat race is on the program, and there will be a water tilting contest. Other plans the chairman refuses to divulge until the day of the picnic. There is no limit placed on the number attending. No one will be at the gate to ask if you have made twelve hours. It is hoped that a rousing rally of all freshmen will take place, to the end of bettering and solidifying the class spirit.

Epworth lake makes an ideal place for a picnic. The trees and grass are in fine condition. There are shoot-the-shoots, swings and other paraphernalia which will give a ready means for a return to childhood days. There will be any number of boats.

Special cars, decorated in the class colors, will be at Tenth and O streets at 4 p. m. to take the crowd to the park. As many as possible are urged to be on hand at that time in order that these cars may be obtained. This is a new plan of the freshmen and its working will be watched with interest.

RHODESIA EMPTY.

Leave Flower Bed for Next Generation.

Hotel de Peste is today a deserted and gloomy place, the last of the students quartered there being dismissed by the health authorities, as cured. Three men were released Monday and four yesterday. Before leaving the members of Rhodasia planted an "N" flower bed, which is to remain as a memento of their stay at the hotel. There were twelve students in the hospital at one time.

Notice.

All senior class pins will be withdrawn from sale after Saturday of this week. Positively no more will be sold. On sale at Temple book store.

H. O. BAUMAN,
Chairman.

QUESTIONS SUBMITTED

BY EACH UNIVERSITY

INITIATIVE AND REFERENDUM IS CHOSEN BY NEBRASKA.

DECISION MADE BY WEEK'S END

Other Colleges of League Propose United States Banks, Waterways, and Closed Shop for Next Year's Struggle.

The University of Nebraska debating board and interested students are this week considering the questions submitted by each of the universities in the Central Debating League. All of the universities of the league have sent questions to each other. These will be voted on by the end of the week, a list being sent to each with the preference expressed by the order in which they are named. The one ranking highest will be selected. In case of a tie, the question is to be decided by President Arthur T. Hadley of Yale University.

Nebraska has proposed the following question, which it regards as of up-to-date interest and worthy of a thorough investigation by students, as well as of immediate interest to the people of Lincoln: "That direct legislation by means of the initiative and referendum is desirable for our states and their subdivisions."

The questions proposed by other members of the league are as follows: "That the federal government should develop the waterway from the great lakes to the gulf." "That the federal government should establish a bank of the United States." "That the movement or organized labor for the closed shop should receive the support of public opinion." The debates of the league are to be held next December. This gives prospective debaters time for preparation during the summer.

MOZART CLARINET QUINTET

Musical Program Pleases Audience.

Instead of the junior program advertised for Tuesday's regular musical convocation, the Mozart Clarinet Quintet rendered a musical recital of exceedingly high class. The Mozart Clarinet Quintet is composed of musicians whose individual ability is well known by all Nebraska students. Edward Walt played first violin, with Ernest Harrison as second. The other members of the quintet were C. E. Ewing, clarinetist; William F. Quick, viola, and Miss Lillian Eiche, 'cello. The program was composed of four movements: First, Allegro; second, Lorchetto; third, Minuet, and fourth, Theme with variations.

Baked beans, baked on the premises and served hot with delicious brown bread, 10c, at The Boston Lunch.
