

# The Daily Nebraskan

Vol. X. No. 24

UNIVERSITY OF NEBRASKA, LINCOLN, THURSDAY, OCTOBER 27, 1910.

Price 5 Cents.

## SOPHOMORE MEETING TODAY

### TIME LIMIT IS CUT DOWN

**BELL RUSH TO LAST TWELVE MINUTES INSTEAD OF TWENTY.**

### BELLS MUST BE INSIDE COURT

**MARATHON RACE TO BE HELD EARLY ON THE PROGRAM.**

**Scoring Changed—No Chance of a Tie—One Class Must Win—Bell Rush to Stop on Signal.**

Numerous changes were made yesterday in the plans for the Olympics. The time limit for the bell rush will be twelve minutes instead of twenty minutes as was announced yesterday. Chairman Hahne issued a statement of plans yesterday in which he said that the time for the cow bell rush would be shortened. Twenty minutes is too long a time for a hard fight, and the committee does not desire to have any fatalities reported after the meet. Twelve minutes of hard fighting is expected to settle the battle and give several of the warriors some good bruises to be taken care of. When the dust clouds gently roll away, to disappear in the air above, and the gentle maidens trip from the bleachers homeward, warriors bold will seek the nearest suitorium and bath tub to make preparations to attend the football game of the afternoon.

#### To Start Evenly.

The eleven bells will be placed on a line drawn across the middle of the fighting court. The boundary lines will be sixty feet on either side of the line of bells. Members of the freshman class will form in line in the west court fifteen feet from the line of bells, while the sophomores will occupy a similar position in the east court. When the bugle blows, all warriors will assemble for the rush and at the given signal the fight will begin. If any bell is either forced or carried beyond the boundaries of the courts, it will be counted as a "dead" bell. The signal for the fighting to cease will be the sound of the bugle. The bells will be decorated. The rules for the bell rush are as follows:

#### Bell Rush Rules.

- (1) There shall be eleven (11) bells.
- (2) Each side shall be lined up 15 feet from the center line of bells.
- (3) The point is to get the bells on your side of the center, the original line of bells.
- (4) No bell must be taken more than twenty yards or sixty feet back from the center line of bells. Every bell found outside of this line is to be counted "dead."
- (5) Each bell found on either side of the center line and inside of the court, will be counted for the class in whose court it is found. Each bell counts five (5) points.
- (6) The time limit will be twelve (12) minutes.
- (7) Fighting must cease promptly when the bugle is blown.

#### An Early Start.

The marathon race will be started from the field as early as possible so that the men may return in time to be rested before the bell rush. The course will be about three and a half miles in length. A run will be made to the state fair grounds, and on the return to the athletic field the runners will sprint around the cinder path twice.

Guy Reed will be in charge of the marathon race. Three men will be entered from each class. The points awarded for this event will be eighteen instead of fifteen, as was previously announced. The first place man will win ten points for his class. The sec-

ond and third place men will be given five and three points respectively. The possible tie will now be avoided by the change of the scoring in the marathon race. This change will make the total number of points in the meet come to one hundred and thirty-three instead of one hundred and thirty.

### SOPHOMORE MEETING.

**Member to Publication Board to Be Elected.**

The sophomore meeting today will be held at 11:30 o'clock. It will be in the nature of a combined Olympics rally and publication board election. Two candidates are reported to be in the field for election to membership on the student publication board for the class of 1915. Ralph Sweeney and Burton Hill are the candidates. Sweeney is a member of Alpha Theta Chi fraternity and Hill of Alpha Tau Omega fraternity. The publication board is composed of five faculty members and three students, one from each

### MAY BE MADE TONIGHT

**CADET APPOINTMENTS EXPECTED TO BE ANNOUNCED.**

### TEXT IS NEARING COMPLETION

**CAPT. YATES WRITING MANUAL FOR LOCAL USE.**

**Signal Detachment Being Tested—The Regimental Drill to Be a New Feature.**

Five o'clock tonight will be a moment of interest to all University cadets, especially second year men, for at that hour it is probable that all appointments, for non-commissioned officers below first sergeants and commissioned officers not already appointed, will be read. Upon these appointments depend, to a certain ex-

yet, but are expected to arrive the latter part of next week. The suits, which are being purchased from an eastern firm this year, will prove very satisfactory if they compare favorably with a small shipment which the contracting company recently sent out.

#### A Cadet Manual.

One of the things of interest in the military science department is the fact that Capt. H. E. Yates is formulating and writing a Cadet Manual. This manual is being composed primarily for University of Nebraska cadet use, and in context is a theoretical course of military science, covering the essentials of field service for officer volunteers. It is expected that the first publication of this book will appear this fall in pamphlet form.

The signal detachment, which is receiving its initial test at Nebraska and which is prophesied to be a forerunner of an established signal corps, is working on the buzzer telegraph at present, and securing very good re-

### SECRET PRACTICE THE RULE

**CORNHUSKERS GO OUT TO FARM TO PREPARE FOR KANSAS.**

### TWO GAMES PLAYED HERE SATURDAY

**OMAHA TO PLAY LINCOLN HIGH AT 2 O'CLOCK.**

**No Risks Will Be Taken in the Doane Game—Contest Expected to Be Easy for Nebraska.**

Secret practice was commenced in earnest yesterday when Coach Cole took the Cornhuskers to the university farm gridiron. No one was allowed to watch the work who had no business on the grounds. The coach will likely continue secret practice, at least until after the game with Kansas on November 5.

The football schedule for Saturday, while it is not the heaviest in the world for Nebraska, includes two games on the athletic field. Nebraska plays Doane and the Lincoln high school plays the Omaha high school.

Of the two games the one between the two high school elevens will probably end with the closest score. Both Lincoln and Omaha are playing splendid football and both have designs on the state high school championship.

#### "Les" Mann Fast.

"Les" Mann is almost the whole team. He is playing an even faster game than last year. In the games so far played by the local high school, Mann has carried the ball for greater gains than any other player.

The Lincoln high school team has a strong line and an even stronger back field. However, Omaha too has a strong team, said to be somewhat heavier than Lincoln's, and the game should be a speedy exhibition.

The high school teams will have the grounds before the Cornhuskers, the game to be called at 2 o'clock. The officials will be: Edwin, Lincoln, referee; Maxwell, Omaha, umpire; Kearns, Fremont, field judge; Elliott, Lincoln, head linesman.

After the high school game the Cornhuskers will try a few of the tricks on Doane which are being worked into shape for the Kansas game.

Not that the Cornhuskers intend to put on a "possum" stunt for Kansas to worry about, but they will take things as easy as possible in the game Saturday. The piling up of a tremendous score is scarcely worth two or three disabled men. Of course, there is that ever present possibility that Doane might change the ordinary menu and make the Cornhuskers get busy and work, besides putting a few of them out of the game. If they do—an ancient philosopher once stumbled upon the remark, "Variety is the spice of life."

#### Few Bruises.

What few bruises the Nebraskans received in the late Cole-Kochler bout have about disappeared. The season has advanced to a place where a good-natured kick between the eyes is taken as a matter of course.

With two such games on the book for Saturday, there should be a good sized crowd. A high school game alone is sufficient to fill the bleachers, and with this addition to the usual crowd, the two teams should have considerable encouragement. Doane always brings a large number of rooters and the Omaha high school team never fails to bring down half the school.

It might be well to add that "We Must Beat Doane."

THE CORNHUSKERS GOING THROUGH THE DENVER LINE SATURDAY, OCTOBER 22.

of the three upper classes. This board has the general supervision of the Daily Nebraskan, the Cornhusker and the Blue Print. The editor, managing editor and business manager of the Daily Nebraskan are chosen by this board.

Chairman Phillips will have charge of the Olympics rally. It is hoped that all sophomores will be present at the meeting. Plans for the big scrap will be outlined by the various committeemen in charge. Class yells will be given and a general enthusiasm meeting will be the idea of everyone in attendance. It is also reported that some novel stunts will be sprung at this meeting.

### BOHEMIANS GIVE A DANCE.

**University Students Entertain at the Unitarian Church.**

Eight students of the University Bohemian class took part in a program given last night at the Unitarian church. Arrayed in fantastic Bohemian dancing costumes, the students went through a folk dance. It was a scene which few of those present had seen before and proved the most entertaining number on the program. Following are the names of those who took part: Irma Sadilek, Eva Ptacek, Carolyn Hanslik, Irma Herman, S. V. Shonka, John Bouchal, Joseph Tabasca and John Stibal. The accompaniment was played by Miss Krial.

tent, the future commissioned officer appointments—consequently such interest.

Things military, although not flaunted in the limelight as are some of the other departments, are grinding along in the usual routine, and accomplishing results. The daily drill takes place on the athletic field now instead of Twelfth street, where it was previously held. Because of the increase of the extra company, made this year, the athletic field is proving somewhat small for cadet use, especially so during the parades.

#### Uniforms Here Soon.

The cadet uniforms are not here

suits. The buzzer telegraph, which was never before used at this school in connection with the military department, except during the two weeks at camp last year, when an improved apparatus was set up, is destined to remain a permanent means of dispatching signals for the detachment use. In addition to the buzzer telegraph, the detachment will be instructed in the use of the "wigwags," heliograph, and wireless telegraph.

In accordance with an order recently issued by the commandant, the chief trumpeter will detail one of the corp every evening as orderly to the commandant. The chief duties of this person will be to blow the assembly call and recall for the daily drills.

Regimental drill will be the feature of the work of the cadets next spring. Nebraska has never before had regimental drill, and the new features which it involves promise to make military drill more interesting to the cadets. The new offices created by the formation of a regiment also greatly increase the cadet's chance of promotion.

The Platform club will hold its semi-monthly meeting Thursday evening in the Temple, science hall. A program will be presented and an important business meeting will be held in which some new members to the club will be elected. All members are urged to be present.
