COMMITTEE RECOMMENDS REMOVAL OF UNIVERSITY

NOT EXPEDIENT TO EXPAND THE
PRESENT CAMPUS.

ONE MILL LEVY IS REQUIRED

All Colleges Will Go to State Farm
and May Mean Severing of
Conservatory.

The joint committee of the legislature which has been investigating the university removal proposition since the middle of January held a final meeting Saturday at the Lindell hotel and decided to submit a report favorable to the removal. Ten of the eleven members of the committee were present at the meeting Saturday and all but three were in favor of the removal from the beginning. These three were finally won over after the matter had been argued most of the day. The greatest objection raised was over the large expense necessary. A sub-committee of three was appointed to draw up the report, which will probably be presented to both houses today.

An additional one mill levy is to be recommended to meet the expense of the removal. The report will state that without this levy the removal cannot be accomplished and if the legislature refuses to adopt this it will be recommended that the university stay where it is. The committee decided that if the members of the legislature do not want to levy one mill for the removal a levy of one-half mill, in addition to the regular mill levy, would be asked with which to erect new buildings and repair and remove others. The amount raised by this one-half mill levy would be divided equally between the university and the university farm, the regents to supervise the expenditures.

The present levy of one mill raises annually about \$400,000. This amount just about pays the cost of operation. The committee accepts the recommendation of the chancellor and regents in the matter of the medical school at Omaha. The school will be kept in that city, but the course there will be changed from two to four years, leaving only the two years preparatory work in Lincoln. The law school will be taken to the farm with the other colleges. The school of music, which is practically a privately owned institution, will probably no longer be affiliated with the university if the removal is accomplished.

The committee report will look far into the future. It is agreed that for perhaps ten years the university work will be at a disadvantage owing to the erection and equipment of new buildings and the necessary inevitable commotion of moving, but it is argued that the following ten years will bring corresponding advantages and the ultimate economy and efficiency in twenty years would be overwhelmingly in favor of the consolidation of the two schools on the farm campus.

The matter of expanding the present site of the university was looked into and found hardly possible. The farm campus can be extended much more easily. The old campus would

probably be put on sale, and because of its fine location for commercial purposes could be sold at a high figure.

THE NEBRASKA ROAD SITUATION.

Professor Chatburn to Speak at Convocation Today.

Professor Chatburn of the engineering department, specialist on roads and a leader in the good roads movement in the state, will speak at convocation this morning on "The Road Situation in Nebraska." Professor Chatburn is well acquainted with his subject and his address will no doubt be very interesting, especially to the engineers and agriculturists.

SOPHOMORES PROTEST GAME

ASK THAT GAME BE FORFEITED
BECAUSE JUNIORS PLAYED
INELIGIBLE MAN.

The sophomores have protested the game of basketball which they lost to the juniors in the interclass tournament. It is claimed that the juniors played one man who was ineligible. The committee on eligibility will meet today to consider the protest. In case the player is found to be ineligible the game will have to be awarded the sophomores under the rules governing the tournament.

At present the standing of the teams is as follows:

	Pl.	W.	L.	Pct.
Seniors	2	2	0	1.000
Juniors	2	2	0	1.000
Sophomores	0	0	2	.000
Freshmen	2	0	2	.000

In case the protest of the sophomores is allowed they and the juniors will be tied for second place. If the juniors should then win from the seniors another tie would result and more games would have to be played.

ANOTHER POOR VICTIM

CAIN GOES TO RHODESIA WHILE
PHI DELTA THETA HOLDS
VACCINATION.

Jean B. Cain was last night removed from the Phi Delta Theta house to Rhodesia. Cain had been ill with a fever for several days, but the eruption did not appear until yesterday afternoon. Dr. Birkner was called in without delay and soon the city health preserver had the sick man hustled off to his new abode. The two other Nebraska men who are boarders at Hotel de Peste are Frank Jones and C. J. Schulte. Both of them are rapidly recovering.

Phi Delta Theta held a rather unique party last night, with Col. J. M. Birkner as the guest of honor. Some of the fraternity men said that they were really sorry they had to entertain him. The party was in the nature of a vaccination comedy, with

Dr. Birkner playing the leading role. The second part was taken by Health Officer Rhode, who acted the part of "the fumigator." The fraternity house was thoroughly fumigated and all of the men had been vaccinated before the show was over.

CABS ARE A LUXURY

JUDGE FULLERTON SAYS THEY
ARE NOT NECESSARY IN THE
LUIKHART CASE.

According to Justice of the Peace Fullerton, cabs to university functions are not necessary and those who ride in them are indulging in a luxury. This decision was handed down yesterday in the case of E. A. Levi versus R. A. Luikhart, after the case had been taken under advisement. Luikhart's attorneys, who are prominent students in the law school, introduced evidence to show that their client was an infant at the time the bill was contracted and that he could not be held for a luxury. In handing down the verdict Judge Fullerton said that according to the evidence the defendant was not liable, and the plaintiff must stand the costs of the action.

RETURN FROM SIOUX CITY

NEBRASKA DELEGATION ATTENDS
TERRITORIAL CONVENTION
OF Y. W. C. A.

The delegates from the University of Nebraska Y. W. C. A. returned yesterday from attending the territorial convention of university associations. A hundred and fifty delegates were present from North and South Dakota, Minnesota, Iowa and Nebraska, not counting the Morningside students, at which university the meetings were held. The Nebraska delegates were Miss Schultz, Vera Barger, Alice Humpe, Clara Ericson, Carry Hesseltine and Esther Warner.

Miss Schultz and Miss Barger were on the program Saturday. Another feature of the program was an address by Miss O'Connell, territorial secretary, on the rural work of the Y. W. C. A. Saturday evening the delegates were guests at a banquet given by the Sioux City Y. W. C. A., at which covers were laid for 200. Several high school associations were represented, among them the Lincoln high, which was represented by Doris Slater, Marian Gee and Anna Luckey. Miss Slater was on the toast list at the banquet. The convention closed Sunday evening.

Senior Basketball.

Senior basketball men special practice Tuesday and Thursday, 4 to 5 p. m.

T. Z. ZACEK,
Manager.

MISSOURI OWNED BY FASTER CORNHUSKERS

BY SCORE OF 30 TO 23 TIGERS
TIED FOR SECOND.

TEAM WORK AGAIN WINS GAME

Carrier's Playing Is Feature of the
Game, and Hiltner Outjumps
His Opponent.

Still maintaining its winning streak the Nebraska basketball team last night defeated Missouri by a score of 30 to 23, as a result of which both are tied for second place in the Missouri Valley. The contest was fast from start to finish and a grim determination to win was apparent on both sides, all of which tended to make the play rough. So interesting was the game that in the middle of the second half the spectators were carried off their feet with the enthusiasm of their own yelling and seemed loath to cease, each one seeming to have a desire to make more noise than all the rest put together. It was necessary to stop the game, and then it took over five minutes before quiet reigned sufficient to hear the referee's whistle.

Team Work Wins.

While the Tigers were the better basket shooters, they were unable to overcome the advantage which superior team work gave to the Cornhuskers. Long shots were favorites, and several times the basket was located from a distance and at a difficult angle. Nebraska on the other hand made the greater number of her points from beneath the ring, it being unnecessary to make long throws on account of the team work which the Tigers were unable to break up at all times.

Individual Play.

The feature of Nebraska's playing was the team work. There was no individual starrng. However, Carrier might be said to have carried off the honors of the evening. He was there in finding the basket and guarding his man well. Hutchinson was a little off in throwing goals from the field, but more than made up for it in his fast floor work and certainty on free throws, outpointing the Missouri man at the latter. Frank played close to his man throughout the game and gave him little chance for any unguarded throw, while he made two from the field himself. Hiltner outjumped his opponent and was an important factor in intercepting the ball before it could get within tossing distance of the Missouri basket. Gibson was closely guarded, but succeeded in getting away long enough to land two in the net. He rendered the most valuable assistance when Nebraska threw the ball in from the sidelines. Watters went in for Hutchinson in the last half, but was given no opportunity to try for the basket.

Purkhiser played a good game at center and excelled for Missouri, being able to gauge the net well and having an advantage in the play on account of his weight and size, but allowed Hiltner to outjump him straight
