Nebraska, as second-class mail matter,  
under the Act of Congress of March 3,  
1879.

MARCH 9, 1911

ARE WALKS TO RIDE ON?

An ordinance prohibits the riding of bicycles on the sidewalks of the city of Lincoln. The university seems to be an exception and the two-wheeled pedomotor has become a pest. It is ridden up and down the walks at all hours in a bold, haughty manner and has become an nuisance. Students hurrying to and from classes are obliged to turn out and let the bicycle pass. Many outside the university have found it convenient to cut across the campus and have little regard for

come intolerable and if these people have not enough self-responsibility to insure proper conduct on their part, they should be refused admission to the library. If it were possible for the university authorities to keep a careful watch on each student, a few might have a special guardian appointed to assist them. Strenuous measures may be necessary, but if patrons of the library will conform themselves to the rules and regulations, there would be no more trouble.

Today the first games of the first high school basketball tournament will be played in the Armory. This is a university undertaking and is worthy of support. Step over and see one of the games this afternoon and see what the high school boys can do. Size up the material that will probably compose the Cornhusker five in a few years. The games are going to be exciting and fast. The high school game permits more of a chance for the faster open play than the college game. This fact should operate more to attract than to dissuade attendance.

PI DELTA EPSILON GATHERS.

Meet in Cornhusker Office and Discuss Banquet Problem.

Pi Delta Epsilon, the honorary newspaper fraternity, met in the Cornhusker office last evening at 5 o'clock. A large number were present and the holding of a banquet was discussed. Although the question was gone over thoroughly no definite action was taken. But the banquet will probably not be held until some time in May.

A. I. E. E. MEETING TONIGHT.

Professors Stout and Towne Will Speak on Interesting Subjects.

A meeting of the A. I. E. E. will be held tonight at 7:30 in M. E. 206. Prof. O. V. P. Stout will speak on "Hydraulic Engineering," and Prof. T. W. Towne on "Structural Engineering." This meeting is open to the public and should be of especial interest to engineers.

TAKE CIVIL SERVICE EXAMS.

Forestry Students Who Are Successful to Be Assigned Positions.

Five students in the department of forestry are taking the civil service examinations for positions in the United States forestry service. The examinations began yesterday and will continue until this evening. If students taking them are successful, they will probably be assigned to positions at the close of the school year. Those taking the examinations are David G. White, Plattsmouth; John Boyse, Lincoln; O. F. Swenson, Holdrege; L. H. Douglas, Lincoln, and L. L. Bishop, Superior. At present Nebraska is well represented in the forest service, several of the Nebraska graduates holding responsible positions with the government, both at Washington and in the forest reserves.

pedestrians.

The riding of bicycles on the walks of the campus should be stopped. The walks were not built for race tracks or pleasure drives, but for the convenience of the university public. Of what use are walks when those who should use them are obliged to step off onto the grass in order to accommodate the bicyclist? Some faculty members have found the practice convenient. Measures should be taken to put the bicycles off the walks.

LIBRARY GOSSIPING.

The library building is a place for study. It was not the intention of the designers that it should be used as a gossip-bug incubator. The stench created some time ago by the acts of miscreants was bad enough, but it finally disappeared. The gossip infection on the contrary shows no signs of ceasing. It is becoming more annoying every day to those who wish to work.

It is no credit to the university to have a large number of men and women out on the front steps, but they might as well be there as on the inside bothering everyone else. Both sexes seem to have found it convenient to find each other at the building and to pass the time away in anything unprofitable. This condition has be-
