

Directory of Advertisers

The following merchants and business men of Lincoln are anxious to serve the University students. By placing their advertisements in the columns of the Daily Nebraskan they show that they want your trade. And you may be sure that the merchant who is willing to make a little effort to get your patronage is the one who is going to treat you honestly and considerately in attempting to keep it. So you—as well as the Nebraskan—will profit by trading with these people:

DURING the remodeling of our front we are offering special inducements in the way of some special bargains for each day, announcement of which will be made in the daily papers and it will pay you to watch for them. We are also showing some very special values in young men's suits this week. Come in and see what we have for you.

MAYER BROS.

SOON TO PLAY TENNIS.

A Number of University People Interested in New Association.

A number of university people are interested in the new Lincoln Tennis association which has recently been formed. A very attractive tract of land has been secured for the courts. Of the available sites, one located south of Randolph and west of the Rock Island tracks has been selected. It would lie at about the intersection of G and Twenty-fourth streets, if G street were continued through. The tract has room for eight courts and while it lies high enough to be well drained, it is not so high as to catch much wind. Besides being quiet and well protected, the spot is an especially pretty one, lying along the Antelope, bordered by trees. It is expected that work on the courts will begin very soon. The officers are: President, W. L. Stephens; vice-president, C. F. Schwarz; secretary, Miss Louise Pound; treasurer, G. W. Woods. On the executive committee are G. A. Loveland, A. L. Weatherly and Miss Jessie Beghtol.

Among the university persons connected are Prof. Clarence Skinner and M. Tait of the department of physics, Prof. W. A. Willard of the zoology department, G. A. Loveland of the weather bureau, Prof. P. M. Buck of the department of rhetoric, Miss Louise Pound of the department of English literature, Miss Ina Gittings and Miss Jessie Beghtol of the department of physical training, Prof. H. R. Smith and Myron Schwenk of the university farm, and others.

SEEK DATA ON SUMMER TILLING.

New Method Believed to Have Solved Question of Crop Production.

The experiments conducted on the experimental substation at North Platte during the last seven years, and reported in Bulletin 118, indicate that the growing of winter wheat on summer tilled land is profitable. This method promises so much that the superintendent believes it will help

greatly to solve the question of profitable crop production in western Nebraska. In order to collect the results of their experience and give these results to all who are summer tilling or may summer till this season, it is desired to secure the names of all the farmers in central and western Nebraska who have summer tilled for winter wheat or for other crops. Letters from men who have summer tilled, giving their method, crops raised, yield, etc., and also the names of men who have summer tilled or contemplate summer tilling will be very much appreciated. Those interested write to W. P. Snyder, Superintendent, Experimental Substation, North Platte, Nebraska.

TRIP TO GERMANY.

Miss Heppner Will Conduct Party for Which Credit is Given.

Professor Amanda Heppner of the German department will conduct a small party of university girls to Europe this summer at the request of the department. The trip will extend only through the German speaking countries—Germany, the Tyrol, Switzerland, and Holland, and German will be spoken on the entire trip. The tour is to include fifteen weeks of traveling and all will have an opportunity to visit Paris. Undergraduate students who are members of the party are allowed credits in the university.

The present plan is to spend two weeks in Berlin, taking in the city and attending the opera and drama performances. The principal cities of Germany will be visited in turn, and the trip down the beautiful Rhine will be accomplished by boat. The party will walk through the Harz mountains, the Spreewald, the Black forest, and the William Tell country in Switzerland. The Bavarian lakes and Oberambergau are included in the itinerary. In Munich the great Wagner festival, and in Weimar the imposing nationalfestspiele will be attended.

On June 8 the party plans to sail from New York over the Hamburg-American line, returning August 29. The party is limited to women only, and will be very small. Four have signified their intentions of going and any students interested may apply to Miss Heppner for information.

Iowa won the championship of the Intercollegiate Rifle League by defeating Massachusetts agricultural college 1,890 to 1,891.
