MINNESOTA FINALLY WINS A MEET FROM US

BY A CLOSE SCORE THEY NOSE
US OUT.

NEBRASKA RECORDS ARE BROKEN

Captain Reed, Out of Condition. and
Anderson Run Wonderful Races.

For the first time in the last eight years, or since the innovation of dual track meets between Nebraska and Minnesota the Cornhuskers lost to the latter school in the track meet last Saturday, failing to win by a marginal number of seven points—62 to 55.

The meet was without doubt one of the most exciting and fastest ever held between the two schools. Minnesota, as was known previous to the departure of the Nebraska aggregation, had the best array of track and field athletes known in the history of that institution. Hill, Vanstrum and Anderson are considered in the world of sport as speeders of first class, while such phenoms as Frank and Lambert strengthened the total point victories from the field events. And additionally to such a splendid representation of track material, the entire Minnesota team had taken the necessary precaution of two weeks anticipation of the Cornhuskers. By so doing, every man was in his prime, none of them being stiff or in any other way physically disabled.

Guy Reed and Louie Anderson were the most brilliant stars for Nebraska. Reed was sick and ought not to have been on the field. At that he broke two Nebraska records by a good margin and his races were the feature of the meet. In the 220 he came very close to the world's record of 21 1-5, and his time was better than that in any other meet in the United States on Saturday.

Anderson also smashed two Nebraska records, as well as the Minnesota records in the distance runs. Nebraska won first in eight out of fifteen events. With Captain Reed in condition the relay would have been won. It is said his time was not more than 49 seconds on the last quarter of the relay.

All the Nebraska men did excellent. The boys say they were treated in the best possible style by the Minnesota men.

The result of the meet depended completely on the result of the relay. The relay race, which was held till the last, was started with the score Nebraska 55, Minnesota 57. Notwithstanding the fact that Captain Reed was seriously sick at the opening of this event, the prospects for Nebraska shot a good rise and caused every Gopher in the field to make hazardous guesses on Nebraska victory. At the pistol shot, Gibson of Nebraska was opposed to Nelson of Minnesota, and contrary to some expectation, Jimmy closed his quarter of the event about ten yards to the good. It was then, however, that the three remaining Cornhuskers commenced competition with the three aforementioned track stars. Powers was unable to hold his handicapped distance and closed his share about on a par with the Gopher. In the next lap Amberson lost a great distance to Anderson and gave Guy the cue with a twenty-yard handicap for our captain. With such odds to face, Guy ran the race of his life and brought the stands to their feet by

finishing almost within touching distance of the fleet Hill.

The summary of events is as follows:

• 120-yard hurdles—Russell, Nebraska, first; Murdink, Minnesota, second. Time, 18 2-5.

• 100-yard dash—Vanstrum, Minnesota, first; Hill, Minnesota, second. Time, 10 1-5.

• 880-yard run—Anderson, Minnesota, first; Bush, Minnesota, second. Time, 1:59.

• 220-yard dash—Reed, Nebraska, first; Vanstrum, Minnesota, second. Time, 21 4-5.

• Mile run—L. B. Anderson, Nebraska, first; Tydeman, Minnesota, second. Time, 4:34.

• 220-yard hurdles—Powers, Nebraska, first; Russell, Nebraska, second. Time, 27 flat.

• 440-yard dash—Reed, Nebraska, first; Hill, Minnesota, second. Time, 50 flat.

• Two-mile run—Anderson, Nebraska, first; Connolly, Minnesota, second. Time, 10:07.

Shot put—Frank Minnesota, first (41 feet 10 1-4 inches); Collins, Nebraska, second (38 feet 4 7-8 inches).

Discus—Frank, Minnesota, first, 116 feet 11 1/2 inches; Lambert, Minnesota, second, 115 feet 11 1/4 inches.

Pole vault—Lindstrum, Nebraska, first, 11 feet; Coady, Minnesota, second, 10 feet 11 inches.

Hammer throw—Collins, Nebraska, first, 146 feet 9 inches; Harmon, Nebraska, second, 130 feet 4 3/4 inches.

High jump—Peterson, Minnesota, first, 5 feet 8 inches; Russell, Nebraska, second, 5 feet 7 inches.

Broad jump—Lambert, Minnesota, first, 21 feet 7 inches; Munson, Nebraska, second, 21 feet 5 inches.

Mile relay—Minnesota, first (Nelson, Vanstrum, Anderson Hill); Nebraska, second (Gibson, Powers, Amberson, Reed). Time, 3:28.

NOTED ENGINEER SPEAKS

DR. WADDELL OF KANSAS CITY
DELIVERS FOUR INTERESTING
ADDRESSES.

Dr. J. A. L. Waddell of Kansas City, who is considered one of the best bridge engineers in the world and upon whom the honorary degree of Doctor of Engineering was conferred at the dedication of the new mechanical engineering building, addressed a series of meetings of the engineering students Monday. At 11 a. m. he spoke to a general meeting of all engineering students on "Bridge Engineering," and at 2 p. m. he spoke on "The Materials of Construction, Dredging and Foundations in General," and at 4:30 p. m. he gave an informal talk on "Movable Bridges," and at 8 p. m. he addressed a joint meeting of the Engineering society, A. I. E. E. and A. S. M. E. on "Ethics of a Bridge Engineer, Arbitration, Administration of Construction, Riveted versus Pin Connected Trusses and Engineering Fees."

In the address on "Bridge Engineering" he read a paper which he had divided into three chapters; they were the "Bridge Specialist," "Responsibility of the Bridge Engineer" and "The Promotion of a Bridge Project." He said, in brief:

"Specialization is the order of the day. A few years ago a man only had to have a general education to be a successful engineer, but today he must devote his whole time to one line. There are specialists in all the professions, especially engineering. At first a man was known simply as an

engineer when he was engaged in engineering work, but as new branches developed he was known as a civil, electrical or mechanical engineer, whichever line he was working in and now these are subdivided into numerous other important subdivisions, such as municipal, sanitary, irrigation and others. The bridge engineer has been recognized as a specialist for a quarter of a century, and as a subdivision of civil engineering."

He then spoke upon the growth and employment of the bridge specialists, especially in railroad work. Also the reasons for their employment and why the builder should never be allowed to design the bridge and the dangers assumed when the builder does do the designing. As an example of these he quoted letters and evidence taken before the investigating committee appointed to look into the cause of the failure of the Quebec bridge.

"Bridges are divided into four kinds, steam railroad, electric railroad, driving and pedestrian traffic. The latter two are most generally combined." He then discussed the conditions causing the building of the bridge, who pays for it, and the profit derived from a bridge project. He also gave the points to be taken account of in the promoting of a bridge and gave a detailed explanation of the methods by which a bridge is promoted. In conclusion he gave a number of rules to be followed in the study of bridge engineering and in the practice of that profession, and the motto of a successful bridge specialist should be, "Integrity, fairness and progress."

The rest of his addresses were of a technical nature and took the form of a class room lecture, and each one was heard by a large number of the engineers. Nebraska engineers were indeed very fortunate to have such a noted engineer as Dr. Waddell address them, and a fact of added interest in his speaking here at Nebraska is that Dr. Waddell volunteered to come here and deliver these lectures to the engineering students without any expense to the university in any manner at all.

CHANCELLOR RECEIVES.

Seniors Accept Invitation in Large Numbers.

A large majority of the senior class was able to attend the chancellor's reception given last Friday evening by Chancellor and Mrs. Avery at their home at 2001 Washington avenue. In the receiving line were several of the deans and other members of the faculty. Downstairs ices and strawberries and other refreshments were served. Upstairs Registrar Harrison and Miss Ensign received the guests. Punch was served on the upper floor. All those present report a very enjoyable evening spent.

MISS CONKLIN ON BERNHARDT.

Will Discuss French Actress and Her Play Today.

Professor Clara Conklin, head of the French department, will speak at convocation this morning on Sarah Bernhardt. She will also tell something of the play in which Madame Bernhardt is to appear, "Camille." "Camille" is a tragedy by Alexander Dumas, and has been played by Bernhardt many years. Miss Conklin is exceptionally well informed on French actors and plays and her talk will be very interesting.

KANSAS CITY CENTRAL WINS THE VALLEY MEET

THREE NEBRASKA MEN SMASH
OLD RECORDS.

WILEY JUMPS TWENTY-TWO FEET

Wood Cuts Down 220 Mark and Rector
Ties for First at 11 Feet
in Pole Vault.

The Missouri Valley high school athletic meet on Nebraska field Saturday afternoon resulted in a victory for Kansas City Central. There were only three events in which this school did not place. J. Reber made 15 points, the highest individual score of the meet, and Wiley of York was second with 11. Three Nebraska athletes showed up well—Wiley of York, and Wood and Rector of Omaha. The former now holds the record in the two jumps and Wood set a new mark in the 220. Rector shares the honor of the vaulting record.

A great deal of credit is due the officials because of the fact that the meet came off on scheduled time. Dr. Condra gave entire satisfaction as referee and umpire. George Pinneo did an exceptionally good job at starting, and it was not necessary for him to call a race because of a bad start throughout the whole meet. Following is a summary of the meet:

100-yard dash—E. Wood, Omaha, first; Regan, Westport, second; Rowley, Omaha, third; Wiley, York, fourth. Time, :10 1-5.

220-yard dash—Wood, Omaha, first; Lee, K. C. C., second; McBain, W. D. M., third; Millard, Omaha, fourth. Time, :22 1-5. (New record.)

440-yard dash—Norton, K. C. C., first; Millard, Omaha, second; Schlaepfer, K. C. M., third; Jones, Westport, fourth. Time, :54 2-5.

880-yard run—Moise, K. C. C., first; Mamaha, W. D. M., second; Clayton, K. C. C., third; Spalding, K. C. M., fourth. Time, 2:07.

Mile run—Moise, K. C. C., first; Spalding, K. C. M., second; Watson, W. D. M., third; Hugg, Lincoln, fourth. Time, 4:38 4-5.

120-yard hurdles—Hamilton, K. C. C., first; J. Reber, K. C. C., second; Siemens, St. Joseph, third; Goetze, St. Joseph, fourth. Time, :15 4-5. (New record.)

220-yard hurdles—Hamilton, K. C. C., first; Rowley, Omaha, second; J. Reber, K. C. C., third; Lewis, W. D. M., fourth. Time, :27.

High Jump—Wiley, York, first; McIntyre, K. C. C., second; Shepherd, Westport, third; Goggins, Lincoln; Witter, W. D. M., and Sherwood, St. Joseph, tied for fourth. Height, 5 feet, 10 inches.

Broad jump—Wiley, York, first; McBain, W. D. M., second; Powell, K. C. M., third; Slaughter, K. C. C., fourth. Distance, 22 feet. (New record.)

Pole vault—Powell, K. C. M., and V. Rector, Omaha, tied for first and second; Moss, W. D. M., Smith, K. C. M., and Hurst, K. C. C. tied for third and fourth. Height, 11 feet. (New record.)

Hammer throw, 12 pounds—Collins, Lincoln, first; J. Reber, K. C. C., second; Mapps, York, third; Tarbell, K. C. M., fourth. Distance, 137 feet, 10 inches.

Shot put, 12 pounds—J. Reber, K. C. C., first; C. Reber, K. C. C., second;
