You Can't Be Too Particular about Personal Appearance

A WELL-DRESSED man counts for more in every way than one who is carelessly dressed---or lacking in small matters of neatness. Here are clothes made for men who are particular and for men who ought to be, and are not particular enough. We sell clothes that help a man; that add to his force by giving him a sense of being well-dressed; it's like being in good society to wear the sort of clothes we sell. You ought not to wear anything else---the best isn't too good for you---and you know it yourself.
