FIRST 1911 FOOTBALL GAME THIS AFTERNOON

VARSITY MEN TO MATCH WITH FRESHMEN TEAM.

GOOD FAST PRACTICE HELD FRIDAY

Freshmen are Strong and Expect to Give First Team Men a Hard Tussle.

Clashing in the first game of the 1911 football season, Nebraska will meet the Freshmen team at Nebraska Field this afternoon at 3:30 o'clock. Today's game will be the first of a series of practice games to be played this year between the Freshmen and the Varsity squads, the next one being scheduled for next Thursday.

Practice at Nebraska Field Friday night consisted in the laborious work of drilling hard in signal practice, and then trying out the plays against the second team. Plays were stopped and gone over in detail time and time again by Coach Stiehm, and at the end of the day's work, in a few moments' hot scrimmage, the Cornhuskers ran off a number of forward passes and quick plays for good gains.

Potter a Star.

Potter played quarter Friday with Hornberger at the center position. Potter's work with the ball is speedy and sure and when he gets his team working in with the plays better, it looks as if he will be a great success as the brains of the eleven.

In the game today it is expected that Stiehm will use almost every player who is now on the first squad, trying them out thoroughly before beginning the work for final practice next week for the opening game.

Following is the lineup of the Varsity men who will take part in the game: Center, Hornberger, Elliott, Freitag; right guard, Ross, Pearson, Hanzlich; left guard, Stelk, Hornberger, Underwood; left tackle, Shonk; Swanson, Andrews; right tackle, Harmon, Anderson, Miller; right end, Lofgren, Westover, Elwell; left end, Chauner, Hyde, McKee; quarter, Potter, E. Frank, Mulligan; right half, Frank, Russell, McKinney; left half, Owen Frank, Racely, Black; full, Purdy, Gibson, Cruse.

Freshmen are Strong.

Assistant Coach Rathbone has worked hard all week with his Freshmen warriors and they make a good stand against the heavy onslaught of the first eleven. The Freshmen team is going out after that game today and will show the Cornhuskers some real pre-season football.

Coach Rathbone's lineup is as follows: Center, Allan and Maston; guards, Eworak and Fautts brothers; tackles, Maston, Stutts, Pitts; ends, Isreal, Delameter, Beck; quarter, Hawkins, Appel, Howard; halves, Beck, Howard, Hawkins, Mills; full, Beeler, Halligan.

CHARLES WILLIAM TAYLOR, '98

Principal Teachers' College High School

FRANK KRUSE ANNOUNCED

LINCOLN MAN HAS ASPIRATIONS FOR SECOND YEAR CLASS PRESIDENCY.

Another Sophomore presidential candidate has shown up in the person of Frank Kruse, of Lincoln. His candidacy was announced last night by some friends, but Kruse could not be located for an interview.

Kruse is a husky football player, who was a star one year on the Beatrice high school team and for two years played on the Lincoln high school winners. He was at one time a member of a L. H. S. debating squad, and was one of the most prominent men in his high school class.

Injured in Olympics.

Last year Kruse was talked of as a candidate, but could not be persuaded to make the race. He served his class as a member of the Olympics committee and was, himself, injured in the contest. On account of which he was laid up for several weeks.

Kruse made a good record in the Ivy day meet last year, and is considered as good material for future football teams of the University. He has been popular in class affairs. Kruse is not a fraternity man.

The only other announced candidate is David Meeker, whose intention to run was made known a few days ago.

COACH SHERWIN TO USE ALL EASTERN METHODS.

"If the K. U. squad has no kicker I will develop one," is the declaration of Ralph W. Sherwin, the new foot-

NEW PRINCIPAL AT WORK

PROF. CHARLES W. TAYLOR HEAD OF UNIVERSITY TEACHERS' HIGH SCHOOL.

Charles W. Taylor, of the class of 1898, has succeeded Professor Crocker as principal of the Temple High School. In connection with his new work he will also have a class in "School Administration" in the Teachers' College.

Mr. Taylor is regarded as one of the ablest school men in the state. Since leaving the University he has had twelve years' experience as superintendent of the city schools at Ohio, Geneva and McCook.

He was president of the Central Nebraska Teachers' association and of the Southwest association. His appointment is received with unqualified approval by school men everywhere, all recognizing him as being a man of splendid administrative ability.

Upon graduating from the Red Oak, Iowa, High School, Mr. Taylor entered the University of Nebraska, where he took an active part in student affairs. He was a member of the Interstate Debating team and corresponding secretary of the University Y. M. C. A.

ball coach at Kansas. Sherwin is a Dartmouth man, who played under the new rules last year. The new game is to punt the ball and Sherwin will introduce these eastern methods at Kansas. He claims that "risks" at gaining are what win games.

UNIVERSITY BUILDINGS CROWDED TO THE LIMIT

CLASSES BEING HELD IN BASEMENTS AND ATTICS.

LAW SCHOOL HIT WORST OF ALL

Chemistry Laboratories Crowded to Overflowing, Botany Moved Out and Chowins Puzzled.

"Every available attic and basement on the campus as already been converted into a classroom to relieve overcrowded conditions, so we are unable to further remedy the congestion, declared Superintendent of Buildings, Grounds and Construction C. E. Chowins.

Classes of beginners in the law college are suffering the most from the situation. Room 304 in University hall, where those classes are scheduled, seats only sixty-seven, whereas there are over eighty Freshmen Laws enrolled, and the number is apt to increase rather than diminish.

A number of ordinary straight chairs have been pressed into service, thereby packing the room to its full capacity, yet it is evident that when full attendance becomes the rule after this week's unsettled conditions, standing room will have to be resorted to.

Dean Hastings' Puzzled.

Judge Hastings, dean of the law college, and the professors of the department, have been trying to solve the problem ever since the first classes were held, but have finally given it up to Superintendent Chowins.

Other classes aside from those in Freshmen law are also too large for their regular quarters. Dr. Bessey's classes in Botany I had to be scheduled in the Mechanical Engineering building instead of old Nebraska hall on account of insufficient room in the latter.

Official Plumber Ousted.

Students who are curious to know just why a supply of plumbing pipe and fixtures now occupy the ground north of University hall, will be interested in learning that the University plumber, with his paraphernalia, was ousted from his sanctum in the basement in order to make room for the Legislative Reference Bureau. Where to stow the plumbing material is now a question with the authorities.

What to do with the crowds of chemistry students, that have poured in upon him, is the question which is now perplexing Professor Benton Dales, head of the chemistry department.

Chemistry Labs Overflow.

Over eight hundred students have registered in this department. The original capacity of the chemistry buildings allows for only five hundred and seventy. Last year nearly seven hundred students were accommodated in Professor Dale's department, but it was crowded to the limit. With an attendance more than one hundred greater than last year, new accommodations will have to be provided. Notices of the desk arrangements will be posted Saturday if possible.
