**MAY BE READY FOR EMBRYO DOCTORS NEXT FALL—SIX YEAR MEN HERE.**

Plans are being drawn for the new \$100,000 medical building to be erected soon in Omaha. It is hoped that it will be finished by next fall.

It will be used for all actual medical work in the College of Medicine, so first and second year men in the six year combined course will be the only students in the College of Medicine who will take their work at Lincoln instead of Omaha, after the new building is completed.
