DEBATE CONTESTS DRAWING NEAR

NEBRASKA AND IOWA CLASH FRIDAY NIGHT IN THE TEMPLE.

TEAMS WORK DURING THE RECESS

Special Features Planned to Make the Event Notable—Governor Aldrich to Preside and Band to Play.

In debates at Lincoln and Minneapolis, Nebraska will meet Iowa and Minnesota on the subject of "Shipping Subsidies" next Friday evening at 8 o'clock. Both sides of the question will be argued by the Cornhusker teams, the affirmative team, composed of Joseph Goldstein, Ralph W. Garrett, Anan R. Raymond, and Clarence A. Clark (alternate), debating at home and the negative team, Clifford L. Rein, Harold A. Prince, T. Jean Hargrave, and Benjamin Harrison (alternate), representing Nebraska at Minneapolis.

No Rest for Debaters.

No Thanksgiving vacation was enjoyed by any of the two teams, as the entire time was taken by work on the coming contest. Extensive preparations have been made to insure victory for Nebraska if possible, and, at least, promise an extremely warm contest for her opponents. Both teams have been at work for several months and the prospects are bright for a repetition of last year's victories.

Debate Held in Temple.

The home debate will be held in the Temple Theater and will commence promptly at 8 o'clock. Several special features have been arranged to render the program interesting. Governor Aldrich will give the introductory address and will preside over the forensic event. The military band will furnish music on the occasion. As no other event has been scheduled for this evening, it is expected that the entire capacity of the theater will be sold out before Friday and tickets should be obtained early. Admission will be 35 cents, reserved, 50 cents. Tickets may be obtained at Porter's, the City Y. M. C. A. and from David H. Rogers, the business manager for the event.

LOAN COMMITTEE REPORTS

RULES TO BE PUBLISHED SOON GOVERNING DISPOSITION OF LOAN FUNDS.

The rules of the student loan committee will be published on December 2. Loans will be made after that date to all needy students, in amounts sufficient to give the student money enough for all necessary expenses. Professor Chatburn is anxious to get the money in circulation. Upper classmen will receive preference over all others in the loaning of the money.

JUNIORS TO MEET.

Plans for Junior Play to Be Announced Next Thursday.

There will be an important meeting of the Junior class, Thursday morning at 11:30.

Junior Play announcements are to be made at this meeting.

MEMORY OF TURKEY GIVES WAY TO EDUCATION

The turkey has been consumed, lessons have been forgotten, and the satisfied but reluctant students have returned to starve and study.

In reply to the ever-recurring question, "Did you have a good time?" the answer seems to be uniform, "Yes, but the time certainly did fly." To this answer there is no dissenting opinion, but "Cheer Up"—only two weeks intervene between us and fourteen days of eating, sleeping, and utter mental relaxation.

Only a handful of familiar faces are missing as a result of this brief respite, and rumor has it that these absences are largely due to eye trouble, financial embarrassment or general physical debility. Rumor is

indeed charitable, and often contradicts the statements of Professor Engberg, but in this case rumor has a distinct advantage.

The prodigal sons and daughters began to arrive at an early hour Sunday and continued to do so until the wee sma' hours of Monday morning. The atmosphere of the eight o'clock classes was rather sleepy, but a large majority of the students were present in body, if not in spirit.

Now that the difficult return to the "grind" has been accomplished, books must be dusted off, tastes must be lowered to the plane of boarding house fare, and determined efforts must be made to withstand the onslaughts of the "Vacuum Committee."

GOV. COMMENTS ON FEES

CRITICISM MADE OF CHARGES IN PROFESSIONAL SCHOOLS.

University of Nebraska students are paying too high fees to attend school, according to a statement made by Governor Chester H. Aldrich.

"I could not afford to send my own children to the University if we did not live in the city," declared the Governor in an open letter upholding his views of the case.

A storm of talk, pro and con, has arisen on the campus concerning the fees paid by the students here, especially in the law, medical and engineering departments. The fees in these colleges are the highest in the University, and many of the young men and women who would like to become professional students are deterred from starting such an expensive course because of lack of finances.

The real discussion naturally comes upon the point that some one must pay the expenses of the professional students' education, and if the individual student does not do so, the state must by means of appropriations.

SUBSTITUTE FOR COFFEE

DR. ERNST BESSEY DISCOVERS A NEW SOOTHING DRUG.

Dr. Ernst Bessey, '96, has an important article in "The Plant World" this month which may prove of untold commercial value and may even revolutionize the coffee market of the country.

While in Florida, Dr. Bessey discovered a relative of the coffee plant which grows wild there, and conceived the idea of making coffee from its seeds. He tried it, and all who partook of the novel beverage agreed that "it was coffee." Other relatives of the coffee plant have been found in Nebraska and an investigation will be made in this state next summer. If coffee can be made from plants growing wild in this country, it will mean a revolution in the coffee world.

Dr. Bessey is a son of Dean Bessey and graduated from Nebraska in 1896. He is now professor of botany in the Agricultural College at Michigan.

CARSON AT CONVOCATION

AUTHORITY ON CHINESE CONDITIONS TO LECTURE THIS MORNING.

Rev. Stanley Carson will speak at Convocation today on "Modern Movements in China." Dr. Carson has been at Hing Wa, China, for six years and is very enthusiastic over the future of the country.

He has been a close student of their civilization and government and is well versed on the conditions and causes leading to the recent rebellion in that country. His discussion of the situation and its outcome will be from first hand information.

FRESH ORDER HEADGEAR

FIRST YEAR CLASS TO BLOSSOM IN BROWN AND GOLD, AFTER WINNING OLYMPICS.

Orders for freshman caps will be taken by the class committee in the Nebraskan office, beginning this morning at eleven o'clock.

As an effort will be made by the committee to have the caps made and delivered before Christmas, freshmen who intend to order should do so immediately.

"The 1915 headgear will be strictly up-to-the-minute in style and shape, the committee having decided to break away from the custom of having dinky, rah-rah sky-pieces of loud colors and extreme shape," declares a member of the committee.

The class colors of brown and gold will be embodied in the caps by adopting a fashionable cap of the proper shade of brown, and putting gold embroidered numerals on the front.

Deposit Required.

A deposit of twenty-five cents will be required with each order, and the size of cap desired must be specified at the time the order is given. The caps will cost about a dollar each. Girls as well as boys will wear them.

The committee in charge of the matter consists of Ralph S. Doud, chairman, Rex Coffey, B. Sloan, and Wiley.

The Junior Hop will be given December 9th, at the Lincoln Hotel. You had better get your tickets early, as the dance will be limited. Tickets can be purchased from Radcliffe, Potter, Hein and Hyde. E. L. HYDE.

COACH STIEHM PLEASED WITH CONFERENCE RESULTS

RETURNS FROM IMPORTANT CHICAGO MEETING.

NEW RULES WERE DISCUSSED

Some Changes Made Relative to the Eligibility of Players—His Position Defined.

Coach Ewald O. Stiehm has returned from the Big Eight conference meeting, held in Chicago last week, and seems well pleased with the outcome of the meeting.

Most of the new rules or tentative ones were concerning the eligibility of players. The results of this year's experiences have led to radical changes in the regulation of players.

Bona Fide Students Eligible.

Any player may play on the team if he is a bona fide student of the university and in good scholastic standing. If he has taken one degree in the school and is out for another one, he may play, provided he has not played more than three years with any school. This rule will permit the use of a player at least three years out of six in school.

In protesting the eligibility of players charges must be brought to the committee on eligibility at least two weeks in advance. Both this and the rule given in the paragraph before were submitted by Minnesota and grew out of the trouble this fall.

It was also decided that a conference team can not play a team that has once withdrawn from the conference. This applies to the specific case of Michigan.

Some minor rules were passed, but several of the above and a number of other matters were held over till the special January meeting.

Stiehm was very well pleased with the outcome and is awaiting for the Missouri Valley Conference to see how much this will effect Nebraska next year.

FLING RETURNS FROM EAST

EUROPEAN HISTORY PROFESSOR TELLS OF ENJOYABLE TRIP.

Dr. Fling returned Saturday from an extended trip through the East. On his way the doctor visited the University of Illinois, saw the Illinois-Minnesota game, inspected the new History and Literature building, and was entertained at the Illinois Graduate Club. At Yale he spoke before the History Club on "The Logic of History," and later addressed a class in Eighteenth Century history on "The French Revolution."

On Friday following Thanksgiving he attended a banquet to the executive council of the American History Association at the Metropolitan Club in New York City. The following well known men were in attendance at the gathering: Ex-President Roosevelt, Professor Adams of Yale, Professor Hart of Harvard, Seth Lowe and McMasters, author of a widely used text in American history. The doctor's Monday class in European history was treated to a most enjoyable talk on the entire trip.
