IOWA AND NEBRASKA MEET ON THE MAT

WRESTLING TEAMS TO BATTLE AT GYMNASIUM TONIGHT.

FIRST COLLEGIATE MEET HELD HERE

Gran, Gilliland and O'Connor Will Go Up Against Miller, McCormick and Ruby in Some Swift Matches.

When the grapplers of Iowa University meet the Cornhusker mat artists in the Armory tonight the sportdom of Nebraska University will be given its first opportunity to see the wrestling game as it is played between collegiate teams. By reason of this fact, much interest is being aroused in the contest of Saturday night, and a record-breaking crowd is expected.

Iowa's team arrived in the city this morning. It is made up of a most likely-looking group of athletes, most of whom have reputations to back them. Gran, who showed up exceedingly well in Iowa's contest with the Ames Aggies, will enter in the light-weight contest at 138 pounds. He is a scientific wrestler of more than ordinary skill. Against him for Nebraska will be Ruby, if he manages to get down to the proper weight, and if not, Guenther. Both of these Nebraska men have demonstrated their ability at the game and a pretty contest is looked for.

Miller in Middle-weight.

In the middle-weight class there will be another likely struggle, Gilliland for Iowa going up against Miller for Nebraska. Gilliland will enter at 163 pounds and with a little the advantage of Miller, who cannot make more than 156. Gilliland won his match in the recent Iowa-Ames tournament and is considered a good man. Miller is a man who has had much experience on the mat and backs it with native ability and strength.

In the heavy-weight class, O'Conner will enter for Iowa against McCormick for Nebraska, the former at 175 pounds and the latter at 178. Both are experienced men and a good match between these two is assured. The fact that both are possessed with names that are more or less Hibernian, according to the "dope" artist, is also good warrant for their match.

Six Straight Last Year.

Last year when Nebraska met Iowa at Iowa City, the Cornhuskers took six straight falls away from the Hawkeye lads. Whether they can do it this year in the same neat manner is an open question, however. Two out of three falls will win in each match. Van Nice of the city Y. M. C. A. will referee. All holds will be allowed with the exception of the strangle holds, hammer locks above a right angle and twisting toe holds.

BASEBALL MEN ATTENTION.
 All men eligible for the Varsity baseball team are asked to report in the Gymnasium today at 2:30 p. m.

MEDALS FOR AG. WINNERS.

Men Who Make Various Judging Teams Receive Gold Emblems.

The Agricultural Club has evidenced
 (Continued on page four.)

JUNIOR PLAY DEFICIT

DRAMATICS OF THE THIRD YEAR CLASS PROVE EXPENSIVE.

At the request of Prof. L. B. Tuckerman, auditor of student accounts, the following approved report of the Junior Play finances, as submitted by Fred McConnell, is published:

Receipts—	
Ticket sale	\$567.25
Disbursements—	
Oliver Theatre	\$100.00
Stage expenses	27.57
Costume and make-up	66.86
Manuscript and royalty	51.40
Band	15.00
Coach	200.00
Advertising	132.83
Sundries	7.71

\$601.37

Deficit, \$34.12.

RAG GOES FAR AND WIDE

NEBRASKA'S DAILY CARRIES STUDENT NEWS TO MANY LANDS.

Perhaps it would be interesting to many students of Nebraska University to know in how many parts of the world the "Rag" travels every day to be read by the old "grads."

It is found upon investigation that there are several copies go each day to different places in Canada; to the Philippine Islands, and even to some of the universities in England. Besides these places outside, every state of the union is represented by at least one copy of the Nebraskan each day.

Some of these copies go to men and women who were graduated from the University as far back as '85 or '86, which shows that they are still interested in what we are doing at Nebraska.

MISS CAPPOCK SPEAKS.

Tells Y. W. C. A. Girls of Rapid Progress of "Changing Chinese."

Miss Grace Cappock, '05, general secretary of the Y. W. C. A. at Shanghai, China, spoke at the Tuesday meeting of the Y. W. C. A. on the great possibilities and needs of China. Miss Cappock emphasized strongly the rapid progress China has made recently and her firm belief that the new republic will stand.

An unusually large attendance greeted Miss Cappock. The meeting was led by Esther Warner. Several songs were rendered by Marial Jones.

Sunday Meals at Cafeteria.

The Sunday meals at the cafeteria will be served as follows: Breakfast, 8:00 to 10:00 a. m.; dinner, 12:00 to 1:30 p. m., and supper, 5:30 to 6:30 p. m.

Manager Orr has requested patrons not to bring bills of large denominations, for the making of change hinders the waiting line.

STEAM VALVE BREAKS.

Because of a break in a valve on one of the steam power lines to the testing laboratory in the Mechanical Engineering building, it was necessary to throw out of service for about ten days several units in the steam tests. The break is now repaired.

FAST WORK ON MUSEUM

BELIEVED THAT IT WILL BE WHOLLY REPAIRED BY JUNE 1.

The work of repairing the Museum is being pushed so rapidly that Professor Barbour believes it will be finished by June 1. An iron stairway will be put in to prevent further danger from fire.

An itemized account of the damage done to specimens shows little variation from the original \$10,000 estimate, but the three most valuable specimens destroyed will undoubtedly be replaced. The great twelve-foot prehistoric elephant tusk, which Professor Barbour at first thought beyond recovery because it was so badly cracked and charred by the heat, has been polished and cemented until it is apparently as good as before the fire. A duplicate of the two-horned rhino of Sioux county, valued at \$3,000, will probably be supplied by Harold Cook, a former student, both of Nebraska and Columbia, who is now operating a ranch at Agate, Nebraska. The boar's head can be replaced if the University will send a searching party into the Nebraska and Dakota badlands.

It seems to be the general belief that the largest wild boar skeleton was destroyed, but this is not the case. The museum possessed two skeletons of wild boars, which were closely related. The smaller and less valuable of these was destroyed, but the large one, which is valued at \$50,000, was not injured in the slightest degree.

The extension of the museum will be deferred until the ultimate location of the University is definitely determined. An addition is badly needed, for the department even now has enough material stored in the basements and attics of campus buildings to fill two more museums as large as the one now in use.

Graham Taylor to Speak.

Mr. Graham Taylor will deliver a lecture before Miss Eaves' class in professional social work in U. 102 at 3:00 o'clock Monday afternoon. The class is open to all who are interested in the subject. Mr. Taylor is a prominent Chicago settlement worker and a deep student of social problems.

POSITIONS OPEN TO STUDENTS

Dean of Agriculture Has Offers of Three Jobs for Aspirants.

The dean of the College of Agriculture has applications from Earl S. Wooster, dean of the Rural Department of the Lewiston State Normal School at Lewiston, Idaho, for a man to teach all branches of field crops, shop work, school gardening, dairying, poultry raising, etc.; position open at the beginning of the next school year; beginning salary, \$1,200.

He also has a position with the Bureau of Plant Industry, United States Department of Agriculture, for a man to take charge of crop work temporarily, at a salary of \$75 per month; salary to be increased to \$1,200 in case applicant can pass the civil service examination.

There is, too, a position for a man to take charge of the agricultural department in the public schools of Anandale, Minn., beginning next September, at a salary of about \$1,100.

DATE NOW SET FOR IVY DAY CEREMONIAL

WILL COME THIS YEAR ON WEDNESDAY, MAY 22.

INNOCENTS WILL THEN BE CHOSEN Dramatic Club Play in the Evening and the Cornhuskers May Be Given Out.

Ivy Day, the annual spring festival and holiday, is to be held on Wednesday, May 22, this year, and if the elements are favorable, as they were not last year, it will be an eventful day. The date has been under consideration for some time and was but recently decided upon.

The day will be full of events from start to finish, beginning with the May-pole dance by the senior girls and the Ivy Day oration in the morning, and ending, in all probability, with the Dramatic Club play in the evening. The final program has not been definitely decided upon, but following the custom of former Ivy Days, the annual inter-class track meet will be held in the afternoon. The Innocents will be chosen from the junior class at the conclusion of the meet.

An attempt was made to have the Cornhusker printed and ready for distribution at the class play last year, and although the attempt failed of its mark, it is thought that a somewhat similar trial will be made this year, so that the Cornhusker will be ready at the Dramatic Club play, provided it is given.

MUSEUM SPECIMENS.

Forty-five Pound Salmon Donated to the State Museum by Governor.

A forty-five pound salmon fish, donated to the University museum by Governor Aldrich, has arrived and is now in the hands of a taxidermist prior to being placed in Professor Barbour's collection. The salmon was caught in the Campbell river in British Columbia and was originally given to the governor by J. E. Walsh of Omaha. This is the second one of its kind to be sent to the University, but the former one was so mutilated as to be worthless. This one, however, is intact and Professor Barbour considers it a valuable addition to the museum's collection.

A MOCK INAUGURATION.

Y. W. C. A. Preparing for Jolly Social Gathering.

The Y. W. C. A. is now preparing for one of its largest and jolliest social gatherings of the year—the mock inauguration of officers. At this time the committees will also give a shower for the rooms. The date is 8 o'clock, April 6.

Would Be Remarkable.

During an exciting game of baseball a player had two fingers of his right hand badly binged up, and on his way home from the grounds he dropped into a doctor's office to have them attended to.

"Doctor," he asked anxiously, "when this paw of mine heals will I be able to play the piano?"

"Certainly you will," the doctor assured him.

"Gee! you're a wonder, Doc. I never could before."—Ex.
