STOUT IS MADE DEAN; FRAT CHANGES ADOPTED

BOARD OF REGENTS HAS BUSIEST
SESSION OF YEAR.

MANY FACULTY TITLES ARE CHANGED

Number of New Appointments Made
and Erection of Three Tennis
Courts Authorized.

At its busiest session of the year the Board of Regents adopted the plan proposed by the fraternity alumni for changes in the personnel of the inter-fraternity council, failed to take any action on bids for the erection of the medical college, named Professor Stout head of the College of Engineering, authorized the erection of three tennis courts on the new athletic field, and revised the standing of a number of members of the faculty.

In connection with the adoption of the changes in the inter-fraternity council, a committee consisting of the Chancellor and the president of the Board of Regents was appointed with power to act in making such minor changes and modifications as might seem desirable after consulting with active and alumni members of the fraternities, and such other persons as might be interested.

Stout Now Dean.

Among the main changes in title and new appointments made, the most important was the naming of Prof. O. V. P. Stout as dean of the college of engineering. According to the action of the board, the title is to become effective immediately.

Since the departure of former Dean C. R. Richards, last September, the engineering college has been without an official head, although Chancellor Avery has been performing the duties of acting dean.

New appointments made by the board other than that of Dean Stout were as follows: H. L. Nye, foreman of the Culbertson demonstration farm; Effie Myers, stenographer and laboratory assistant, department of animal pathology; Dr. G. Alexander Young, instructor in mental and nervous diseases; Dr. H. B. Hamilton, clinical assistant in medicine; Dr. Clarence Rubendall, clinical assistant in diseases of the nose and throat; Dr. J. B. Potts, clinical assistant in diseases of eye and ear; D. T. Lane, clerical assistant, farmers' institute.

The resignations of Harriet Folger, associate professor of home economics, and O. W. Sjogren were accepted.

The board authorized the appointment of a committee to negotiate for the purchase of the Ferguson tract at Culbertson for the establishment of the Culbertson sub-station.

Tablet to Andrews.

The board also authorized a popular subscription for the erection of a tablet in the Temple building in honor of Chancellor Emeritus Andrews.

It was also decided that Coach Stiehm should be recognized as departmentally independent of the department of physical education and that, subject to the order of the chancellor or the board, the University athletic board should be given the power to interpret any rules or regulations in the institution made ambiguous by the change.

The construction of three clay ten-

BALLOT FOR FOOTBALL CAPTAIN ENDS IN TIE

HARMON AND ERNIE FRANK RE-
CEIVE FOUR VOTES EACH.

SAM CARRIER UNANIMOUSLY ELECTED

Little Guard Has No Opposition for
Leadership of Cornhusker
Basketball Team.

Elections at the State University, held Tuesday morning for the purpose of choosing football and basketball captains for the coming year, resulted in a tie vote in the former case and the choice of Sam Carrier in the latter.

Dewey Harmon and Ernest Frank were the opposing candidates in the field for the football captaincy. The vote stood four to four, only eight of the sixteen men eligible to vote being present. This was the second football election this year, the one last fall when "Jerry" Warner was chosen to lead the Cornhuskers for the season of 1913, having been rendered void by the latter's leaving school.

May Resort to Proxy.

Six of last fall's letter men are now out of school—Gibson, Shonka, Elliott, Chauner, Warner and Potter. The rules require a majority of the men eligible to vote to elect. Sixteen men received letters last fall and became eligible. With six out of school and four standing pat for either candidate the required nine votes can not be obtained except by proxy.

Lofgren and Swanson were absent from the meeting on Tuesday, the latter being sick with the mumps. For whom the votes of these two men will go is, of course, not certain, although they are thought to favor Frank. Even with both of their votes, however, the latter would still require the support of some of the others.

Dr. Clapp has called a second meeting of the team men eligible to vote for April 17.

The election of Sam Carrier to head Nebraska's basketball team was unanimous.

Not the First Deadlock.

This is not the first deadlock which has occurred in the election of Nebraska's football captains. The last one occurred when "Buck" Beltzer was elected as a compromise candidate. This former fight was carried on with the T. N. E. affiliation as an issue and disrupted the team to such an extent that, with excellent material, Cole and Beltzer had the poorest team of years the next season.

To prevent any such friction from occurring again, the board enforced a rule that the football team should elect its captain at a meeting to be held immediately after the giving out of initials or else that it should pass over to the board. This rule can hardly apply to this case, as it did not take into consideration the withdrawal of a captain from school. It is probable, however, that if a deadlock appears to be certain after another vote, the athletic board will take over the election.

S. O. Cotner was called to Omaha by the sudden death of his grandfather, who died of heart failure last Saturday. The deceased was founder of Cotner University, and celebrated his fiftieth wedding anniversary last summer.

SENIOR INVITATIONS COME

ORDERS MUST BE TAKEN AT
ONCE—SAMPLES DECLARED
VERY HANDSOME.

The samples of the senior invitations have arrived and orders will be taken in the library from this noon until 5 p. m., Friday.

As usual, the invitations are of two varieties, paper and leather; the former are to sell at two for a quarter, the latter at a quarter each. The cover design is out of the ordinary and is declared by those who have seen the samples to be the handsomest that has appeared in years.

In order that the supply may be had as soon as possible it will be necessary to return the samples to the manufacturer Saturday; hence all orders must be received during one of the three coming days. They can be ordered only at the table in the hall of the library, where the samples will be on exhibition. To insure shipping expenses a deposit of 25 cents will be required.

TELESCOPE PROGRESSING

HUGE INSTRUMENT WOULD COST
\$11,500 IF MADE BY
CONTRACT.

Work on the 12-inch equatorial telescope being made by students in the Mechanical Engineering department is being rapidly pushed forward. Over half of the parts have been completed. It has been five years since the plans were first made, most of that time having been consumed in making the patterns. It will not require nearly that length of time to finish the remaining parts. The telescope, if made by contract, would cost \$11,500. It will require considerable room and will demand a new observatory.

Special machine tools had to be constructed and changes made in old machines to meet the demands of the work required on the telescope. One of the most important of these, though not made primarily for work on the telescope, is a graduating engine designed and constructed by W. S. Payne of the Department of Mechanical Engineering. This is a machine for graduating metal discs. It can be adjusted so as to divide a circle into parts as small as five minutes. It is the result of several years of effort at odd times on the part of Mr. Payne, and though operating successfully, it is not yet perfected to the extent desired by him. The inventor intends to apply it to the graduation of linear scales as well as to circular graduations. The machine is constructed on an entirely different plan than those employed by the manufacturers of surveying and similar instruments.

JUNIOR HOP MAY 10.

May 10 is the date which has been set for the second semester Junior Hop. Although the balmy spring will be present in all of its glory that night, a cool and pleasant dance is promised nevertheless. The dance will be held in the Lincoln Hotel, and the conventional charge of \$1.25 will be exacted.

C. J. Bachoritch is chairman of the committee and Will Randall master of ceremonies.

OVER 200 Y.W.C.A. GIRLS WILL ATTEND CONVENTION

NORTH TERRITORIAL CONFER-
ENCE TO MEET HERE.

PROGRAM IS NOW BEING PREPARED

Meetings Will Commence Friday
Evening With Rally at Which
Chancellor Will Speak.

The annual convention of the North-Central Territorial Y. W. C. A. Conference will be held here Friday, Saturday and Sunday of this week. Over two hundred delegates are to be here from sixty-five schools in six states. The district includes Minnesota, Iowa, North Dakota, South Dakota and Nebraska. Prominent workers from all parts of the country outside of the conference are expected to be here, some of them being scheduled for addresses at the meetings or the banquet. Local University girls will swell the attendance to about four hundred.

The delegates will be entertained at the homes of local members. Almost all the sororities have asked for from several to as many as a dozen. Sorority sisters from other schools are especially in demand.

White to Speak.

Meetings will commence Friday evening with a big rally at the Temple. Chancellor Avery will deliver the opening address of welcome. The main speech of the evening will be by Frank Newhall White on the subject of "A Great Man's Definition of Life."

Saturday morning and afternoon will be taken up by technical councils of workers from various schools. Different plans of work will be discussed and helpful ideas exchanged from one school to another. Local workers are expecting these to be some of the most interesting meetings of the convention.

Saturday night the big event, the banquet, will be enjoyed at the First Christian church, Fourteenth and M streets. Toasts and addresses will be given by many representatives. As the number of delegates may be larger than counted on, a limit may be necessary and the local secretary advises the University members to buy their tickets early. These are for sale at the Temple.

Vesper Service Sunday.

Sunday morning the convention will attend the First Presbyterian church to hear an address by Dr. W. W. Lawrence of Lincoln. Sunday afternoon a vesper service will be held at the Temple, when Miss Oolooah Burner, of New York, national student secretary of the Y. W. C. A., will speak.

Prominent Y. W. C. A. workers who will be here are Mrs. E. L. Gault, wife of the president of the University of South Dakota; Mrs. L. L. Crandall, of Minneapolis, chairman of the committee in charge of the territorial convention, and Mrs. Emma F. Byers, executive secretary of the conference. In addition to these, a number of members of the faculty of the schools represented will be present.

Republicans to Meet.

A meeting of the University Republican Club will be held at the Capital Hotel at 7:30 o'clock this evening. Officers will be elected.
