

Postal Savings Banks in Nebraska.

Washington.—On January 31 there were 196 postal savings depositories in operation in Nebraska, with deposits amounting to over \$125,000. This amount was deposited by about 2,500 depositors or an average of \$50 per depositor. There have been approximately 3,000 accounts opened and more than 6,000 deposits made or an average of two deposits to each depositor, and about 1,400 withdrawals, or an average of one to each two depositors.

To Translate Reports.

Washington.—Frank G. Odell of Lincoln, for the rural life commission, is urging in a letter received by members of the Nebraska delegation that congress appropriate \$5,000 for the purpose of translating the present reports of the international society of agriculture in Rome so that they may receive wider distributions.

Senator Hitchcock has received petitions from the brotherhood of railway trainmen at Omaha, South Omaha and Lincoln, asking support for the employers' liability bill.

According to a Wenatchee, Wash., paper, Miss Louise M. Allen, a graduate of the classes of '06-'07 of the University of Nebraska, recently made a visit to that city as a representative of the state dairy and food commission. Her visit to the city was due to the fact that unlabeled seeds and poor grain and feed were on sale. She condemned a carload of alfalfa seed on her visit to Wenatchee for the reason that it contained an undue amount of dodder seed.

Effort to Reach North Pole.

San Francisco.—Roald Amundsen, who recently discovered the south pole, will make an effort to reach the north pole next year. The explorer has written Henry Lund, the Norwegian consul here, that the Fram, the vessel in which he went to the south pole, will arrive in San Francisco harbor in April, 1913. Amundsen will arrive three months later to outfit the vessel for a dash to the north pole.

No Crime to Steal Liquor.

Guthrie, Okla.—It is not burglary to break into a building and steal intoxicating liquors that are being held for sale, in violation of the state prohibition law. This fact was fixed here when the district court acquitted George Windsor, a negro, charged with taking thirty nine bottles of beer, whisky and champagne.

An interesting addition to the university museum exhibits is a cast of the famous Cullinan diamond, the largest in the world. Together with the glass model of the diamond in the rough are nine cut diamonds representing those made from the large one. The rough model is about the size of a goose egg.
