ELABORATE PROGRAM PLANNED FOR CAMP

CAP. YATES AND STAFF TO FURNISH ENTERTAINMENT.

GRAND MILITARY HOP FRIDAY NIGHT

Camp Avery Starts Tuesday and Will Close Saturday—Visitors' Day To Be Held on Friday.

Camp Avery opens Tuesday and the military department is buried with the double amount of work entailed by a pre-vacation camp and a government inspection but two days before. The definite announcement was made last night that the inspection would be held Saturday morning and one matter of anxiety was lifted from the brain of the poor, over-worked cadet. The encampment this year is to be one grand, long, sweet time for officers and men alike. Eight special Burlington Pullman dining-car cooks will furnish the "grub" and between eats the regiment will be entertained by field meets, band and glee club concerts with a big military hop, free to all the cadets as a final spree Friday evening.

In years past the Nebraska cadets have merely had an ordinary military establishment, but this year Captain Yates, Colonel Smith, Captain Moon of the quartermaster's department, and Captain Kotlar of the commissary decided that they would make an epoch in the military department and have just completed plans that will leave no room for dissatisfaction on the part of the cadet.

Camp Will be Cool.

The camp is located in a large cool park just seven blocks out of Crete. Along the banks of the Blue river, a little ways above camp, are docks and boats and possibly some canoes. There is also a place for bathing here, and the soldier boys will have the advantage of those shut up in Lincoln next week in this respect. In the evenings big campfires will be lighted and everything possible done to give everybody as good a time as possible.

The tents of the entire regiment will be put up in a long street as is done in the regular army encampments, but which has been heretofore impossible on account of lack of room. About seventy tents of the wall variety will be pitched in addition to the "cook shack" which Captain Moon put up Thursday while in Crete. Commissioned officers and privates will sleep alike in tents, the only difference being that the officers must sleep on cold cots, while then men are given straw.

Visitors' Day Friday.

Visitors' day will be Friday and the department has a long program prepared for the entertainment of guests. Special parades will be given and other unusual features. The last of the three field meets to be held will occur Friday in the late afternoon, and Friday evening from eight to eleven, the cadets will dance to the strains of music furnished by members of the regimental band. This dance will be open to all cadets and will cost nobody anything except gratitude to the officers who have planned the event. A train leaves on the Burlington at

CHORUS DELIGHTS HEARERS

LEONI'S CANTATA GIVEN BEAUTIFUL RENDITION AT CONVOCATION.

"The Gate of Life," the dramatic cantata given at convocation yesterday by the University Chorus under the direction of Mrs. Carrie B. Raymond, was attended by one of the largest audiences of the year. The large size of the audience and their enthusiastic appreciation of this great classic are alone proof enough of the fact that University students appreciate something else besides "rag time."

The production took nearly an hour, but during the whole time the audience was held in delighted attention. The scene of the action was in Rome in the time of Caesar. The story portrays a little band of Christian martyrs who met death in the arena because of their faith.

With magnificent effect the seventy five choristers, aided by a special orchestra and soloists and the pipe organ, brought out the grandeur of the story. A little band of Christian marble pomp and shining gold, the tread of Caesar's returning legions and the blare of loud and stirring trumpets, the fearless hymn of those about to die and their final triumph. The work of the special soloists Probus, Mr. Reuben Walt; Portia, Miss Winifred Hyde and Chief Priest of Jupiter, Mr. Charles H. Miller, and the orchestra accompaniment was very beautiful and effective.

Dr. Williams Injured.

Dr. Harry L. Williams, athletic director of the University of Minnesota, was injured yesterday when his automobile was struck by a train. Dr. Williams was pinned beneath the car and was hurt about the hips. It is thought that his injuries will not prove serious.

PRAISE CONANT'S EFFORTS

LAW STUDENTS ARE ELATED OVER SUCCESS OF THE BARBECUE.

Ever since the first law barbecue, a year ago, it has been a matter of the wildest speculation in the minds of academics what that ferocious bunch would do when turned loose.

It is curious but true that the mind must have proper environment in which to grow or it cannot be expected to bring about the desired results, and another thing in connection may be mentioned that "opposition fans the flame." Now there seems to be no place where the legal throat will respond to the legal spirit quite as truly as in the good old "U" building. For this reason some of the older and more conservative Laws are undecided whether it is for them to be thankful for a brand new building next year.

Do not infer from this that there wasn't any noise at the barbecue, but that there was too much room in which to yell, the pleasure of hearing the echo and re-echo of the blood-curdling being lacking.

The Laws take off their hats to the

IVY DAY FOR SENIORS

ANNUAL CELEBRATION DEVOTED TO INTERESTS OF UPPER CLASSMEN.

Ivy Day, the one day in the year devoted to festivities exclusively in honor of the senior class, will be May 22. This day has every year proven a feature of intense interest, not only to the senior class, but to the three others as well. The program, the form of which is traditional, contains activities in which a very large number of organizations are represented and in which every student in school may find more or less enjoyment.

The program is in three divisions. In the morning the seniors perform the annual ceremonies of planting the ivy and singing the class song. They follow the delivery of the class oration and the reading of the class poem. The morning program, closing with the May-pole dance, is held entirely on the campus.

Classes to Compete.

In the afternoon the interclass track meet is held at the State Farm. All classes enter in the various events and the fact that individual medals are given to the contestants insures a large number of entries and a spirited contest. The baseball game between the Spikes and Sphinx concludes the athletic events. At 5 o'clock the Innocents for the succeeding year are announced.

Supper is served at the Farm and is free to all holding tickets. Such an arrangement does away with the necessity of leaving the Farm for supper and it becomes an easy matter to be on hand for the band concert which is given from 7 to 8 o'clock. Later in the evening the Dramatic Club is arranging to give a short play in the open air.

The admission of twenty-five cents admits to both day and evening programs and includes supper at the Farm.

WORKING ON HOME CONCERT

GLEE CLUB EXPENDING ITS EFFORTS ON ANNUAL PROGRAM.

The University Glee club will give a home concert, Friday evening, May 24th, at the Oliver. This concert is expected to be something more than the ordinary, as practice is being conducted four nights per week now, under the direction of A. Samuelson.

The members are working hard and there will be now question as to the quality of the concert. Mr. Samuelson is very well pleased with the way everyone concerned is taking hold and says that he is more than satisfied by the way they are developing. There has been a quartet worked up that is said to be as good as anything that the University has produced in several years. Great things are to be expected from this quartet.

The program Friday evening is to be varied. The first part is to be entirely classical, while the last part will be composed of "stunts." Also, the Mandolin club will take up half an hour on the program. All the effort of the Glee club for the year have been expended on this home con-

ANNUAL TRACK CONTEST WITH GOPHERS TOMORROW

WILLIAMS INVADES NEBRASKA WITH FAST MATERIAL.

STIEHM'S MEN IN GOOD CONDITION

Racely Out on Account of Injuries, But McGowan, Christmas and Beaver in Good Shape.

Saturday afternoon Nebraska meets her old enemy Minnesota, on Nebraska Field in what promises to be the closest fought track contest of the year. Undaunted by the Kansas defeat, the Cornhusker team will enter the field Saturday with the confident determination that the Gophers must be beaten.

Minnesota is unusually strong in her track team this year and the fifteen men representing her will be those who have been winning almost all the meets in which they have been entered so far this year. Coach Williams is preparing to meet Coach Stiehm and Reed with a line-up of athletes who will put up a fight worth remembering.

Racely will be unable to enter the sprints for Nebraska because of the sprained ankle which he received last week at Kansas, but Christmas and Beaver are expected to make a good showing. Minnesota's work in the sprints is an unknown factor at present as no "dope" on this event has reached Nebraska as yet.

Interest in Relays.

The exciting events of the day will be the half mile and the mile relays. Minnesota is rumored to have several fast long distance men, but this is one contest in which Nebraska has an excellent show, as McGowan, the holder of the Missouri valley record in the half mile, is in fine shape and is "doped" to make some fast time. Anderson, on the mile, made a great showing at Kansas in taking first place and is expected to do great things tomorrow. Nebraska is also strong on the relay, her present team having run away from every one yet run up against. In the half, the mile, and the two-mile relay the Cornhusker team is scheduled to pile up the points.

Ross, Nebraska's weight man, is to compete with one of the best shot-putters in the valley, Frank, captain of the Minnesota team. If he wins, this will be greatly to his credit as a weight man.

In the high and broad jump not much is known about Minnesota's work except that it is fast and consistent. Reavis did good work for Nebraska last Saturday in the Kansas meet and will probably repeat it tomorrow. Cromwell is matched against some of the best jumpers in the valley in the broad jump, but his everyday work predicts that he will at least place well. Hastings has been showing up well in the pole vault so far this season, winning a place in every meet he has entered and is expected to take that event tomorrow.

At the Kansas meet last Friday a large crowd of spectators was present which was quite a contrast to the few who sat on the bleachers at the Ames
