DEBATING STARTS

NEBRASKA TO MEET WISCONSIN AND IOWA IN DECEMBER.

RANKS OF SQUAD TO BE FILLED

Tryouts for Debate Squad Will Be Held Early in October—Bibliographies May Be Had Now.

Coincident with the starting up of football and other college activities, the followers of debate in the University are girding up their loins and preparing for the annual argument. As usual, Nebraska will meet two teams this year, one debate being held here and one at the other school. To make up the two teams that will be required a large squad will be necessary, and at the tryouts, which will take place soon, a number of men are expected to compete.

Wisconsin and Iowa, both old friends and friendly rivals of Nebraska in this form of activity, are the two schools which the Nebraska will meet this year. Wisconsin will be met at Madison, while the students here at school will be given an opportunity to hear the Iowa debate. As for the date of the meeting, it will be held on either the 6th or the 13th of December, just which date has not been decided as yet.

The subject of the argument this year will be, "Resolved, That all corporations engaged in interstate commerce should be required to take out federal charters, it being understood that such a requirement would be constitutional, and that federal license shall not be available as an alternative."

Six men were chosen last June for the squad, and it was left until this fall for the remaining members to be chosen. The men chosen last spring were Harry J. Burtiss of Lincoln, Z. Clark Dickenson of Lincoln, Guy C. Kiddoo of South Omaha, Harold A. Prince of Grand Island, Otto Sinke of Duncan, S. P., and C. A. Sorenson of Loup City. The tryouts for the squad will be held early in October, and are open to the school, it is hoped that a large number will turn out to try for places. The success of the University in debate has always been such as to warrant the best possible support on the part of the students.

The tryouts will be conducted along the same rules as are generally used in governing such events. For those interested the rules have been posted on the main bulletin board in University Hall. Among other things, candidates will be limited to a speech of seven minutes, on whichever side of the question they choose to stand. Lots will indicate the order of speaking. Bibliographies covering both sides of the question will be forthcoming on application of any who intend to take part in the tryouts. These have been prepared and are ready for distribution at the office of the secretary of the University debating board, room 206 University Hall.

BIBLE STUDY CAMPAIGN HERE.

Y. M. C. A. Men Enroll Students in Sunday Classes Today and Tomorrow.

Today is the first day of a personal Bible study campaign carried on by the men of the Y. M. C. A. An effort will be made to see every man on the campus and make it clear to him that a weekly Bible study class will be to his advantage.

This campaign comes as the result of a week's work in lining up committeemen on the part of Bob Lechew, chairman of the committee for the Y. M. C. A., Merle Arnold, president, Ray Reitzel, the secretary, and Stant Turner, who is assisting in the opening weeks of the association. It will last for two days and by the end of that time it is hoped that several hundred men will have signed up for one of the Sunday classes.

Last night sixty men met in the Assembly Hall of the Temple and mapped out the campaign. Rev. Howard spoke, explaining the importance of Bible study. Reitzel and Arnold followed, telling of the work ahead of the association. Turner spoke last, finishing in a silence which paid tribute to the force of his remarks.

Enrollment cards and outlines showing the courses offered by the different churches were then given to the men and the campaign was launched.

The classes offered are taught, many of them, by University professors, and they are held in the different churches instead of in the Y. M. C. A. rooms, as has been done in the past. The Y. M. C. A. has the cooperation of the religious organizations of the city in the work of interesting the University men.

Jones' Orchestra Phone 1-8605.

Call Roy O. Warde, dance orchestra, Auto 7186, L-8152.

Temple Gets in the Game.

Mr. and Mrs. L. B. Temple of Lexington were visiting among University friends Saturday and Sunday. Temple, commonly known to University students as "Jack," was captain of the Varsity in 1911. At the instance of Assistant Coach Rathbone he donned his old suit Saturday afternoon and did a little roughing with the freshmen squad.

Meet me at Green's, 120 North 11th

GIRLS PLAY TENNIS.

Co-Ed Raquet Wheelers to Organize for Year's Activities.

All girls of the Tennis Association and all other girls interested in tennis are requested to be present at the ten- after meeting to be held immediately following convocation on Thursday, September 26, in Nebraska Hall, room 110. At the meeting officers for the year will be elected and arrangements will be made for playing. The court is at most ready and playing will soon begin.

SUMMER SCHOOL SUCCESSFUL.

Over Four Hundred Students Take Advantage of Summer Opportunity—39 Degrees Given.

The summer session which closed during August was one of the most successful the University ever experienced, according to the opinion of Prof. A. A. Reed of the extension department. There was an enrollment of 450 students, the majority of whom came from out in the state.

The attendance consisted principally of school superintendents, principals and teachers of inferior training, but there were many seeking degrees other than the A. M. degree.

Contrary to the policy adopted by other universities, the summer school employed members of the regular faculty and required the same entrance credits as are demanded at matriculation into the University proper.

Thirty nine degrees were granted.

ADVANTAGES IN CHORUS WORK.

Mrs. Raymond Begins Work with University Musical Organization.

Mrs. Carrie B. Raymond, director of music in the University, is beginning work on the chorus. She has issued an invitation to all University students having some inclination for that work to join the chorus. Registration will continue throughout this week with out extra charge to the matriculant.

Exceptional opportunity is offered to gain considerable musical education by virtue of membership in the University chorus, besides gaining one hour credit.

Last year it worked up and presented several notable selections. Among the number were "The Creation," "The Pilgrims," "The Messiah," "The Gate of Life," and "Romeo and Juliet."

The chorus meets Monday, Wednesday and Friday at 5 o'clock in the Temple.

Engineers' Castoffs.

Leftover clothes in the Mechanical Engineering building lockers will be sold at auction if present plans of the janitor, Mr. Loree, are carried out. Every year a large number of garments are left in the lockers by students who are in a hurry to leave for home. Formerly Mr. Loree has made a bonfire of the leftovers, but now he is considering the proposition of putting them to some use.

Reports Increase.

Professor Hoffman of the M. E. department reports an increase in the size of the present freshman class over that of last year, while the old men are back with their ranks only slightly thinned.

In some cases the classes are uncomfortably large, but the teaching force is now complete and prepared to cope with the situation.

The laboratories have been improved during the summer, new apparatus has been installed, and the old machinery, especially in the experimental laboratory, put in better shape.

PRODIGALS RETURN

PURDY AND GIBSON, MAKING SEVEN VETERANS, JOIN THE TEAM.

PRACTICE STARTS AT FARM

Stiff Workout Started for Tonight—Rathbone Sends Hurry Call for Freshmen and Husky Linemen.

The State Farm was a busy place yesterday with the advent of football practice on the Farm campus. It was made more busy and exciting by the return of Purdy and Gibson two of last year's men, whose presence on the team means much for Nebraska's hopes. In all, sixty-five men worked out in the first long practice of the season, and the class shown in their exhibition was pleasing to the critics and fans. With the return of Potter, all the old men except Hornburger will have reported, and the smile of the fans will be almost wrinkleless.

With seven Varsity players in the running, therefore, football at Nebraska looks to be very promising. With the help of Owen Frank, last year's whirlwind halfback and Rathbone, the plunging fullback of 1910, Coach Stiehm expects to develop the best team that this University has had for years.

The coach had two likely looking eleven lined up for signal work last night. With the first team Frank and Purdy filled the half positions, Halligan full, Hawkins quarter, Mastin and Mulligan ends, Myers and Harmon tackles, Pearson and Swanson guards, and Allen center. On the second team were Reese and Beck, halves; Purdy full, Towle quarter, Howard and Fouts ends, Fouts and McCormick tackles, Fouts and Ross guards, and Irwin center. Both teams showed pep all along the line. The lines both looked like a couple of mountain ranges, but it was easy to see that the greater part of them needed experience. Coach Stiehm has the beef, but he has a hard problem to work it into shape so that it will be available.

The early practice was taken up with drilling in the rudiments of the game. Today the schedule will perhaps be a little line bucking for the huskies as well as the beginning of the working out of some new plays.

The only one of the worry bugs left for the coach is the lamentably small number of freshmen showing up for practice. Saturday brought forth an insufficient number to make a full team, and Freshmen Coach Rathbone is sending out the hurry call for more of the first-year huskies and speed men. As the coach says, "A man's 'N' is won in his freshman year, not when he is playing a star game his last year."

Another problem for Rathbone to solve is that of heavy men for line positions. An excellent opportunity is given this fall for men to make good in such positions, and Manager Reed reports that he has enough equipment left for a few more men.
