UNIVERSITY OF NEBRASKA, LINCOLN, THURSDAY, OCT. 10, 1912.

Price 5 Cents

## SECRET PRACTICE

STIEHM WORKS WARRIORS HARD FOR SATURDAY'S GAME.

## AGGIES EXPECT TO WIN EASILY

Manhattan Team Is Heavy—Captain and Center Weighs 190 Pounds and Average is 176—Many Experienced Players.

Coach Stiehm has been putting the regulars through a very gruelling practice the last couple days in the hopes of getting the line into good condition for the Aggies next Saturday. Practice last evening was held on the athletic field and was secret the greater portion of the time. It is likely that a game will be staged with the freshmen this afternoon, or at least a very lively scrimmage will probably take place.

### Confident of Victory.

Reports from the Kansas Aggie camp are that the game with the Cornhuskers will be won by the southerners. The dope in that region of the universe seems to give the state championship, including the game with K. U., to the Manhattan team. Last Saturday the Aggie aggregation took the Haskell Indians into camp by a score of 21 to 14, the Indians making their two touchdowns on two very brilliant forward passes.

### Many Veterans Back.

The Manhattan team consists of about nine veterans and a bunch of last year's subs, all being in good physical condition. The team, taken as a whole, averages 176 pounds. Captain Felps of the agriculturists weighs 190 pounds and is fast. He holds down the position of center and is a demon in smashing through the line. Holmes, their big halfback, made great gains through the Indian line and running low was difficult for the redskins to tackle.

### Reserved Seats On Sale.

Reserved seats have been placed on sale at Harry Porter's, and a great many have taken the advantage of seeing the first good game of the season by buying them. The student season tickets, too, are going quite rapidly.

## CHORUS ELECTS OFFICERS

First Program Will Be Given Early in November—Subject Still Under Discussion—130 Members

The University chorus elected yesterday the following officers for this semester: President, Harry Burtis; vice president, Julia Schulte; secretary, Nellie Kirkwood; treasurer, Mr. Larson; chief librarian, Mr. Breska. The chorus has about 130 members, and their first program will be given about November 1.

A "Pajamarino Rally" was held at the University of California last week. Two thousand young men and women took part.

## FOOT BALL RALLY THIS MORNING AT 11

BATTLE WITH AGGIES NEXT SATURDAY LIKELY TO BE SO CLOSE THAT UNITED ROOTING WILL BE NECESSARY TO GIVE CORNHUSKER TEAM VICTORY—CHANCELLOR AVERY, DR. CONDRA AND STUDENT LEADERS WILL ATTEMPT TO PUT PEP INTO NEBRASKA SUPPORTERS AT A SPECIAL CONVOCATION IN MEMORIAL HALL—NEW CHEER LEADERS COFFEE AND MEAD WILL ASSIST IN ROOTING.

## FIRST CHANCE GIVEN FRESHMEN TO SHOW LOYALTY TO CAUSE

A big University rally is to be held this morning in Memorial Hall at 11 o'clock. A large gathering of the student body is desired to promote interest in University activities and mainly to get up enthusiasm and pep for the Kansas Aggie game Saturday.

Chancellor Avery and Dr. Condra will be present to give the meeting the required impetus and to offer timely suggestions, and other faculty members and student leaders are also expected to take part.

"Biddy" Meade and Harry Coffee, the new yell leaders elected by the Innocents Tuesday, will lead the yells and songs appropriate for the occasion. Several new songs and yells have been

written, and everybody is expected to try them out to put life into the meeting.

Among other things the plans for the organization of the rooting squad will be disclosed by Coffee and Meade. One plan has been suggested to the effect that weekly rallies be held during the season on the athletic field. The presence of the band at these rallies and at the rally this morning will be an inspiring factor to bring out the proper enthusiasm.

This being the first big rally of the year, it is everybody's duty to turn out and get the proper university spirit which has heretofore made Nebraska famous.

## DRAW IN CHAMPION SERIES

Boston Uses Up Three Pitchers While Matthewson Stays Entire Eleven Innings—Five Errors for N. Y.

The second game of the world's series went eleven innings to a draw at Boston yesterday. The Giants made eleven hits and five errors, while the Red Sox had the same number of hits, but only one error. This great contest was called at the end of the eleventh inning on account of darkness.

The Red Sox used three pitchers, while Christy Matthewson went the full eleven innings. Boston got three runs off of him in the first inning, but he stayed with it and kept the hits well scattered the rest of the game. Collins started for Boston and stayed until the eighth, when he was driven from the box and Hall took his place. Hall performed nicely until the eleventh, when Bedient took his place.

The game will be played at Boston this afternoon, and Marquardt or Crandall will in all probability work for the Giants, while the Red Sox will trust Bedient or O'Brien.

## WANT THIRD-YEAR APPLICANTS.

Battalion and Company Quartermaster's Positions to Be Filled.

Third and fourth-year men are requested to make applications for the position of company quartermaster sergeant. All men appointed to these positions will receive careful consideration in the making of future appointments. Applications for the positions of battalion quartermaster and junior color sergeant will also be received. All applications are to be filed with Lieutenant Bowman, commandant, by 5 o'clock, October 14.

## BESSEY BACK FROM CONGRESS

Discussion of Vital Resources Holds Attention of National Conservation Congress for Last Week.

Dr. Bessey, who returned recently from the fourth National Conservation Congress at Indianapolis, is highly elated with the results of this session. The personnel included national and state officers from all parts of the United States and a host of the nation's most eminent scientists. Almost the entire program was devoted to an open discussion of vital resources and the method of their conservation.

As chairman of the committee on education, Dr. Bessey made a complete report on the pedagogical phase of the conservation problem. This was accepted without so much as the slightest correction or suggestion by any of the other four members, and contains the following endorsements: David Starr Jordan, Leland Stanford; E. A. Aldermann, University of Virginia; E. B. Craighead, University of Montana; E. F. Fairchild, state superintendent of Kansas.

Dr. Bessey views his subject from three different standpoints: work in the community, work in the schools and work through legislation. The keynote of his whole report is given in his opening paragraph: "We must provide for a propaganda of suggestion and information, to be followed ultimately, when the public mind has been adequately awakened, with plans for a campaign of aggressive activity."

Harvard University opened last week with an enrollment of approximately 4,500 students. This is the school's 276th year.

## 1916 MEET TUESDAY

OLYMPIC COMMITTEE TO BE SELECTED BY NEW PRESIDENT.

## MINOR OFFICERS TO BE ELECTED

Victory in Traditional Contest Is Predicted for Freshmen if Customary Spirit Is Shown—Soph. Defeated Last Two Years.

Next Tuesday will be held the first freshman class meeting for the purpose of selecting a committee for the Olympics and electing minor officers. The necessity of a good committee can not be overestimated, as it was due to the efficiency of the committees that the freshmen won in these contests the last two years. The number of students in the freshman class is larger than in the sophomore class, consequently they have a good chance of success again this year if all are loyal to their class.

### Various Athletic Events.

The events of the Olympics consist of three boxing matches, light, medium and heavyweight; three wrestling matches, tug of war, Marathon race and the free-for-all struggle.

The Olympics contest made its first appearance in Nebraska in 1908. It was noticed that small groups of students would get into class struggles on the campus, which would usually end in anything but honorable defeat for one side or the other. Prof. Condra and other professors decided that the struggle between the two classes should be organized. Due to the various athletic contests involved, Dr. Bessey proposed the name "Olympics" for the contest, which was adopted. The lower classmen have nothing to do in the management of the Olympics, but are supposed to follow the instructions of their upper classmen.

### Free-for-All the Big Event.

The greatest event is the "free-for-all," which consists of a struggle into which any one of the two classes can enter. Two years ago the struggle was over twelve bells placed between the two classes, and last year was a flag rush. It is not yet decided what it will be over this year, but the victory of the freshmen in this has won the Olympic the last two years.

There are two objects for which these class struggles are held: first, to give the students a chance for a real fight and get all they want; second, to discover men who are good athletes and leaders who otherwise are not known.

As a rule the sophomores win, having had a year's experience and being in better condition, but the last two years the freshmen have won. The victory this year depends on the number of freshmen that turn out at the class meeting next Tuesday and get up enthusiasm for University champions, or better yet, try out for places on the representative team.

A women's dormitory costing \$150,000 is nearing completion at the University of Wisconsin.
