OLYMPIC HELD SOON

WILL BE HELD NEXT SATURDAY MORNING.

NEW EVENTS ARE PROMISED

"Big Scrap" Is an Innovation This Year—New and Startling Method of Exhausting Surplus Enthusiasm.

Next Saturday morning, November 16, beginning at 9 o'clock, the annual Olympic meet will be held on the athletic field. The freshmen and sophomores are working hard for the different events and there is every indication that this will be one of the most successful of the Olympics heretofore held at Nebraska. Some new features have been added this year which will perhaps increase the interest in the meet.

The cross-country has been eliminated this year, but it is not believed that this will be missed from among the other events. A football game at 9 o'clock marks the beginning of the meet, and will be the initial extractor of pep and enthusiasm from the opposing factions. Between halves of the game will be wrestling and boxing matches between the amateur Gotches and Johnsons of the two classes. No purse has yet been offered, however, and side bets on the contenders will not be permitted.

Then follows a sixteen-man relay race, and a tug-of-war which promise to be extremely interesting to both sides, as the men are quite well matched. After this is the crowning event of the morning—the "big scrap" between all the members of the freshman and sophomore classes. This is similar to the flag-rush of last year and will be carried on under similar rules. The opposing sides line up behind lines at different sides of the athletic field. Behind them corresponding to the goal line in football is another line. Each man who is pushed over his own goal line by an opponent is taken out of the battle, and the war is waged between the survivors who remain upon the field.

The events and the points allowed for the winning of each are as follows:

	Points
Football game	30
3 wrestling matches, 5 each	15
3 boxing matches, 5 each	15
16-man relay race	20
Tug-of-war	20
Big scrap	50
Total	150

LINCOLN DEFEATS YORK 21 - 0

Visitors Play Locals to a Standstill the First Half, But Unable to Stand Pace.

Lincoln High triumphed over York High yesterday by the score of 21 to 0. York played the Lincoln aggregation to a standstill the first quarter and most of the second. However, they seemed to have played beyond their form, and during the last gradually fell back before the attack of the Lincoln backs.

Doyle and Allan starred for Lincoln, while the York backfield was the redeeming feature of York's eleven. Fumbling of punts lost many yards for York, while their poor tackling greatly aided the Lincoln bunch in making their line gains. —Sam.

FOREST CLUB COMMENDED

Contributors to the Forest Club Annual Unintentionally Complimented by Other Paper.

In the last issue of the Forestry Quarterly, published at Ithaca, N. Y., the contributors to last year's Forest Club Annual receive praise in a round-about way. To quote from the quarterly, "This publication, emanating from the students' organization of the forestry department of the University of Nebraska, contains a number of very interesting articles worthy of a wider circle of readers than are likely to be reached. The papers are furnished, we take it, mostly by outsiders."

Their last statement is erroneous, all the papers being furnished by students of the forestry department. The article gives a short but very accurate review of the Annual, and outside the one error is very complimentary to the volume. —W. F.

DEMERITS GO INTO EFFECT.

Men Assigned for Delinquent Squad Held First Drill Last Night.

Company X fell in for the first time last night, and under the direction of Sergeant Johnson went through movements calculated to impress the men with the dignity of military discipline. This is a company organized for the purpose of giving an hour's extra drill each week for those who have received demerits for not complying with the rules of the department.

That the discipline in the regiment is as a whole good known by the fact that only eight men were required to take the extra hour's work the first week. These men had failed to provide themselves with uniforms, and for this were assigned to the squad. —T. K. F.

YELLS NEEDED FOR K. U. GAME

Innocents, in Charge of Rooting, Offer Prizes for the Two Best Yells and Songs Turned in Before Wed.

As an impetus toward securing new yells and songs, the rooting committee of the Innocents will offer prizes for those found worthy for the big Kansas game next Saturday. Here is a good chance for anyone with a little originality to secure tickets to the biggest game of the season. The yell leaders want two new yells and two new songs, and in order to get them will offer two tickets for each yell and song selected. Nebraska has several good songs, but parodies referring to the school set to some popular song of the day is what is desired—such as the pieces for "Alexander" and "Steamboat Bill" of last year. So far this year Nebraska has not had occasion for the good old-time rooting, and therefore will be able to respond in a more lusty manner Saturday.

All yells and songs must be submitted to yell leaders Coffee, Meade or Sinke, by Wednesday evening at the very latest. The best ones will be tried out at the Kansas rally, which is to be held on Friday morning. The Glee Club will be on hand to give the new songs a tryout. —L. W. H.

DOES TIME FLY AT NIGHT

If so, This Contributor Thinks that the New Clock Should Be Illuminated After Dark.

Well, the clock, the gift of the class of 1912, is in place above Library Hall and the student has no longer an excuse for tardiness. The school appreciates this gift of a much-needed clock, but there is only one thing we wish to find fault with, and that is it does not show the flight of time by night. Could not our electrical department be persuaded to put a light above its dial? Some may say that this is not needed, but we think it is, for there are students on the campus until at least 10 o'clock, and a glance at its dial would urge them to whatever work they may have to do. It may inconvenience the fusser while strolling about in the moonlight, for then he would not have the excuse that his watch was broken. But seriously, it would be a great help to the school, and we would like to see it done by those who have the power to act. —L. W. H.

Visitors at Kappa House.

Miss Adeline Thomas of Tekamah and Miss Florence Hartford of Ashland are visiting friends at the Kappa Kappa Gamma house.

DOANE HERE TODAY

EXPECT TO HOLD CORNHUSKERS TO LOW SCORE.

TIGERS SEND HUSKY SQUAD

Purdy and Harmon Out of Cornhusker Lineup—Doane Team in Good Condition for Today's Game.

Today Doane comes with a bunch thirsting for revenge. With a line averaging 180 pounds and a fast backfield, it may be such a thing that they will get away with a few bushels of the Huskers' crop.

With Bronson, a giant tackle of some 220 pounds of beef, they feel confident of making many yards with the human battering ram, as he has proven himself to be, and cross the much-desired goal line of Stiehm's proteges. Bronson's runningmate, Left Tackle King, has also proven a tower of strength in the line.

Eaman at end has proven an apt executor of the forward pass as well as being a good defensive player. Last Saturday a week ago Doane defeated the Hastings College bunch to the tune of 95 to 0. The week previous they also defeated the fast Cotner aggregation by a comfortable score.

Their hospital list is small. Kretzlinger, their star half, is somewhat bruised, but probably will be in O. K. condition for today's tussle.

Coach Frank of the varsity predicts a warm contest and expects to use the regular lineup if the Tigers show they have something up their sleeve. However, he is confident that the Cornhuskers will acquit themselves in good style.

The squad indulged in a light, snappy signal practice previous to the York-Lincoln High School game yesterday. Towle ran the team with his usual "pep" and did some fine forward passing with Back, Hawkins and Mulligan at the receiving end.

Purdy and Harmon will probably not enter the contest, but will save their energy for the Kansas bunch a week from today.

With favorable weather conditions prevailing, the conflict promises to be a real article of the great college sport. —Sam.

Inspection for Plant Pests.

A large number of foreign plants are being inspected by Professor Bruner of the entomology department. These plants usually contain foreign insect pests, and this inspection and caution keeps them out of Nebraska.

NEBRASKA VS. DOANE
