Eight of Last Year's  
Men on Team.**

Two touchdowns were scored against the Varsity last night by the freshmen team with the assistance of "Turp" Frank. The Varsity were able to hold their own against the first year men, scoring twice as many points. On both the defense and offense the freshies tore huge gaps in the Varsity line. On the other hand the playing of the Huskers was rather poor. On the offense the line men were unable to open holes for the backs. The defensive play was little better the freshies sifting through in numerous places and tackling the backs before they got started.

Howard was tried at fullback and as the coach expressed it, was a demon. Time after time he tore through the freshmen line for ten, fifteen and twenty yards. Captain Frank and Purdy did good work but were handicapped by the small openings made by the forwards. From the practice last night it looks as if Purdy would be able to go against the Sooners tomorrow.

Rutherford, Eaton and Phenom Frank starred for the first year men. These shifty backs tore through the Varsity for long gains besides executing some very pretty forward passes. Rutherford was a terror on the defense solving the Varsity plays quickly and spilling them. Eaton made a couple pretty long runs and pulled several nice tackles. As for Turp, everybody knows what he can do and we might add here wouldn't he be a demon this year at half?

The Oklahoma team were expected yesterday but had not arrived late last evening. They are in good condition with the exception of one tackle. Bennie Owen has long been desirous of making Oklahoma a Missouri Valley Conference school and for that reason has taken special pains to place his team in the best condition in the Conference games.

This year eight "O" men were returned from their last year's ever-victorious and on this nucleus has built the strongest team ever turned out.

The Oklahoma line averages 175 pounds from end to end and the backfield 160. This is somewhat heavier than last year's phenoms and it is very probable that the Huskers will have to hustle to win if they exhibit the speed that the previous aggregation did—Jimmy.
