

HONOR TEAM TONIGHT

ANNUAL CORNHUSKER BANQUET TO BE GIVEN AT THE LINCOLN.

PROMINENT ALUMNI TO SPEAK

Colonel Bixby of the Journal to Respond to a Toast—Sale of Tickets Closes Today at One O'clock.

Preparations for the annual Cornhusker banquet, which will be held at the Lincoln Hotel this evening are practically completed, and indications point to one of the most successful gatherings since the custom was first inaugurated in 1903. The committee in charge is making arrangements for over 250 plates, and hopes before the day is over to be able to sell this number to over 300.

Prominent Speakers.

The committee has secured several prominent speakers for the symposium following the dinner and has supplied them with attractive subjects. J. Dean Ringer of South Omaha, a former "N" man, will be toastmaster. The list of speakers and their subjects are: "Publicity of Football," Dr. Condra; "Review of the Season," Ernie Frank; "Football as a Training," Jim Harvey; "Nebraska Spirit," Dr. Cutler; "The Grandstand," A. L. Bixby. Colonel Bixby is the man who furnishes the "live stuff" for the State Journal, and it is expected that his remarks will be worth hearing.

Following the toasts and interspersed between them will be short talks from members of the team, alumni and others.

The banquet begins at 6.30 sharp in the ball room of the Lincoln Hotel. No tickets will be sold after 1 o'clock to-day, according to Chairman Frank of the committee, and only those holding tickets will be admitted to the hall.—M. V.

KIOSK MACHINE FOR CAMPUS

Federal Government Provides University With a Thermometer.

One more addition is going to be made to the campus. Ground was broken Tuesday morning for a kiosk weather machine which is to be placed immediately opposite the steps leading to the main entrance of University Hall.

This edifice will be similar to the one at Tenth and O streets. It has been furnished by the government at the instance of Prof. George A. Loveland of the United States Weather Observatory. The kiosk registers climatic conditions existing in this community. From it may be found all matters pertaining to temperature, rainfall and the barometer.

JUNIORS FAVOR CONSOLIDATION

Third-Year Students Authorize Prom Committee to Join with Seniors on All-University Prom.

AGREED ON FOUR-DOLLAR FEE

The junior class, at the special meeting called yesterday morning by President Dickenson, approved the plan of uniting the junior and senior promenades into one big all-University dance. With this approval from the juniors, the dance has become a fixed certainty and the committee is under directions to go ahead with the necessary plans. President Mulligan of the senior class is in favor of the dance and is willing to abide by the decision of his committee.

When asked by a Nebraskan reporter what action the seniors would take on the matter, he said, "Unless there seems to be a good deal of agitation among the members of the class against the proposition I think it will be unnecessary to call a meeting of the class. Since the senior prom committee is heartily in favor of the plan, their opinion will represent that of the entire class."

That there is some opposition to the dance, as first suggested, was shown at the junior meeting. Only a handful of faithfuls were present, but they were aware of the serious aspect of the proposal and literally picked it to pieces with objections and suggestions before accepting the committee's recommendation. Driscoll, speaking for the committee, advocated the united prom and recommended that it be held at the auditorium and that the price of admission be \$5.

"The fundamental idea in our holding this combined dance," he said, "is to escape the excessive demands of the Lincoln Hotel management. Next to that is the desire to give a prom that will be one really worthy of the name. With the raised price of admission the committee will have enough funds at hand to have the floor put in excellent condition, and the auditorium can be made into a fine place for the dance."

Here the class divided. W. E. Kavan objected to the \$5 ticket proposition on the grounds that the class would not support a dance at this price. He was sustained in his objection by several present who maintained that the auditorium floor could not be put in the condition that a \$5 dance would justify. It was the consensus of opinion that the auditorium was the only place in which a dance of 200 or more couples could be held. And the objection the committee had to meet was the poor condition of the auditorium.

The question of the precedent such a dance would set was quickly disposed of, on the grounds that the experiment need not be repeated if it was found impracticable.

MARTYR TO CAUSE OF SCIENCE

Shorty Gray Donates Limb for Benefit of Inquisitive Medical Student.

DISPOSITION OF BOOTY UNKNOWN

Shorty Gray, our convict friend, who has been concealed from public notice for a few weeks, again springs into prominence. It was rumored about the campus yesterday that for the sole purpose of scientifically instructing the minds of one first-year medical student, Shorty Gray found himself minus the left leg, following a painless amputation.

It was the darkest hour of midnight that Will Aten, commonly known as "Bill" and heretofore thought harmless, stole into the anatomy laboratory by instructions of the professor, how ever, and "lifted" Shorty's right limb. However, this may have been done legally, there is no doubt that "Bill's" character has been indelibly dyed with the blood of his helpless victim.

The rumor did not go so far as to specify what disposition is to be made of it. As the epidemics sale of a month ago lacked support, the medicals will probably not undertake the proposition of flooding the market with "souvenirs" again. However, students are cautioned to beware of fakers with any such articles for the present.

ALUMNI WILL PUBLISH JOURNAL

Publication Heretofore Sent to Graduates Will Be Limited to Instructors.

The Nebraska Alumni will soon put out a new publication which will be called the Alumni Journal. This publication will appear twice a month and will be sent to old students and alumni.

The University Journal, which has heretofore been sent to alumni will only be sent to teachers and instructors throughout the state and prospective new students. There will be no change in the time of issuance of the University Journal as a result of the new publication. The Alumni Journal will contain news of the school and items of interest to the alumni.—Sp.

The motion was then made that the class back the committee in the consolidated dance, the senior committee to unite with the junior in effecting the plans. The price of the tickets, however, was lowered to \$4. This motion was carried almost unanimously and the committee was empowered to act by President Dickenson.

1913 BIG YEAR IN FOOTBALL

ELVEN "N" MEN COMING BACK TO FORM NUCLEUS OF TEAM.

RESERVES WILL YIELD FAST MEN

Stiff Schedule Being Arranged by Coach Stiehm—Possibly Two Games With "Big Nine" Schools.

Nebraska is looking forward to another successful season of football in 1913. With only two of this year's team to be lost by graduation the returning eleven men form a nucleus around which to build another championship team. When the returning letter men are strengthened by the recruits of this year's freshman team, football will look very promising indeed for the 1913 campaign.

Captain Frank and Dewey Harman are the only men who have played their allotted three years and will be sure to be absent from the ranks next fall. Mulligan, although a Senior, is undecided, but will probably take his degree in the spring. Swanson, too, is on the fence, but the first call next fall will no doubt see the husky tackle in the moleskins. Towle, the nifty quarterback, will not take his degree this year and will be back next year. Potter, Towle's running mate, has two more semesters in school as he was out one semester during his sophomore years on account of sickness. The other letter men, Captain-Elect Purdy, Freitag, Mastin, Howard, Halligan, Pearson and Allan are sure of returning.

For the line next year the only positions that will have to be filled will be a tackle, guard and possibly an end. For these places there need be little worry for they can be ably filled by such men of the freshman team as Shields, McCarthy and Riddel. Several other men of the freshman class were able to get out for practice only for a few nights a week and they proved good material.

The backfield proposition is not a very difficult one, for Potter and Towle will be back at their old positions at quarterback. Purdy, Beck, Hawkins, Rutherford, Eaton and Hugg at halfbacks sure will prove a bunch of demon halves, although they are not very heavy. Halligan will again hold down the position of fullback and will be ably supported by Coffee, the plunging fullback on this year's freshman team. Mastin, who played end this year, plays a good game at fullback, and if necessary could be shifted to that position.

Coach Stiehm and Captain-Elect Purdy have a lot of good material to work with next year and no doubt will (Continued on Page 8.)
