

COURSE IN ARCHITECTURE

Regents to Act Upon the Establishing of This Course at the Next Meeting

NEED HAS LONG BEEN REALIZED

Of the proposed changes in courses of study which will be acted upon by the board of regents at their next meeting, one of the most important is the establishment of a course in architectural engineering. This is a four-year course and, if it is approved, the work will be offered next September.

That there is a demand for such a course is shown by the popularity of the class in Architectural Drawing, given under Professor Slaymaker last year. In the past few years Nebraska has lost many students, who, after one or two years here, have gone to other schools where they could get instruction in architecture. Undoubtedly the proposed course would increase the registration in the Engineering College.

The first year's work in this course, as planned, is the same as in the other engineering groups. The work in the other three years will be designed for a man who wishes a good engineering education and desires to specialize in architecture. The school of fine arts will co-operate with the engineering college in offering the courses in this group.

In addition to architectural engineering a four-year course in architecture is to be formulated for the consideration of the regents.

Raymond Dumont, Eng., '06, president and manager of the Western Engineering and Supply Co. of Boise, Idaho, was a campus visitor last week. Mr. Dumont is also a contracting engineer for the Omaha Structural Steel Co.

Mr. James H. Cook of Sioux county, visited the museum yesterday. Mr. Cook is the owner of the famous "bone quarries" near Agate, Nebraska, and has donated many valuable specimens to the University collection.

Mr. F. M. Hall, who was influential in securing the Lincoln monument for the city, has loaned his cast of the statue to the Fine Arts School. It will be available for use as a model by students in the school during the coming semester.

Robert Graham, '11, has just finished the work of modeling the head of a Rocky Mountain sheep for the German Society of Lincoln. The scarcity of these animals makes them so valuable that this plan of modeling the head onto an old pair of horns has to be used.

CAMPUS NOTES

Telephone Yule Bros at once.

Dr. Laura Hamilton, a prominent physician of Iowa City, was a campus visitor Saturday.

Hagensick's Orchestra, Auto B-2990.

Prof. O. J. Ferguson has been elected an honorary member of Sigma Tau, the engineering fraternity.

Jones' Orchestra. Phone L-8605.

John Miller, '12, who is now running a ranch at Valentine, Neb., is visiting at the Acacia House.

C. H. Frey, University florist, 1133 O st.

Verna McBeath, '13, was operated upon yesterday for appendicitis. She has been out of school for several weeks.

Ted Marriner—Cleaner, Hatter and Repairer. Auto B1799. 235 No. 11th.

Lester Bratton, '11, of South Omaha, and Will Hunt of Simpson College, spent the week end at the Alpha Tau Omega house.

George Bros., artistic and individual programs, menus and stationery. The latest styles. 1313 N. Adv.

Mrs. Mary Love Collins, grand president, and Mrs. Helen Streeter Huntington of Kearney, are Chi Omega visitors this week.

Seniors—Order caps and gowns for mid-winter commencement at Book Store, 340 No. 11th. All orders should be in by 6:00 P. M. Thursday, January 23rd.

Mr. J. H. Flodman, until recently a professor in Luther College, Wahoo, visited the campus yesterday. He attended the University in the years 1895 and '97.

Dr. R. H. Wolcott entertained the zoological seminar at his home last evening. Dr. Wolcott gave a resume of his recent trip to the Association of Scientists.

Mr. Louis Meyer, U. of N. 1901, a graduate of engineering from Columbia University, now engaged as an engineer in extensive cement works in Omaha, visited the University on Thursday.

Ethel Green, a winsome little comedienne with ability far in excess of her size, is admitted a most popular favorite. Miss Green sings a song or two, and tells as many stories. She wears fetching costumes and her appearance is particularly charming. As is invariably the case with singing comedienness, it is not so much material as method that counts, and Miss Green's method has never failed to please.
