

### TRACK MEN HANDICAPPED

WEATHER OF PAST WEEK HAS BEEN A HINDRANCE TO BEST EFFORTS.

### BASEBALL SQUAD PRACTICES

If Weather Man Is Kind Work Will Be Transferred to Athletic Field. Dopesters Can Soon Estimate Varsity Strength.

The past week has been one to greatly try the patience of the members of the athletic department, and especially Coach Reed, who has been rising early in the morning every day to see whether the weather man was going to allow him to work his track squad in the open. In spite of the snow, tornadoes, and all the other different brands of weather we have had during the past week, the track squad has been making fair progress. The path artists have alternated between the Armory floor and the muddy pavement, while the vaulters have been unable to get outside at all.

Next week, however, barring unforeseen circumstances, will see the entire squad on the athletic field, and the men will be getting into shape much more rapidly.

The baseball squad are still working out in the gymnasium, although they are greatly handicapped by the lack of a cage. As soon as they are able to get out on the field they will be more able to prognosticate the merits of the Cornhusker squad.

### NO PARTIALITY SHOWN. (Continued from Page 2.)

the indefatigable "snapper" gets them all standing or sitting, stooping or erect, ostensibly dead, or very much alive. Hermitage is the only escape from definite publicity in the Cornhusker.

Hand in hand with the artist is working the cartoonist. Those whose natural attitudes fail to entertain will be vigorously improved upon by Sommerland, Mangold, Gellatley and a score of able humorists in the concert. Several faculty men and conspicuous students should not feel at all notorious if they find themselves serio-comically sketched for the 1913 Cornhusker.

More good jokes, more live and living cartoons, more snap-shots that put your fellow student right home to you, you will not find anywhere than in the coming year book. Start to enthuse right now. Key your expectations to the very highest pitch. You cannot possibly be disappointed in the 1913 Cornhusker.
