UNIVERSITY OF NEBRASKA, LINCOLN, TUESDAY, APRIL 29, 1913

Price, 5 Cents

ENGINEERS WILL INSPECT

STUDENTS IN DEAN STOUT'S COLLEGE GO TO OMAHA MAY 23 TO VIEW MACHINE SHOPS.

WILL SEE MUCH OF INTEREST

Railroad Fare and Entire Expenses Need Not Exceed Five Dollars—Excuses Granted Those Taking Trip.

The college of engineering of the University of Nebraska will conduct an engineering inspection trip to Omaha on May 2 and 3, 1913. The following plants and works will be visited:

The electric generating plant of the Omaha and Council Bluffs Street Railway Company. The South Omaha substation of the Omaha and Council Bluffs Street Railway company. The Electric Generating Plant of the Omaha Electric Light and Power company. The railway repair shops of the Union Pacific R. R. Co. The McKeen Motor Car Works. The refining plant of the American Smelting and Refining Co. The water works of the City of Omaha, at Florence. The Omaha Gas company's plant. Bennett's gas engine driven electric plant. And others.

The railroad fare will be \$2.20, the cost of four meals will not exceed \$1.20 and the one night's lodging \$1.00 or \$1.50 according to accommodations. The total cost need not exceed \$5.

This inspection trip is offered by the college of engineering for the purpose of affording the student in this college the opportunity of seeing the application of engineering principles to industrial purposes. It is considered valuable from an educational standpoint—DAILY—FOUR

point, and hence, all students who take this trip will be excused from their classes on the two days required. It will be necessary for each student to remain with the inspecting party for the entire time from Friday morning to Saturday night, in order to obtain the dean's excuse.

The officers of the companies whose plants will be visited have in each case extended a very cordial invitation to all students interested.

For the purpose of making the necessary arrangements everyone who intends to be a member of the inspection party will signify his purpose by signing the roll in the office of the dean of the college of engineering, M. A. 204.

A small booklet describing the plants to be visited will be placed in the hands of the members of the inspecting party. This booklet will serve as a note book and as a manual for the trip.

The details of the inspection trip are in the hands of a committee from the engineering faculty consisting of the following: V. L. Hollister, chairman; C. L. Dean, J. N. Bridgeman, L. F. Seaton.

Mandolin Club will meet in the Temple this evening at 7 o'clock. Important. All members out.

Ames Takes Closely Fought Track Meet by Fast Work in Relay Race

By a score of 60 to 54, Nebraska lost the first dual meet of the year to the Iowa State College last Saturday in a fiercely contested meet, which was not decided until the relay was over. Nebraska took the first event in the slow time of 10 4-5 and there never was any time more than 8 or 10 points difference between the two teams and the result of the meet remained in doubt until the last event was run.

In the half mile relay the Ames quartet had a comparatively easy time although the Nebraska team made a good showing. The Ames team led from the start and never were headed. The mile relay was a little different race and very warmly contested. Zumwinkel led the race for the first quarter with Bates and Racely retaining the lead, but Beaver was unable to keep the lead from Crawford the fast quarter-miler, who broke the tape two feet ahead of the Cornhusker sprinter.

The two teams were very evenly matched for Nebraska took seven firsts, Ames secured the same number. Ames took seven second places and the Cornhuskers five. By securing the two relays the Aggie aggregation won the meet but if they had lost either one of them they would have lost by one point.

Summary of events is as follows:
100-yard dash—Reese, Nebraska, first; Dickinson, Ames, second. Time, 10 4-5.

120-yard hurdles—Lindstrum, Nebraska, first; Garst, Ames, second. Time, 17 4-5.

Half-mile run—Maning, Ames, first; Goetz, Nebraska, second. Time 2:04 4-5.

220-yard dash—Dickinson, Ames, first; Kaiser, Ames, second. Time, 23 3-5.

High jump—Meier, Nebraska and Crawford, Ames, tied for first. Height, 5:8.

Mile race—Snyder, Ames, first; Anderson, Nebraska, second. Time, 4:39 2-5.

Shot put—Meier, Nebraska, first; Ross, Nebraska, second. Distance, 37.3.

220-yard hurdles—Rodgers, Ames, first; Gross, Nebraska, second. Time, 28 2-5.

Pole vault—Reavis, Nebraska, first; Lindstrum, Nebraska, second. Height, 11:2.

Broad jump—Reese, Nebraska, first; Moad, Ames, second. Distance, 20:10 1/2.

440-yard dash—Crawford, Ames, first; Wilson, Ames, second. Time :54.

Two-mile run—McMasters, Nebraska, first; McWhorter, Ames, second; Time, 10:32 3-5.

Discus—Meier, Nebraska, first; Johnson Ames, second. Distance, 115:5.

Half-mile relay—Ames (Dickenson, Kaiser, Iverson and Clutter), first; Ne-

Preparations for Inter-Collegiate Debates Being Made

Preparations for Nebraska's inter-collegiate debate next December are beginning. The five questions proposed by the five members of the Central Debating League were announced yesterday. The questions are published in full below.

It is very probable that in a few weeks try-outs will be held for the 1913-1914 intercollegiate debating squad. It has been found more successful to begin the exhaustive preparation for the great and only forensic contest of opposing universities in the year before the summer vacation. The debaters find it easier to take hold of the work in September when the main stakes for the great conflict of wits are set in May. Here follows the great bones of contention over which the competing universities of the league prefer to wrangle:

PROPOSED QUESTIONS.

(1) By Nebraska.

"Resolved, That the policy of regulating trusts is preferable to the policy of dissolving them."

(2) By Iowa.

"Resolved, That the United States should relinquish all control over the Philippines, guaranteeing independence, constitutionality granted of course."

(3) By Minnesota.

"Resolved, That immigration into this country should be further restricted by means of a literacy test."

(4) By Wisconsin.

"Resolved, That Congress should pass a law similar to the Canadian industrial disputes act of 1907, constitutionality conceded."

(5) By Illinois.

"Resolved, That American coast-wise ships should be required to pay tolls for the use of the Panama canal."

Nebraska's Choice of the Questions. In deciding its order of preference, the Nebraska debating board would like to have the composite judgment of persons interested—members of the faculty and students. Notes may be left at 206 University Hall.

M. M. FOGG,
Secretary.

The annual banquet of Alpha Chi Omega Saturday night. The following alumnae who are back: Inez Thomas, Lucile Hudson, Beulah Jennings, Ruth Walker, Mabel McDowell, Reva Russell, Hazel Teeter, Dale Pugh, Julia Solomon, Maudeline Bennison, Minnie Stalder, Mabel Doran, Mrs. Nell Whitmore Johnson, Mrs. Marion Whitmore Webster, Mrs. Hazel Mann McDowell, Mrs. Hunt, Mrs. Vera Cox Baverger.

Floyd W. Gail, '11, A. M. '12, who is botany instructor in the Lincoln High School at the present time, has resigned to take up a professorship at Ohio Wesleyan University.

Graduate Foresters To Go to Missouri For Thesis Material

Professor Morrill of the forestry department who has been for the past week in Missouri will return Wednesday. The object of the trip was to look over the timber land of J. B. White to determine a suitable location for the graduate students in forestry to carry on their management problems.

The foresters who are working upon the theses for their masters' degrees will make the trip into Missouri to collect data at once. There are only a few working upon this subject of management of timberlands, about six in all who will take up the work in Missouri.

Eight Cases of Diphtheria Connected With University

The city health authorities have succeeded in checking the diphtheria plague to such extent that but four new cases were reported yesterday, in addition to the four cases published Sunday.

Some eight of the cases of quarantine so far registered in the office of the health officer have affected persons connected with the University. The homes of Edith Allen, Harley Brown, Willard Folsom, Herbert Bushnell, Elizabeth Black, and Helen Hall have been placed under restriction, although not all of the students named have not been confined by such. The wife of Professor Lawrence Fossler has been taken down with the disease and two daughters of Professor C. A. Robbins are taken down with the disease, the homes of both being under quarantine. Seventy-one cases make up the total list of quarantine in the city.

Agricultural Students Offered Jobs With Salaries of \$2,000 to \$2,400

Within the last three days, opportunities have come to place three men in Agriculture in three different states at salaries varying from \$2,000 to \$2,400. An extension man is needed in Missouri where a maximum salary of \$2,000 can be paid. A professor of dairying is wanted in Oregon at a salary of from \$2,000 to \$2,500. A professor of Agronomy is wanted in Nevada at a maximum salary of \$2,400. These letters indicate the demand for efficient men in all agricultural lines, and should encourage young men who desire such positions to specialize in some line of Agriculture.
