MEDICS BURST FORTH

DOCTORS CHAFING OVER INACTIVITY PREPARE TO STARTLE OTHER DEPARTMENTS.

WILL INDULGE IN GALA WEEK

Picnic and Dancing Party, Omaha Trip and Other Events in Prospect—State Board Examination a Feature.

Not to be outdone by the ags, engineers, and other department roisterers of the University who persist in appropriating perfectly good weeks to hold nefarious orgies for displaying their own genius, the medics will attempt next week to surpass all previous offenders. No more will the austere disciples of Hippocrates be considered "dead ones" by supercilious members of other departments.

Weary of the drudgery of studying occipital bones and freak femurs, and nauseated with the reeking odor of formaldehyde the medics will seek rest and recreation under the open sky. Each stalwart male may have to protect a shrinking member of the opposite sex from a grinning skeleton leering at her from some dark corner, for the men of medicine in their haste to depart from the campus may leave a portion of their anatomical studies behind them.

The gala week of the doctors begins with Tuesday as they feel that at least one day of the week must not be sluffed. On this eventful Tuesday, then, they will assume the responsibility of taking charge of the "Rag" in order that their doings will be correctly chronicled. The committee in committee in charge of the medical bulletin will be "Sawbones" Moser, "Laughing Gas" Munger, "Hat" Orvis, "Bess" Mason, and "Doc" Sage. Some prominent medical authority, whose name at present cannot be divulged will address the aggregation at convocation.

The state board examination will be taken on Wednesday as it is believed that this ghastly day should be a part of a "sure nuff" medic week. To lift the depressing gloom produced by this event Dr. and Mrs. Wolcott have chartered Capital Beach for Thursday and have invited the entire bunch of medics to a party at this pleasure resort.

Friday is the day of the annual picnic, and a big picnic dinner will be held at noon which is assuredly successful with these epicures. Greenburg, Ruth Warner and Young in charge of the repast. In the afternoon various forms of athletics will be indulged in to determine the relative strength of different pairs of biceps. All classes are urged to get busy and arrange the various athletic events for the occasion. Reports should be made before May 9 to Sidney Reese, chairman of the committee, Heine or Bolibaugh.

The emblem worn for the week will be felt arm bands with white field, and

Many Local Men Plan to Go to Estes Park Y. M. C. A. Summer Conference

A large delegation of Nebraska men are going out to the Estes Park conference to be held as soon as school closes. This is the annual conference of the Y. M. C. A.'s of the colleges and universities of the middle west.

Other conferences in the east are to be held at Lake Geneva, Lake Mohawk, and Silver Bay, New York. Until recently the middle west conference has been held at Cascade, Colo. Estes Park is considered in every way more beautiful than Cascade in regard to location and scenery.

Every summer, at these conferences, leaders in college and university activities, athletes, debaters, and all around students gather for ten days of study, recreation, and fellowship.

The forenoons are given over to study periods and the afternoons to baseball, tennis, fishing, and mountain hikes. The evenings are given over to the discussion of the life work of college men. The leaders are men of international repute. College men who have attended these conferences say they are worth as much as a year of college life.

GIRLS' CLUB ELECTS OFFICERS

Large Vote Comes Out for Annual Selection From Four Classes.

At the Girls' club election held yesterday in University Hall a vote of over 125 was polled. The following officers were elected: Mabel Daniels, president; Bess Rogers, vice president; Lorena Bixby, secretary; Louise Brownell, treasurer. The board members elected from the junior class were: Elizabeth Hyde, Marion Pettis, Bertha Weiss; from the sophomores: Esther Bennett, Winifred Seeger, Freda Stuff; from the freshman: Jeannett Finney, Doris Slater, Frances Young.

Claude Mitchell Takes Examination for Degree of Ph. D.

Claude Mitchell, A. B. '10, A. M., '11, who is an instructor in the zoology department, took an examination for the degree of doctor of philosophy last Thursday, passing the examination with high honors. The examining board consisted of Dr. J. H. Powers, Dr. R. H. Wolcott, Dr. R. A. Lyman, Dr. F. D. Barker, Dr. Gunther, Dr. E. M. Wilcox. Mr. Mitchell made pharmacology his minor subject, and the subject of his thesis for graduation was "Sex Determination of the Rotifer (Asplanchna Amphora)." In the celebration of the fact that he had successfully passed the difficult examination the new Ph. D. purchased a new hat, which he laughingly told a Nebraskan reporter is a size larger than he is accustomed to wear upon his bulging "dome."

Creighton Tennis Match Scheduled for Week From Next Saturday

The tennis enthusiasts have been practicing diligently in preparation for the dual tennis meet with Creighton University a week from Saturday. Four men from each school will contest for supremacy on the chalked courts. The tournament will consist of four sets of singles and two of doubles. Those taking part for Nebraska will probably be Williams, Meyer, Sussman and Gardner all of whom were winners in last fall's tournament. About the middle of next month will be held another school tournament to determine the squad which will enter the Missouri Valley tournament.

GOV. INSPECTION MAY 12

Annual Event in Military Department Scheduled Soon—Compet May 29.

Captain Bowman has announced May 29 as the date of the annual military competitive drill. On this date, which constitutes the end of drill year there will be held on the athletic field regimental parade, competitive drill between the companies and individual competitive drill. The winning company and individual in each contest will receive loving cups.

Government inspection will be held May 12. Captain William H. Raymond of the general staff of the United States Army will be the inspecting officer.

The Tegner Society meets next Saturday evening at 8:15 in Faculty hall, University Temple. Rev. E. G. Knock will give the talk which he was unable to give at the last meeting. Important business is to be transacted at this meeting so that all members should make it a point to be present. All Scandinavians cordially invited.

WOULD TEACH "WONDER"

PROFESSOR C. J. KEYSER OF THE COLUMBIAN UNIVERSITY SPEAKS.

DO NOT STUDY TO EARN MONEY

Tells Student Audience That Highest Purpose of University Is to Arouse Curiosity—Not Give Knowledge.

Professor C. J. Keyser of the mathematics department of Columbia University spoke at the regulation convocation hour Tuesday morning, choosing as his subject "Wonder." He said universities and colleges were founded not for the purpose of providing young men a chance to earn their bread and butter, but for arousing and gratifying their sese of curiosity and wonder.

"It is a mistake," he said, "to be too much of a hurry to prepare one's self for the avocations of life." "Go to the university in order to develop your wonder. Knowledge is a good thing in itself, and should not be sought after for the mere sake of the thing."

Professor Keyser is an easy speaker and though he delivered an impromptu speech he held the closest attention of his audience for the full half hour.

SENIORS SILENT ABOUT DOINGS

Do Not Allow Particulars of Meeting Yesterday to Get to Ears of General Public.

The seniors held a very well attended class meeting yesterday morning in Memorial hall. It is reported that nearly every senior was present but nothing definite could be learned. Reports by the various committee chairmen were listened to after which President Wenstrand gave a little talk to the class on their duties preparatory to graduation.

German Dramatic Club Tryouts.

Tryouts for the German Dramatic club will be held in the Temple in Faculty Hall Wednesday evening, April 30, 1913, at 7:30.

The Camp Fire Girls will meet Wednesday afternon at 5 o'clock in the Y. W. C. A. rooms.

Dr. Harry Manter of Lodge Pole visited at the Phi Rho Sigma house last week. Dr. Manter is a brother of Edna C. Manter of the zoology department.

Two bulletins of special importance to the agricultural interests of the state have recently been published by the experiment station at the University Farm. Bulletin No. 134 by Professor Wilcox describes the treatment of dry rot in potatoes, while a second one number 12 by Professor Cooper covers the points of selection of ground, selection of seed, and cultivation. The bulletins are sent free on request by the experiment station.
