**MEDICS BURST FORTH**  
(Continued from Page 1.)

U. of N. and a skull and crossbones in red. There will be a pennant of the same design floating from University hall. This gruesome emblem does not forecast a coming event but is merely a token by which a medic can be identified in case his enthusias carries him too far, and he finds himself in the camp of the enemy.

On Saturday the students are guests of the faculty at Omaha. All day there will be special clinics, so dear to the heart of a medic, at the various hospitals of the city. In the evening to wind up a glorious five days of pleasure there will be several parties given by Nu Sigma Nu, Phi Rho Sigma, Nu Sigma Phi, and other fraternities and other fraternities and sororities of the medical profession.

The booster committee to insert the necessary amount of enthusiasm into the events will be Moser, Johnson and Colbert.

Installation of the new Y. W. C. A. cabinet will be held Wednesday at 7 o'clock. Both old and new cabinets will meet in the association rooms. Miss Eva Morris will be present.

**Varsity Drubs Frosh  
In Baseball Game  
Tuesday--Score 14-10**

The varsity indulged in a bat-fest with the freshman yesterday afternoon. Although the hitting was heavy on both sides, the varsity easily showed their superior pellet pushing ability by driving fourteen counters across the plate while the efforts of their younger opponents left them four scores behind. The freshmen lacked the practice and team work of their advanced brothers, but at times showed remarkable fielding ability.

The game was featured by the hitting of both teams. Several long archers were driven out against the wind for two and three bases, that would have been homers on an ordinary day. Towle, Jameson, and May worked well for the varsity while Spier, Houlett and Criche were the stellar performers for the freshmen.

One of the features of this week's bill at the Orpheum is Charles B. Lawlor and his two charming and talented daughters, Mabel and Alice, who present character studies in song that are a delight. The girls have inherited much of their father's ability and the trio is deserving in every respect. The act is replete with bright sayings and tuneful songs and likely to create more than passing attention.
