DEAN ON UNIVERSITY NEEDS

Miss Ensign Discussed the Three-Quarter Mill Levy—Suggests Use for Part of It.

One favorable aspect of the action of our last legislature in appropriating for the use of the University three-quarters of a mill levy is that, although the two branches of the house could not agree as to the wisest policy for University expansion, both were sufficiently interested in the welfare of the institution to be unwilling to postpone for two years provision for its growth.

Along what line development will be encouraged by the first expenditures for equipment will be a matter of interest and much discussion among students and faculty.

There is great need for added classroom and laboratory space but at present there is an even greater lack of provision for the activities outside of the classroom.

Just what the ideal proportion of these activities in student life would be is easily open to debate. That they are important and should rightly have a place in it, is hardly to be questioned.

Residence halls, a club house for men, a swimming tank, an auditorium in which real mass meetings might be held and a woman's building would be desirable aids to the wholesome campus life outside of the classroom and laboratory.

The three-quarters of a mill levy cannot give all of this or of much other desirable equipment but certainly

some of it should go to meet these needs of student life.

The woman of the school may reasonably hope that a building for their use will be one of the early fruits of the increased appropriation. Such a building could provide rest rooms, parlors, a locker room, study hall, a gymnasium suitably equipped for physical culture, indoor athletics and certain

large social affairs, a girls' club room and a dining room.

A quiet, airy room where an hour or even a half hour of rest would be possible would relieve much over-strain for the strong as well as for the weaker girl. At least one such room should belong to the department of physical education. The advantages of a wo-

man's gymnasium, if possible having adjacent ground for out-door sports, are self evident

Appreciation of unity of interest and action without loss of individuality would grow among those meeting naturally from day to day in sports, about the dining table, or around the parlor hearths. A truer democracy would come through the opportunity for a more varied association, a better chance to know some of one's neighbors.

Unconsciously the Girls' Club with such a home would more nearly fulfill its chief purposes—

To offer an opportunity for a friendly, helpful fellowship among the women of the school.

To develop a feeling of mutual responsibility and a high regard for both liberty and order.—Alice Baird Ensign.

English Club.

The last meeting of the English club will be held May 10, at the home of Ruth Munger, 1745 E street. A splendid program has been prepared. Papers will be read by Miss Pound, Prof. Buck, Ruth O'Dell, Herbert Grummann, Orin Stepanek, and William Reimer. The election of officers for the next year will be held, and so it is desired that every one of the forty-nine members be present.

1912 ALUMNAE NOTES

Louise Barr is the student secretary of the Y. W. C. A. in Iowa University, Iowa City.

Hazel Hogrefe married Mr. William Baume and now lives in Berlin, Germany.

Patty Metzger, teaches at Mt. Pleasant, Utah.

Mary Lynch, A. M., '12, teaches in the University of Porto Rico.

Mabelle Davis is teaching in Santa Fe, New Mexico.

Marjorie Selleck is taking graduate work at Leland Stanford University.

Bertha Luckey, A. B., '10, A. M., '12, is studying in Germany. She also travels with the family in the southern part of Europe.

June Brown is teaching in Ponce, Porto Rico, where several of her Nebraska friends are also teaching.

Beatrice Moffet married R. E. Weavering and now lives in North Bend.

Grace Salisbury teaches at Santruce, Porto Rico.

Bessie Roberts married Professor Wolyington, supervisor of the Tacloban district in the Philippines. She teaches in the Provincial High School, which is situated at Tacloban, capital of the province of Leyte.
