

TRACK MEET MAY 14

GIRLS GETTING IN TRAINING FOR ANNUAL COMPETITION
—RACES. BASEBALL, JUMPING.

Gittings and Beghtol, Trainers

Practices Held Daily—Entries Should Be Made May 12th—Medals Will Be Awarded Winners.

At least once each year the girls of the University can climb down out of the grandstand where Mr. Reed has them safely penned for most of the time and can feel the blue grass beneath their feet with as noble stimulation as any football heroes can speed the track with the elation of an Anderson or even vault with the grace of a Reavis.

The real concentrated season of practice has commenced although preparation in a measure has been going on all year for now the date of the big meet is set for May 14.

Annually the authorities have dismissed girls from classes that they might be in or watch this pentathlon.

Practices are held at 1:00 p. m. daily, at 11 Monday, Wednesday and Friday and Wednesday at 10. Miss Gittings is coaching the track event and Miss Beghtol has charge of the indoor baseball. This game is one of the popular features of the field meet and will be a contest between picked

sophomore and freshmen teams. If the upper classmen want to combine and challenge the winners it is rumored that they may snatch the trophy from the lower classmen in a later match game.

The events to be entered this year are the following: 25-yard dash, 50-yard dash, 40-yard hurdle race, running high jump, 8-pound shot put, basket ball throw, and a pole vaulting contest limited to members of the manual physical educational class. This event requires more practice but some degree of skill and much enjoyment is evinced by the experts. The hurdle race is one of the most attractive events. Four girls will run in each heat down a course with five obstructing hurdles 2 feet 6 inches high. Gladys Bennett, Edith Shank and Ethel Johnson got over the 40 feet as well as the hurdles with astonishing regularity.

The real entries will be made possibly Monday the 12th, but all girls can practice. Since the talent in athletics is very evenly distributed a large number have high hopes of staying in at least three events.

Medals will be given the winner of track events. Those playing on the class team will have completed one requirement for an athletic "N."

Last in the day's mad events will come the inter-class relay race, the Black Masks. Silver Serpents and other organization will be expected to send their best class material to train for this supreme effort of each class to leave the field victorious.

Klosh reports a perfect afternoon and all the girls there and possibly all the boys.

Loeb's Orchestra, Phone L7620.

Dear Venus: I AM A CRUMB. I want a girl. She must know a lot, be able to lead me socially and must wear at the time we are introduced one of those \$15.00 trailing gowns. Suffragettes excluded from competition. Enlighten me. Truly yours,
C. L. REIN.

We are afraid that you are rather extravagant in your demands. Any girl who really knows a lot is a suffragette, she will refuse to wear trailing \$15 gowns (oh horrors!) and will demand more than a "crumb" in exchange. You had better visit the garden and the fat juicy worm.

Dear Venus: Please help me in my sad plight. I am madly in love, yet am in imminent danger of baldness. Up to this time the object of my affections does not realize the impending disaster. Should I try to win her immediately ere it comes, or wait until she can judge whether or not I will do, in my changed condition, or shall I confess all and throw myself upon her mercy. In trouble.
GEO RACELEY.

We realize the awful position you are in, but feel that if the girl really loves you, hair (or the lack of it) will not matter now or ever.

Telephone Yule Bros at once.

Shoes for College Girls

Low heel Oxfords and Pumps on the English Last, Gun Metal, Tan, Suede and White Nu Buck Pumps. These are the very latest styles. They are swagger. Call and see them.
