SPHARO STYX SHOW SOON

REHEARSALS IN FULL PROGRESS FOR BIG MINSTREL AND VAUDEVILLE SHOW.

MATERIAL ENTIRELY ORIGINAL

Written by Hugh V. Harlan, '16, With Many Novel Musical Numbers—Given December 13.

Rehearsals for the big Minstrel and Vaudeville show to be given December 13 are beginning in earnest with the final selection of the cast to be announced tomorrow. A slight delay in placing the list in the hands of the registrar prevents its publication today.

The material for the show, which will consist of both high class vaudeville and minstrel entertainment is entirely original and written by Hugh V. Harlan, a member of the junior class. There are a number of original musical numbers, the songs of which have been pronounced hits by those who have heard them. Work on the show has been going on since the first of April last year and is now at its final stage. Originality is the keynote and the various acts will be snappy and catchy in the extreme.

Some of the best talent in the university has been secured to present the show. The cast when given out tomorrow will be noted to be composed of exactly those who are best fitted for their parts as is the aim of Spharo Styx.

Professor John T. Prince is directing the performance and is putting a large portion of his time into the perfection of the first minstrel show ever given at Nebraska. His determination to stage a first class show in spite of any obstruction does not augur well for the peace of mind of any "sluffers" who chance to get places on the cast.

Special scenery and staging effects are already being prepared for the Oliver theater where it is planned to give the show. Originality will be much in evidence at this point as well as in the show itself.

DIRECTORY OUT WEDNESDAY.

The old, old tale of printers' woes again intervenes in behalf of the annual Student Directory. It was announced that the book would go on sale this morning, but the editors have found it necessary to postpone the sale until Wednesday morning. It is certain, according to the management, that the books will be forthcoming at that time.

Edith Schrum of Omaha is visiting at the Achoth house.

Lucy Keiter of Adams, Neb., is visiting friends in Lincoln.

Cornhuskers Defeat Coyotes Saturday By 42 to 7 Score

In an interesting and sometimes spectacular football game Saturday the Coyotes of Nebraska Wesleyan University went down to defeat, at the hands of the Cornhuskers, the score being 42 to 7.

Three men of the backfield and most of the Nebraska team were substitutes. The Cornhuskers were out weighed by the Wesleyan team, but the Methodists were no match for the speedy Nebraskans.

Wesleyan scored one touchdown. It was made on a fluke. One of the Wesleyan linemen came through the line just in time to pick up a fumble and ran some twenty yards for a touchdown.

A fair sized crowd was out. The Methodists fans were present in large quantities and did some good rooting.

HAUPTMAN ELECTED HEAD OF UNIVERSITY Y. M. C. A.

Resignation of R. A. Smith Raises Engineering Junior to Chief Position in Association.

The resignation of Raymond A. Smith, '14, from his position as president of the student Y. M. C. A. was received and accepted by the cabinet of the association Saturday. To fill the vacancy, Charles A. Hauptman, '15, chairman of the new student committee, was unanimously elected by the cabinet. The resignation and new appointment take effect this week, Hauptman holding the position of president until the election of officers in the spring.

Mr. Smith was elected president of the association last spring, and has served since March. In his letter to the cabinet, however, he stated that he could not give the association the attention it deserved, at the same time keeping up in his other work.

The new president, C. A. Hauptman, is a junior in the engineering college, president of the Bushnell Guild and a member of the Palladian Literary society. He is assistant business manager of the Blue Print. He has been active in the work of the association since his freshman year.

Along with the resignation of Mr. Smith, the resignation of Harvey Hess, '14, chairman of the Biby study committee, was accepted.

VESPER SERVICE AT Y. W. C. A.

The Y. W. C. A. Tuesday evening vesper service will be in observance of the world's week of prayer. The committee in charge has made special effort to make this service unusually good. Mrs. Ewing will speak. Special music will be furnished by children dressed in the costumes of many countries.

Christian Scientist Society Organized by University Students

A Christian Science society has been organized at the University of Nebraska by a number of students who are adherents to Science. The official requirements for recognized university organizations have been complied with by the organizers, and a meeting place in the Temple has been assigned or the use of the new society. The officers of the organization are Miss Aurel Murtey, president, Ralph Canaday, vice president, Miss Agnes Arterburn, secretary, Miss Frances Young, treasurer.

One of the organizers who was asked for information about the society said that societies of this kind exist at a number of the larger educational institutions of the country, the first one having been established at Harvard a number of years ago. The state universities of Michigan, Minnesota, Illinois and Kansas are some of the institutions in the middle west that have such societies. All these organizations are similar in character, but are fostered and carried on entirely by students of the particular institution, each one being independent and distinctly democratic in its government.

The membership of the society is strictly limited, but its regular meetings are open to all students. The avowed purpose of the organization is to bring the Christian Scientists of the University closer together, but to do it on a serious basis rather than a social one.

New Architectural Society Meets.

A meeting of the new architectural society was held in Mechanic Arts building on last Wednesday night. Several short talks were given on the need for such a society among the students among Nebraska's newest branch of engineering, and its future.

A short business meeting was held at which it was decided to procure one of Lincoln's leading architects to talk at the next regular meeting which occurs on the first Wednesday of next month, December 3. This promises to be a very interesting event for all concerned, therefor the committee in charge urges every loyal student in architecture to support this event by his personal attendance.

The following committees were appointed by the president:

Membership Committee: Phil Warner, chairman; H. C. Rokahr, L. E. Norris.

Program Committee: G. A. Spooner, chairman; E. J. Ohlsen, (not assigned).

Be sure and see the membership committee.

NO BOSTON AT ENG'S DANCE

THIS DANCE IN STRAIGHT POSITION IS BARRED AT FIRST ALL-SCHOOL DANCE OF YEAR.

TICKET DISPUTE TROUBLES

Out-of-Town Girl is Turned Away Because Comp. is Presented by Wrong Man.

The Engineers' Hop held at the Lincoln last Saturday night was a distinct novelty by reason of its being the first all-university dance of the year and also the first one held under the new regulations of the committee on organizations. For those present the pleasures furnished by the committee, of themselves first class in every way, were almost spoiled by the obtrusiveness of the numerous regulations, according to several of those in attendance.

At the door the first new rule was enforced. A complimentary ticket which was presented by another than the one to whom it was issued caused the first unpleasantness. The girl had come from the other side of the state, a prospective university student. The man had bought the ticket in entire ignorance of the fact that he could not use it.

According to his orders the door keeper was forced to ask the couple to go home, although the offer of the full price of admission was made. This in spite of the fact that the number of couples advertised could not possibly have been exceeded by this application of common courtesy in enforcement.

After this slight altercation was settled, the scene changed to the ball room. Here the difficulty was in the dances. The chaperones were on the lookout for any violations of the rigid rule made recently by the committee. One couple was "called," although the man stated yesterday that neither knew any dance but the waltz and two-step. Numerous couples were requested to be careful about their dancing who themselves claim they were doing nothing but the straight Boston. One couple was requested to leave the hall. Several who were present stated that no tangos or dances other than the plain Boston appeared.

The dance was a good one as far as the committee in charge could make it. The programs were novel and original. Everything was in readiness for a good dance, but the arbitrary enforcement of rules without meeting individual conditions with individual solutions did not meet the favor of many of those present.

Miss Olive Keller of Beemer, Neb., is visiting friends in Lincoln.

Marion Smith of Minneapolis is visiting at the Kappa Alpha Theta house.
